EFFECTIVE DATE OF 1986 AMENDMENT

Amendment by Pub. L. 99-425 effective Oct. 1, 1986, see section 1001 of Pub. L. 99-425, set out as a note under section 8621 of this title.

§ 9835. Allotment of funds**(a) Distribution of appropriations; priorities, etc.**

(2) The Secretary shall reserve 13 percent of the amount appropriated for each fiscal year for use in accordance with the following order of priorities—

(A) Indian Head Start programs, services for children with disabilities, and migrant and seasonal Head Start programs, except that there shall be made available for each fiscal year for use by Indian Head Start programs and by migrant and seasonal Head Start programs, on a nationwide basis, not less than the amount that was obligated for use by Indian Head Start programs and by migrant and seasonal Head Start programs for fiscal year 1998;

(B) payments, subject to paragraph (7)—

(i) to Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Virgin Islands of the United States;

(ii) for fiscal years ending before October 1, 2001, to the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau; and

(iii) if legislation approving renegotiated Compacts of Free Association for the jurisdictions described in clause (ii) has not been enacted before September 30, 2001, for fiscal year 2002 to those jurisdictions;

according to their respective needs, except that such amount shall not exceed one-half of 1 percent of the sums appropriated for any fiscal year;

(C) training and technical assistance activities which are sufficient to meet the needs associated with program expansion and to foster program and management improvement activities as described in section 9843 of this title, in an amount for each fiscal year which is not less than 2 percent of the amount appropriated for such fiscal year, of which not less than \$3,000,000 of the amount appropriated for such fiscal year shall be made available to carry out activities described in section 9843(c)(4) of this title;

(D) discretionary payments made by the Secretary (including payments for all costs (other than compensation of Federal employees) of reviews of Head Start agencies and programs under section 9836a(c) of this title, and of activities carried out under paragraph (1), (2), or (3) of section 9836a(d) of this title related to correcting deficiencies and conducting proceedings to terminate the designation of Head Start agencies;¹ and

(E) payments for research, demonstration, and evaluation activities under section 9844 of this title.

No funds reserved under this paragraph or paragraph (3) may be combined with funds appropriated under any other Act if the purpose of combining funds is to make a single discretionary grant or a single discretionary payment, unless such funds appropriated under this subchapter are separately identified in such grant or payment and are used for the purposes of this subchapter. No Freely Associated State may receive financial assistance under this subchapter after fiscal year 2002.

(3)(A)(i) In order to provide assistance for activities specified in subparagraph (C) directed at the goals specified in subparagraph (B), the Secretary shall reserve, from the amount (if any) by which the funds appropriated under section 9834(a) of this title for a fiscal year exceed the adjusted prior year appropriation, a share equal to the sum of—

(II) any additional amount the Secretary may find necessary to address a demonstrated need for such activities.

(ii) As used in clause (i), the term “adjusted prior year appropriation” means, with respect to a fiscal year, the amount appropriated pursuant to section 9834(a) of this title for the preceding fiscal year, adjusted to reflect the percentage change in the Consumer Price Index for All Urban Consumers (issued by the Bureau of Labor Statistics) during such preceding fiscal year.

(B) Funds reserved under this paragraph (referred to in this paragraph as “quality improvement funds”) shall be used to accomplish any or all of the following goals:

(i) Ensuring that Head Start programs meet or exceed performance standards pursuant to section 9836a(a)(1)(A) of this title.

(ii) Ensuring that such programs have adequate numbers of qualified staff, and that such staff are furnished adequate training, including developing skills in working with children with non-English language background and children with disabilities, when appropriate.

(iii) Ensuring that salary levels and benefits are adequate to attract and retain qualified staff for such programs.

(iv) Using salary increases to improve staff qualifications, and to assist with the implementation of career development programs, for the staff of Head Start programs, and to encourage the staff to continually improve their skills and expertise by informing the staff of the availability of Federal and State incentive and loan forgiveness programs for professional development.

(v) Improving community-wide strategic planning and needs assessments for such programs and collaboration efforts for such programs.

(vi) Ensuring that the physical environments of Head Start programs are conducive to providing effective program services to children and families, and are accessible to children with disabilities and their parents.

¹ So in original. Probably should be “agencies;”. See 1998 Amendment note below.

(vii) Ensuring that such programs have qualified staff that can promote language skills and literacy growth of children and that can provide children with a variety of skills that have been identified, through scientifically based reading research, as predictive of later reading achievement.

(viii) Making such other improvements in the quality of such programs as the Secretary may designate.

(C) Quality improvement funds shall be used to carry out any or all of the following activities:

(i)(I) Not less than one-half of the amount reserved under this paragraph, to improve the compensation (including benefits) of classroom teachers and other staff of Head Start agencies and thereby enhance recruitment and retention of qualified staff, including recruitment and retention pursuant to achieving the requirements set forth in section 9843a(a) of this title. The expenditure of funds under this clause shall be subject to section 9848 of this title. Preferences in awarding salary increases, in excess of cost-of-living allowances, with such funds shall be granted to classroom teachers and staff who obtain additional training or education related to their responsibilities as employees of a Head Start program.

(II) If a Head Start agency certifies to the Secretary for such fiscal year that part of the funds set aside under subclause (I) to improve wages cannot be expended by such agency to improve wages because of the operation of section 9848 of this title, then such agency may expend such part for any of the uses specified in this subparagraph (other than wages).

(III) From the remainder of the amount reserved under this paragraph (after the Secretary carries out subclause (I)), the Secretary shall carry out any or all of the activities described in clauses (ii) through (vii), placing the highest priority on the activities described in clause (ii).

(ii) To train classroom teachers and other staff to meet the education performance standards described in section 9836a(a)(1)(B) of this title, through activities—

(I) to promote children's language and literacy growth, through techniques identified through scientifically based reading research;

(II) to promote the acquisition of the English language for non-English background children and families;

(III) to foster children's school readiness skills through activities described in section 9843a(a)(1) of this title; and

(IV) to provide training necessary to improve the qualifications of the staff of the Head Start agencies and to support staff training, child counseling, and other services necessary to address the problems of children participating in Head Start programs, including children from dysfunctional families, children who experience chronic violence in their communities, and children who experience substance abuse in their families.

(iii) To employ additional Head Start staff, including staff necessary to reduce the child-

staff ratio and staff necessary to coordinate a Head Start program with other services available to children participating in such program and to their families.

(iv) To pay costs incurred by Head Start agencies to purchase insurance (other than employee benefits) and thereby maintain or expand Head Start services.

(v) To supplement amounts provided under paragraph (2)(C) to provide training necessary to improve the qualifications of the staff of the Head Start agencies, and to support staff training, child counseling, and other services necessary to address the problems of children participating in Head Start programs, including children from dysfunctional families, children who experience chronic violence in their communities, and children who experience substance abuse in their families.

(vi) Such other activities as the Secretary may designate.

(D)(i) Funds reserved under subparagraph (A) shall be allotted by the Secretary as follows:

(I) 80 percent of such funds shall be allotted among the States in the same proportion as the Secretary allots funds among the States under paragraph (4) for the respective fiscal year.

(II) 20 percent of such funds shall be allotted among the States, geographical areas specified in subsection (a)(2)(B) of this section and Indian Head Start programs and migrant and seasonal Head Start programs, and used to make grants to Head Start agencies, at the discretion of the Secretary.

(ii) Funds allotted under clause (i) shall be used by the Secretary to make grants to Head Start agencies that receive grants from funds allotted under paragraph (4) for such fiscal year, in such amounts as the Secretary considers to be appropriate, for expenditure for activities specified in subparagraph (C).

(iii) Funds received under this subparagraph shall be used to supplement, not to supplant, funds received under paragraph (2) or (4).

(4) Subject to section 9834(b) of this title, the Secretary shall allot the remaining amounts appropriated in each fiscal year among the States, in accordance with latest satisfactory data so that—

(A) each State receives an amount which is equal to the amount the State received for fiscal year 1998; and

(B) any amount available after all allotments are made under subparagraph (A) for such fiscal year shall be distributed proportionately on the basis of the number of children less than 5 years of age from families whose income is below the poverty line.

For purposes of this paragraph, for each fiscal year the Secretary shall use the most recent data available on the number of children less than 5 years of age from families whose income is below the poverty line, as published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that use of the most recent data available would be inappropriate or unreliable. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph

are inappropriate or unreliable, the Secretaries shall issue a report setting forth their reasons in detail.

(5)(A) From amounts reserved and allotted pursuant to paragraph (4), the Secretary shall reserve such sums as may be necessary to award the collaboration grants described in subparagraphs (B) and (D).

(B) From the reserved sums, the Secretary may award a collaboration grant to each State to facilitate collaboration regarding activities carried out in the State under this subchapter, and other activities carried out in, and by, the State that are designed to benefit low-income children and families and to encourage Head Start agencies to collaborate with entities involved in State and local planning processes (including the State lead agency administering the financial assistance received under subchapter II-B of this chapter and the entities providing resource and referral services in the State) in order to better meet the needs of low-income children and families.

(C) A State that receives a grant under subparagraph (B) shall—

(i) appoint an individual to serve as a State liaison between—

(I) the appropriate regional office of the Administration for Children and Families and agencies and individuals carrying out Head Start programs in the State; and

(II) agencies (including local educational agencies) and entities carrying out programs serving low-income children and families;

(ii) involve the State Head Start Association in the selection of the individual, and involve the association in determinations relating to the ongoing direction of the collaboration;

(iii) ensure that the individual holds a position with sufficient authority and access to ensure that the collaboration described in subparagraph (B) is effective and involves a range of State agencies;

(iv) ensure that the collaboration described in subparagraph (B) involves coordination of Head Start services with health care, welfare, child care, education, and community service activities, family literacy services, activities relating to children with disabilities (including coordination of services with those State officials who are responsible for administering part C and section 619 of the Individuals with Disabilities Education Act (20 U.S.C. 1431–1444, 1419)), and services for homeless children;

(v) include representatives of the State Head Start Association and local Head Start agencies in unified planning regarding early care and education services at both the State and local levels, including collaborative efforts to plan for the provision of full-working-day, full calendar year early care and education services for children; and

(vi) encourage local Head Start agencies to appoint a State level representative to represent Head Start agencies within the State in conducting collaborative efforts described in subparagraphs (B) and (D), and in clause (v).

(D) Following the award of collaboration grants described in subparagraph (B), the Secretary shall provide, from the reserved sums, supplemental funding for collaboration grants—

(i) to States that (in consultation with their State Head Start Associations) develop statewide, regional, or local unified plans for early childhood education and child care that include the participation of Head Start agencies; and

(ii) to States that engage in other innovative collaborative initiatives, including plans for collaborative training and professional development initiatives for child care, early childhood education and Head Start service managers, providers, and staff.

(E)(i) The Secretary shall—

(I) review on an ongoing basis evidence of barriers to effective collaboration between Head Start programs and other Federal, State, and local child care and early childhood education programs and resources;

(II) develop initiatives, including providing additional training and technical assistance and making regulatory changes, in necessary cases, to eliminate barriers to the collaboration; and

(III) develop a mechanism to resolve administrative and programmatic conflicts between programs described in subclause (I) that would be a barrier to service providers, parents, or children related to the provision of unified services and the consolidation of funding for child care services.

(ii) In the case of a collaborative activity funded under this subchapter and another provision of law providing for Federal child care or early childhood education, the use of equipment and nonconsumable supplies purchased with funds made available under this subchapter or such provision shall not be restricted to children enrolled or otherwise participating in the program carried out under that subchapter or provision, during a period in which the activity is predominantly funded under this subchapter or such provision.

(F) As used in this paragraph, the term “low-income”, used with respect to children or families, shall not be considered to refer only to children or families that meet the low-income criteria prescribed pursuant to section 9840(a)(1)(A) of this title.

(6)(A) From amounts reserved and allotted pursuant to paragraphs (2) and (4), the Secretary shall use, for grants for programs described in section 9840a(a) of this title, a portion of the combined total of such amounts equal to 7.5 percent for fiscal year 1999, 8 percent for fiscal year 2000, 9 percent for fiscal year 2001, 10 percent for fiscal year 2002, and 10 percent for fiscal year 2003, of the amount appropriated pursuant to section 9834(a) of this title, except as provided in subparagraph (B).

(B)(i) If the Secretary does not submit an interim report on the preliminary findings of the Early Head Start impact study currently being conducted by the Secretary (as of October 27, 1998) to the appropriate committees by June 1, 2001, the amount of the reserved portion for fiscal year 2002 that exceeds the reserved portion for fiscal year 2001, if any, shall be used for quality improvement activities described in subsection (a)(3) of this section and shall not be used to serve an increased number of eligible children under section 9840a of this title.

(ii) If the Secretary does not submit a final report on the Early Head Start impact study to the appropriate committees by June 1, 2002, or if the Secretary finds in the report that there are substantial deficiencies in the programs carried out under section 9840a of this title, the amount of the reserved portion for fiscal year 2003 that exceeds the reserved portion for fiscal year 2002, if any, shall be used for quality improvement activities described in subsection (a)(3) of this section and shall not be used to serve an increased number of eligible children under section 9840a of this title.

(iii) In this subparagraph:

(I) The term “appropriate committees” means the Committee on Education and the Workforce and the Committee on Appropriations of the House of Representatives and the Committee on Labor and Human Resources and the Committee on Appropriations of the Senate.

(II) The term “reserved portion”, used with respect to a fiscal year, means the amount required to be used in accordance with subparagraph (A) for that fiscal year.

(C)(i) For any fiscal year for which the Secretary determines that the amount appropriated under section 9834(a) of this title is not sufficient to permit the Secretary to reserve the portion described in subparagraph (A) without reducing the number of children served by Head Start programs or adversely affecting the quality of Head Start services, relative to the number of children served and the quality of the services during the preceding fiscal year, the Secretary may reduce the percentage of funds required to be reserved for the portion described in subparagraph (A) for the fiscal year for which the determination is made, but not below the percentage required to be so reserved for the preceding fiscal year.

(ii) For any fiscal year for which the amount appropriated under section 9834(a) of this title is reduced to a level that requires a lower amount to be made available under this subchapter to Head Start agencies and entities described in section 9840a of this title, relative to the amount made available to the agencies and entities for the preceding fiscal year, adjusted as described in paragraph (3)(A)(ii), the Secretary shall proportionately reduce—

(I) the amounts made available to the entities for programs carried out under section 9840a of this title; and

(II) the amounts made available to Head Start agencies for Head Start programs.

(7) For purposes of this subsection, the term “State” does not include Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and Palau.

(b) Federal share

Financial assistance extended under this subchapter for a Head Start program shall not exceed 80 percent of the approved costs of the assisted program or activities, except that the Secretary may approve assistance in excess of such percentage if the Secretary determines

that such action is required in furtherance of the purposes of this subchapter. For the purpose of making such determination, the Secretary shall take into consideration with respect to the Head Start program involved—

(1) the lack of resources available in the community that may prevent the Head Start agency from providing all or a portion of the non-Federal contribution that may be required under this subsection;

(2) the impact of the cost the Head Start agency may incur in initial years it carries out such program;

(3) the impact of an unanticipated increase in the cost the Head Start agency may incur to carry out such program;

(4) whether the Head Start agency is located in a community adversely affected by a major disaster; and

(5) the impact on the community that would result if the Head Start agency ceased to carry out such program.

Non-Federal contributions may be in cash or in kind, fairly evaluated, including plant, equipment, or services. The Secretary shall not require non-Federal contributions in excess of 20 percent of the approved costs of programs or activities assisted under this subchapter.

(c) Services covered

No programs shall be approved for assistance under this subchapter unless the Secretary is satisfied that the services to be provided under such program will be in addition to, and not in substitution for, comparable services previously provided without Federal assistance. The requirement imposed by the preceding sentence shall be subject to such regulations as the Secretary may prescribe.

(d) Enrollment of children with disabilities and provision of services

The Secretary shall establish policies and procedures designed to assure that for fiscal year 1999 and thereafter no less than 10 percent of the total number of enrollment opportunities in Head Start programs in each State shall be available for children with disabilities and that services shall be provided to meet their special needs. Such policies and procedures shall require Head Start agencies to coordinate programmatic efforts with efforts to implement part C and section 619 of the Individuals with Disabilities Education Act (20 U.S.C. 1431–1444, 1419).

(e) Distribution of benefits between residents of rural and urban areas

The Secretary shall adopt appropriate administrative measures to assure that the benefits of this subchapter will be distributed equitably between residents of rural and urban areas.

(f) Guidelines for local service delivery models

The Secretary shall establish procedures to enable Head Start agencies to develop locally designed or specialized service delivery models to address local community needs.

(g) Maintenance of current services; expansion of Head Start programs

(1) If in any fiscal year, the amounts appropriated to carry out the program under this sub-

chapter exceed the amount appropriated in the prior fiscal year, the Secretary shall, prior to using such additional funds to serve an increased number of children, allocate such funds in a manner that makes available the funds necessary to maintain the level of services provided during the prior year, taking into consideration the percentage change in the Consumer Price Index For All Urban Consumers, as published by the Bureau of Labor Statistics.

(2) For the purpose of expanding Head Start programs, in allocating funds to an applicant within a State, from amounts allotted to a State pursuant to subsection (a)(4) of this section, the Secretary shall take into consideration—

(A) the quality of the applicant's programs (including Head Start and other child care or child development programs) in existence on the date of the allocation, including, in the case of Head Start programs in existence on the date of the allocation, the extent to which such programs meet or exceed performance standards and other requirements under this subchapter, and the performance history of the applicant in providing services under other Federal programs (other than the program carried out under this subchapter);

(B) the applicant's capacity to expand services (including, in the case of Head Start programs in existence on the date of the allocation, whether the applicant accomplished any prior expansions in an effective and timely manner);

(C) the extent to which the applicant has undertaken community-wide strategic planning and needs assessments involving other community organizations and public agencies serving children and families (including organizations serving families in whose homes English is not the language customarily spoken), and organizations and public entities serving children with disabilities;

(D) the extent to which the family and community needs assessment of the applicant reflects a need to provide full-working-day or full calendar year services and the extent to which, and manner in which, the applicant demonstrates the ability to collaborate and participate with other local community providers of child care or preschool services to provide full-working-day full calendar year services;

(E) the numbers of eligible children in each community who are not participating in a Head Start program or any other early childhood program;

(F) the concentration of low-income families in each community;

(G) the extent to which the applicant proposes to foster partnerships with other service providers in a manner that will enhance the resource capacity of the applicant; and

(H) the extent to which the applicant, in providing services, plans to coordinate with the local educational agency serving the community involved and with schools in which children participating in a Head Start program operated by such agency will enroll following such program, regarding such services and the education services provided by such local educational agency.

(3) In determining the amount of funds reserved pursuant to subparagraph (A) or (B) of subsection (a)(2) of this section to be used for expanding Head Start programs under this subchapter, the Secretary shall take into consideration, to the extent appropriate, the factors specified in paragraph (2).

(4) Notwithstanding subsection (a)(2) of this section, after taking into account paragraph (1), the Secretary may allocate a portion of the remaining additional funds under subsection (a)(2)(A) of this section for the purpose of increasing funds available for activities described in such subsection.

(h) Full-working-day services

Financial assistance provided under this subchapter may be used by each Head Start program to provide full-working-day Head Start services to any eligible child throughout the full calendar year.

(i) Vehicle safety regulations

The Secretary shall issue regulations establishing requirements for the safety features, and the safe operation, of vehicles used by Head Start agencies to transport children participating in Head Start programs.

(j) Compensation of staff

Any agency that receives financial assistance under this subchapter to improve the compensation of staff who provide services under this subchapter² shall use the financial assistance to improve the compensation of such staff, regardless of whether the agency has the ability to improve the compensation of staff employed by the agency who do not provide Head Start services.

(k) Flexibility in hours of service requirement

(1) The Secretary shall allow center-based Head Start programs the flexibility to satisfy the total number of hours of service required by the regulations in effect on May 18, 1994, to be provided to children in Head Start programs so long as such agencies do not—

(A) provide less than 3 hours of service per day;

(B) reduce the number of days of service per week; or

(C) reduce the number of days of service per year.

(2) The provisions of this subsection shall not be construed to restrict the authority of the Secretary to fund alternative program variations authorized under section 1306.35 of title 45 of the Code of Federal Regulations in effect on May 18, 1994.

(l) Frequent relocation of migrant families

(1) With funds made available under subsection (a)(2) of this section to migrant and seasonal Head Start programs, the Secretary shall give priority to migrant and seasonal Head Start programs that serve eligible children of migrant and seasonal farmworker families whose work requires them to relocate most frequently.

(2) For purposes of subsection (a)(2)(A) of this section, in determining the need and demand for

² See References in Text note below.

migrant and seasonal Head Start programs (and services provided through such programs), the Secretary shall consult with appropriate entities, including providers of services for migrant and seasonal Head Start programs. The Secretary shall, after taking into consideration the need and demand for migrant and seasonal Head Start programs (and such services), ensure that there is an adequate level of such services for eligible children of migrant farmworkers before approving an increase in the allocation of funds provided under such subsection for unserved eligible children of seasonal farmworkers. In serving the eligible children of seasonal farmworkers, the Secretary shall ensure that services provided by migrant and seasonal Head Start programs do not duplicate or overlap with other Head Start services available to eligible children of such farmworkers.

§ 9836. Designation of Head Start agencies

(a) Authorization; prerequisites

The Secretary is authorized to designate as a Head Start agency any local public or private nonprofit or for-profit agency, within a community, which (1) has the power and authority to carry out the purposes of this subchapter and perform the functions set forth in section 9837 of this title within a community; and (2) is determined by the Secretary (in consultation with the chief executive officer of the State involved, if such State expends non-Federal funds to carry out Head Start programs) to be capable of planning, conducting, administering, and evaluating, either directly or by other arrangements, a Head Start program.

(b) Definition

For purposes of this subchapter, a community may be a city, county, or multicity or multicounty unit within a State, an Indian reservation (including Indians in any off-reservation area designated by an appropriate tribal government in consultation with the Secretary), or a neighborhood or other area (irrespective of boundaries or political subdivisions) which provides a suitable organizational base and possesses the commonality of interest needed to operate a Head Start program.

(c) Priority

(1) In the administration of the provisions of this section (subject to paragraph (2)), the Secretary shall, in consultation with the chief executive officer of the State involved if such State expends non-Federal funds to carry out Head Start programs, give priority in the designation of Head Start agencies to any local public or private nonprofit or for-profit agency which is receiving funds under any Head Start program on August 13, 1981, unless the Secretary determines that the agency involved fails to meet program and financial management requirements, performance standards described in section 9836a(a)(1) of this title, results-based performance measures developed by the Secretary under section 9836a(b) of this title, or other requirements established by the Secretary.

(2) If there is no agency of the type referred to in paragraph (1) because of any change in the assistance furnished to programs for economically disadvantaged persons, the Secretary shall, in consultation with the chief executive officer of the State if such State expends non-Federal funds to carry out Head Start programs, give priority in the designation of Head Start agencies to any successor agency that is operating a Head Start program in substantially the same manner as the predecessor agency that did receive funds in the fiscal year preceding the fiscal year for which the determination is made.

(3) Notwithstanding any other provision of this subsection, the Secretary shall not give such priority to any agency with respect to which financial assistance has been terminated, or an application for refunding has been denied, under this subchapter by the Secretary after affording such agency reasonable notice and opportunity for a full and fair hearing in accordance with section 9841(a)(3) of this title.

(d) Designation; Head Start agency; qualified applicants

If no entity in a community is entitled to the priority specified in subsection (c) of this section, then the Secretary may designate a Head Start agency from among qualified applicants in such community. In selecting from among qualified applicants for designation as a Head Start agency, the Secretary shall give priority to any qualified agency that functioned as a Head Start delegate agency in the community and carried out a Head Start program that the Secretary determines met or exceeded such performance standards and such results-based performance measures. In selecting from among qualified applicants for designation as a Head Start agency, the Secretary shall consider the effectiveness of each such applicant to provide Head Start services, based on—

(1) any past performance of such applicant in providing services comparable to Head Start services, including how effectively such applicant provided such comparable services;

(2) the plan of such applicant to provide comprehensive health, nutritional, educational, social, and other services needed to aid participating children in attaining their full potential;

(3) the plan of such applicant to coordinate the Head Start program it proposes to carry out, with other preschool programs, including Even Start programs under part B of chapter 1 of title I of the Elementary and Secondary Education Act of 1965¹ (20 U.S.C. 2741 et seq.) and programs under part C and section 619 of the Individuals with Disabilities Education Act (20 U.S.C. 1431–1444, 1419), and with the educational programs such children will enter at the age of compulsory school attendance;

(4) the plan of such applicant—

(A) to seek the involvement of parents of participating children in activities (at home and in the center involved where practicable) designed to help such parents become full partners in the education of their children;

(B) to afford such parents the opportunity to participate in the development, conduct, and overall performance of the program at the local level;

(C) to offer (directly or through referral to local entities, such as entities carrying out Even Start programs under part B of chapter 1 of title I of the Elementary and Secondary Education Act of 1965¹ (20 U.S.C. 2741 et seq.), public and school libraries, and family support programs) to such parents—

- (i) family literacy services; and
- (ii) parenting skills training;

(D) to offer to parents of participating children substance abuse counseling (either directly or through referral to local entities), including information on drug-exposed infants and fetal alcohol syndrome;

(E) at the option of such applicant, to offer (directly or through referral to local entities) to such parents—

- (i) training in basic child development;
- (ii) assistance in developing communication skills;
- (iii) opportunities for parents to share experiences with other parents; or
- (iv) any other activity designed to help such parents become full partners in the education of their children; and

(F) to provide, with respect to each participating family, a family needs assessment that includes consultation with such parents about the benefits of parent involvement and about the activities described in subparagraphs (C), (D), and (E) in which such parents may choose to become involved (taking into consideration their specific family needs, work schedules, and other responsibilities);

(5) the ability of such applicant to carry out the plans described in paragraphs (2), (3), and (4);

(6) other factors related to the requirements of this subchapter;

(7) the plan of such applicant to meet the needs of non-English background children and their families, including needs related to the acquisition of the English language;

(8) the plan of such applicant to meet the needs of children with disabilities;

(9) the plan of such applicant who chooses to assist younger siblings of children who will participate in the proposed Head Start program to obtain health services from other sources; and

(10) the plan of such applicant to collaborate with other entities carrying out early childhood education and child care programs in the community.

(e) Designation of agency on an interim basis

If no agency in the community receives priority designation under subsection (c) of this section, and there is no qualified applicant in the community, the Secretary shall designate a qualified agency to carry out the Head Start program in the community on an interim basis until a qualified applicant from the community is so designated.

(f) Involvement of parents and area residents in selection of agencies

The Secretary shall require that the practice of significantly involving parents and area residents affected by the program in selection of Head Start agencies be continued.

(g) Priority for nonprofit agencies and applicants with demonstrated capacity

§ 9839. Administrative requirements and standards

(a) Employment practices, nonpartisanship, staff accountability, public access to information, etc.

Each Head Start agency shall observe standards of organization, management, and administration which will assure, so far as reasonably possible, that all program activities are conducted in a manner consistent with the purposes of this subchapter and the objective of providing assistance effectively, efficiently, and free of any taint of partisan political bias or personal or family favoritism. Each such agency shall establish or adopt rules to carry out this section, which shall include rules to assure full staff accountability in matters governed by law, regulations, or agency policy. Each agency shall also provide for reasonable public access to information, including public hearings at the request of appropriate community groups and reasonable public access to books and records of the agency or other agencies engaged in program activities or operations involving the use of authority or funds for which it is responsible. Each such agency shall adopt for itself and other agencies using funds or exercising authority for which it is responsible, rules designed to (1) establish specific standards governing salaries, salary increases, travel and per diem allowances, and other employee benefits; (2) assure that only persons capable of discharging their duties with competence and integrity are employed and that employees are promoted or advanced under impartial procedures calculated to improve agency performance and effectiveness; (3) guard against personal or financial conflicts of interest; and (4) define employee duties in an appropriate manner which will in any case preclude employees from participating, in connection with the performance of their duties, in any form of picketing, protest, or other direct action which is in violation of law.

(b) Development and administrative costs of programs

Except as provided in subsection (f) of this section, no financial assistance shall be extended under this subchapter in any case in which the Secretary determines that the costs of developing and administering a program assisted under this subchapter exceed 15 percent of the total costs, including the required non-Federal contributions to such costs, of such program. The Secretary shall establish by regulation, criteria for determining (1) the costs of developing and administering such program; and (2) the total costs of such program. In any case in which the Secretary determines that the cost of administering such program does not exceed 15 percent of such total costs but is, in the judgment of the Secretary, excessive, the Secretary shall forthwith require the recipient of such financial assistance to take such steps prescribed by the Secretary as will eliminate such excessive administrative cost, including the sharing by one or more Head Start agencies of a common director and other administrative personnel. The Secretary may waive the limitation prescribed by this subsection for specific periods of time

not to exceed 12 months whenever the Secretary determines that such a waiver is necessary in order to carry out the purposes of this subchapter.

(c) Rules and regulations; special or simplified requirements for small agencies; common or joint use of facilities

The Secretary shall prescribe rules or regulations to supplement subsections (a) and (f) of this section, which shall be binding on all agencies carrying on Head Start program activities with financial assistance under this subchapter. The Secretary may, where appropriate, establish special or simplified requirements for smaller agencies or agencies operating in rural areas. Policies and procedures shall be established to ensure that indirect costs attributable to the common or joint use of facilities and services by programs assisted under this subchapter and other programs shall be fairly allocated among the various programs which utilize such facilities and services.

(d) Publication and notification of proposed rules, etc.

At least 30 days prior to their effective date, all rules, regulations, and application forms shall be published in the Federal Register and shall be sent to each grantee with the notification that each such grantee has the right to submit comments pertaining thereto to the Secretary prior to the final adoption thereof.

(e) Neutrality concerning union organizing

Funds appropriated to carry out this subchapter shall not be used to assist, promote, or deter union organizing.

(f) Purchase of facility; approval requirements; financial assistance

(1) The Secretary shall establish uniform procedures for Head Start agencies to request approval to purchase facilities, or to request approval of the purchase (after December 31, 1986) of facilities, to be used to carry out Head Start programs. The Secretary shall suspend any proceedings pending against any Head Start agency to claim costs incurred in purchasing such facilities until the agency has been afforded an opportunity to apply for approval of the purchase and the Secretary has determined whether the purchase will be approved. The Secretary shall not be required to repay claims previously satisfied by Head Start agencies for costs incurred in the purchase of such facilities.

(2) Financial assistance provided under this subchapter may not be used by a Head Start agency to purchase a facility (including paying the cost of amortizing the principal, and paying interest on, loans) to be used to carry out a Head Start program unless the Secretary approves a request that is submitted by such agency and contains—

(A) a description of the site of the facility proposed to be purchased or that was previously purchased;

(B) the plans and specifications of such facility;

(C) information demonstrating that—

(i) the proposed purchase will result, or the previous purchase has resulted, in sav-

ings when compared to the costs that would be incurred to acquire the use of an alternative facility to carry out such program; or

(ii) the lack of alternative facilities will prevent, or would have prevented, the operation of such program;

(D) in the case of a request regarding a previously purchased facility, information demonstrating that the facility will be used principally as a Head Start center, or a direct support facility for a Head Start program; and

(E) such other information and assurances as the Secretary may require.

(3) Upon a determination by the Secretary that suitable facilities are not otherwise available to Indian tribes to carry out Head Start programs, and that the lack of suitable facilities will inhibit the operation of such programs, the Secretary, in the discretion of the Secretary, may authorize the use of financial assistance, from the amount reserved under section 9835(a)(2)(A) of this title, to make payments for the purchase of facilities owned by such tribes. The amount of such a payment for such a facility shall not exceed the fair market value of the facility.

(g) Payments for capital expenditures

(1) Upon a determination by the Secretary that suitable facilities (including public school facilities) are not otherwise available to Indian tribes, rural communities, and other low-income communities to carry out Head Start programs, that the lack of suitable facilities will inhibit the operation of such programs, and that construction of such facilities is more cost effective than purchase of available facilities or renovation, the Secretary, in the discretion of the Secretary, may authorize the use of financial assistance under this subchapter to make payments for capital expenditures related to facilities that will be used to carry out such programs. The Secretary shall establish uniform procedures for Head Start agencies to request approval for such payments, and shall promote, to the extent practicable, the collocation of Head Start programs with other programs serving low-income children and families.

(2) Such payments may be used for capital expenditures (including paying the cost of amortizing the principal, and paying interest on, loans) such as expenditures for—

(A) construction of facilities that are not in existence on the date of the determination;

(B) major renovation of facilities in existence on such date; and

(C) purchase of vehicles used for programs conducted at the Head Start facilities.

(3) All laborers and mechanics employed by contractors or subcontractors in the construction or renovation of facilities to be used to carry out Head Start programs shall be paid wages at not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40.

(h) Personnel preferences to Indian tribe members

In all personnel actions of the American Indian Programs Branch of the Head Start Bureau

of the Administration for Children and Families, the Secretary shall give the same preference to individuals who are members of an Indian tribe as the Secretary gives to a disabled veteran, as defined in section 2108(3)(C) of title 5. The Secretary shall take such additional actions as may be necessary to promote recruitment of such individuals for employment in the Administration.

“(a) **STUDY.**—The Secretary of Health and Human Services shall conduct a study regarding the benefits available to individuals employed by Head Start agencies under the Head Start Act (42 U.S.C. 9831 et seq.).

“(b) **REPORT.**—

“(1) **PREPARATION.**—The Secretary shall prepare a report, containing the results of the study, that—

“(A) describes the benefits, including health care benefits, family and medical leave, and retirement pension benefits, available to such individuals;

“(C) addresses the feasibility of participation by such individuals in the Federal Employees’ Retirement System under chapter 84 of title 5, United States Code.

“(2) **SUBMISSION.**—The Secretary shall submit the report to the appropriate committees of Congress.”

§ 9840. Participation in Head Start programs

(a) Criteria for eligibility

(1) The Secretary shall by regulation prescribe eligibility for the participation of persons in Head Start programs assisted under this subchapter. Except as provided in paragraph (2), such criteria may provide—

(A) that children from low-income families shall be eligible for participation in programs assisted under this subchapter if their families’ incomes are below the poverty line, or if their families are eligible or, in the absence of child care, would potentially be eligible for public assistance; and

(B) pursuant to such regulations as the Secretary shall prescribe, that—

(i) programs assisted under this subchapter may include, to a reasonable extent, participation of children in the area served who would benefit from such programs but whose families do not meet the low-income criteria prescribed pursuant to subparagraph (A); and

(ii) a child who has been determined to meet the low-income criteria and who is participating in a Head Start program in a program year shall be considered to continue to meet the low-income criteria through the end of the succeeding program year.

In determining, for purposes of this paragraph, whether a child who has applied for enrollment in a Head Start program meets the low-income criteria, an entity may consider evidence of family income during the 12 months preceding the month in which the application is submit-

ted, or during the calendar year preceding the calendar year in which the application is submitted, whichever more accurately reflects the needs of the family at the time of application.

(2) Whenever a Head Start program is operated in a community with a population of 1,000 or less individuals and—

(A) there is no other preschool program in the community;

(B) the community is located in a medically underserved area, as designated by the Secretary pursuant to section 254c(b)(3)¹ of this title and is located in a health professional shortage area, as designated by the Secretary pursuant to section 254e(a)(1) of this title;

(C) the community is in a location which, by reason of remoteness, does not permit reasonable access to the types of services described in clauses (A) and (B); and

(D) not less than 50 percent of the families to be served in the community are eligible under the eligibility criteria established by the Secretary under paragraph (1);

the Head Start program in each such locality shall establish the criteria for eligibility, except that no child residing in such community whose family is eligible under such eligibility criteria shall, by virtue of such project’s eligibility criteria, be denied an opportunity to participate in such program. During the period beginning on October 30, 1984, and ending on October 1, 1994, and unless specifically authorized in any statute of the United States enacted after October 30, 1984, the Secretary may not make any change in the method, as in effect on April 25, 1984, of calculating income used to prescribe eligibility for the participation of persons in the Head Start programs assisted under this subchapter if such change would result in any reduction in, or exclusion from, participation of persons in any of such programs.

(b) Establishment of fee schedule or charging of fees; payment by families willing and able to pay

The Secretary shall not prescribe any fee schedule or otherwise provide for the charging of any fees for participation in Head Start programs, unless such fees are authorized by legislation hereafter enacted. Nothing in this subsection shall be construed to prevent the families of children who participate in Head Start programs and who are willing and able to pay the full cost of such participation from doing so. A Head Start agency that provides a Head Start program with full-working-day services in collaboration with other agencies or entities may collect a family copayment to support extended day services if a copayment is required in conjunction with the collaborative. The copayment charged to families receiving services through the Head Start program shall not exceed the copayment charged to families with similar incomes and circumstances who are receiving the services through participation in a program carried out by another agency or entity.

(c) Availability of more than one year of services; children eligible

Each Head Start program operated in a community shall be permitted to provide more than

¹ See References in Text note below.

1 year of Head Start services to eligible children (age 3 to compulsory school attendance) in the State. Each Head Start program operated in a community shall be permitted to recruit and accept applications for enrollment of children throughout the year.

(d) Indian tribes

(1) An Indian tribe that—

(A) operates a Head Start program;

(B) enrolls as participants in the program all children in the community served by the tribe (including a community that is an off-reservation area, designated by an appropriate tribal government, in consultation with the Secretary) from families that meet the low-income criteria prescribed under subsection (a)(1)(A) of this section; and

(C) has the resources to enroll additional children in the community who do not meet the low-income criteria;

may enroll such additional children in a Head Start program, in accordance with this subsection, if the program predominantly serves children who meet the low-income criteria.

(2) The Indian tribe shall enroll the children in the Head Start program in accordance with such requirements as the Secretary may specify by regulation promulgated after consultation with Indian tribes.

(3) In providing services through a Head Start program to such children, the Indian tribe may not use funds that the Secretary has determined, in accordance with section 9835(g)(3) of this title, are to be used for expanding Head Start programs under this subchapter.

(7) Reports

(A) Submission of interim reports

The organization shall prepare and submit to the Secretary two interim reports on the research. The first interim report shall describe the design of the research, and the rationale for the design, including a description of how potential sources of variation in impact of Head Start programs have been considered in designing the research. § 9901. Purposes and goals

The purposes of this chapter are—

(1) to provide assistance to States and local communities, working through a network of community action agencies and other neighborhood-based organizations, for the reduction of poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient (particularly families who are attempting to transition off a State program carried out under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.)); and

(2) to accomplish the goals described in paragraph (1) through—

(A) the strengthening of community capabilities for planning and coordinating the use of a broad range of Federal, State, local, and other assistance (including private resources) related to the elimination of poverty, so that this assistance can be used in a manner responsive to local needs and conditions;

(B) the organization of a range of services related to the needs of low-income families and individuals, so that these services may have a measurable and potentially major impact on the causes of poverty in the community and may help the families and individuals to achieve self-sufficiency;

(C) the greater use of innovative and effective community-based approaches to attacking the causes and effects of poverty and of community breakdown;

(D) the maximum participation of residents of the low-income communities and members of the groups served by programs assisted through the block grants made under this chapter to empower such resi-

dents and members to respond to the unique problems and needs within their communities; and

(E) the broadening of the resource base of programs directed to the elimination of poverty so as to secure a more active role in the provision of services for—

(i) private, religious, charitable, and neighborhood-based organizations; and

(ii) individual citizens, and business, labor, and professional groups, who are able to influence the quantity and quality of opportunities and services for the poor.

§ 9925. Demonstration partnership agreements addressing needs of poor

(a) General authority

(1) In order to stimulate the development of new approaches to provide for greater self-sufficiency of the poor, to test and evaluate such new approaches, to disseminate project results and evaluation findings so that such approaches can be replicated, and to strengthen the integration, coordination, and redirection of activities to promote maximum self-sufficiency among the poor, the Secretary may make grants from funds appropriated under subsection (e) of this section to eligible entities for the development and implementation of new and innovative approaches to deal with particularly critical needs or problems of the poor which are common to a number of communities. Grants may be made only with respect to applications which—

(A) involve activities which can be incorporated into or be closely coordinated with eligible entities' ongoing programs;

(B) involve significant new combinations of resources or new and innovative approaches involving partnership agreements;

(D) contain an assurance that the applicant for such grants will obtain an independent, methodologically sound evaluation of the effectiveness of the activities carried out with such grant and will submit such evaluation to the Secretary.

(2) No grant may be made under this section unless an application is submitted to the Secretary at such time, in such manner, and containing or accompanied by such information, as the Secretary may require.

(3) Initial and subsequent grant awards may fully fund projects for periods of up to 3 years.

(b) Federal share; limitations

(1)(A) Subject to subparagraph (B), grants awarded pursuant to this section shall be used for programs and shall not exceed 50 per centum of the cost of such programs.

(B) After the first funding period for which an eligible entity receives a grant under this section to carry out a program, the amount of a subsequent grant made under this section to such entity to carry out such program may not exceed 80 percent of the amount of the grant previously received by such entity under this section to carry out such program.

(2) Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant, equipment, or services.

(3) Not more than one grant in each fiscal year may be made to any eligible entity, and no grant may exceed \$350,000. Not more than 2 grants may be made under this section to an eligible entity to carry out a particular program.

(c) Programs directed to special populations

(1) In addition to the grant programs described in subsection (a) of this section, the Secretary may make grants to community action agencies for the purpose of enabling such agencies to demonstrate new approaches to dealing with the problems caused by entrenched, chronic unemployment and lack of economic opportunities for urban youth. Demonstrations shall include such activities as peer counseling, mentoring, development of job skills, assistance with social skills, community services, family literacy, parenting skills, opportunities for employment or entrepreneurship, and other services designed to assist such at-risk youth to continue their education, to secure meaningful employment, to perform community service, or to pursue other productive alternatives within the community.

(2) Such grants may be made only with respect to applications that—

(A) identify and describe the population to be served, the problems to be addressed, the overall approach and methods of outreach and recruitment to be used, and the services to be provided;

(B) describe how the approach to be used differs from other approaches used for the population to be served by the project;

(C) describe the objectives of the project and contain a plan for measuring progress toward meeting those objectives; and

(D) contain assurances that the grantee will report on the progress and results of the demonstration at such times and in such manner as the Secretary shall require.

(3) Notwithstanding subsection (b) of this section, such grants shall not exceed 80 percent of the cost of such programs.

(4) Such grants made under this subsection on a competitive basis shall be based on an annual competition determined by the Secretary. Grants made under this subsection shall not exceed \$500,000.

(2) it is in the interest of public health and safety to have a continuing supply of adequately educated persons and appropriate accreditation and certification programs administered by State governments;

(3) the protection of the public health and safety from unnecessary exposure to potentially hazardous radiation due to medical and dental radiologic procedures and the assurance of efficacious procedures are the responsibility of State and Federal governments;

(4) persons who administer radiologic procedures, including procedures at Federal facilities, should be required to demonstrate competence by reason of education, training, and experience; and

(5) the administration of radiologic procedures and the effect on individuals of such procedures have a substantial and direct effect upon United States interstate commerce.

NUCLEAR WASTE MANAGEMENT PLAN; REPORT

Pub. L. 102-486, title VIII, §803, Oct. 24, 1992, 106 Stat. 2923, provided that:

“(a) PREPARATION AND SUBMISSION OF REPORT.—The Secretary of Energy, in consultation with the Nuclear Regulatory Commission and the Environmental Protection Agency, shall prepare and submit to the Congress a report on whether current programs and plans for management of nuclear waste as mandated by the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.) are adequate for management of any additional volumes or categories of nuclear waste that might be generated by any new nuclear power plants that might be constructed and licensed after the date of the enactment of this Act [Oct. 24, 1992]. The Secretary shall prepare the report for submission to the President and the Congress within 1 year after the date of the enactment of this Act. The report shall examine any new relevant issues related to management of spent nuclear fuel and high-level radioactive waste that might be raised by the addition of new nuclear-generated electric capacity, including anticipated increased volumes of spent nuclear fuel or high-level radioactive waste, any need for additional interim storage capacity prior to final disposal, transportation of additional volumes of waste, and any need for additional repositories for deep geologic disposal.

“(b) OPPORTUNITY FOR PUBLIC COMMENT.—In preparation of the report required under subsection (a), the Secretary of Energy shall offer members of the public an opportunity to provide information and comment and shall solicit the views of the Nuclear Regulatory Commission, the Environmental Protection Agency, and other interested parties.

“(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.”

§ 10102. Separability

If any provision of this chapter, or the application of such provision to any person or circumstance, is held invalid, the remainder of this chapter, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

§ 10107. Applicability to atomic energy defense activities

(a) Atomic energy defense activities

Subject to the provisions of subsection (c) of this section, the provisions of this chapter shall not apply with respect to any atomic energy defense activity or to any facility used in connection with any such activity.

(b) Evaluation by President

(1) Not later than 2 years after January 7, 1983, the President shall evaluate the use of disposal capacity at one or more repositories to be developed under part A of subchapter I of this chapter for the disposal of high-level radioactive waste resulting from atomic energy defense activities. Such evaluation shall take into consideration factors relating to cost efficiency, health and

safety, regulation, transportation, public acceptability, and national security.

(2) Unless the President finds, after conducting the evaluation required in paragraph (1), that the development of a repository for the disposal of high-level radioactive waste resulting from atomic energy defense activities only is required, taking into account all of the factors described in such subsection, the Secretary shall proceed promptly with arrangement for the use of one or more of the repositories to be developed under part A of subchapter I of this chapter for the disposal of such waste. Such arrangements shall include the allocation of costs of developing, constructing, and operating this repository or repositories. The costs resulting from permanent disposal of high-level radioactive waste from atomic energy defense activities shall be paid by the Federal Government, into the special account established under section 10222 of this title.

(3) Any repository for the disposal of high-level radioactive waste resulting from atomic energy defense activities only shall (A) be subject to licensing under section 5842 of this title; and (B) comply with all requirements of the Commission for the siting, development, construction, and operation of a repository.

(c) Applicability to certain repositories

The provisions of this chapter shall apply with respect to any repository not used exclusively for the disposal of high-level radioactive waste or spent nuclear fuel resulting from atomic energy defense activities, research and development activities of the Secretary, or both.

SUBCHAPTER I—DISPOSAL AND STORAGE OF HIGH-LEVEL RADIOACTIVE WASTE, SPENT NUCLEAR FUEL, AND LOW-LEVEL RADIOACTIVE WASTE

§ 10121. State and affected Indian tribe participation in development of proposed repositories for defense waste

(a) Notification to States and affected Indian tribes

Notwithstanding the provisions of section 10107 of this title, upon any decision by the Secretary or the President to develop a repository for the disposal of high-level radioactive waste or spent nuclear fuel resulting exclusively from atomic energy defense activities, research and development activities of the Secretary, or both, and before proceeding with any site-specific investigations with respect to such repository, the Secretary shall notify the Governor and legislature of the State in which such repository is proposed to be located, or the governing body of the affected Indian tribe on whose reservation such repository is proposed to be located, as the case may be, of such decision.

(b) Participation of States and affected Indian tribes

Following the receipt of any notification under subsection (a) of this section, the State or Indian tribe involved shall be entitled, with respect to the proposed repository involved, to rights of participation and consultation identical to those provided in sections 10135 through 10138 of this title, except that any financial assistance authorized to be provided to such State or affected Indian tribe under section 10136(c) or 10138(b) of this title shall be made from amounts appropriated to the Secretary for purposes of carrying out this section.

(Pub. L. 97-425, title I, § 101, Jan. 7, 1983, 96 Stat. 2206.)

PART A—REPOSITORIES FOR DISPOSAL OF HIGH-LEVEL RADIOACTIVE WASTE AND SPENT NUCLEAR FUEL

§ 10131. Findings and purposes

(a) The Congress finds that—

(1) radioactive waste creates potential risks and requires safe and environmentally acceptable methods of disposal;

(2) a national problem has been created by the accumulation of (A) spent nuclear fuel from nuclear reactors; and (B) radioactive waste from (i) reprocessing of spent nuclear fuel; (ii) activities related to medical research, diagnosis, and treatment; and (iii) other sources;

(3) Federal efforts during the past 30 years to devise a permanent solution to the problems of civilian radioactive waste disposal have not been adequate;

(4) while the Federal Government has the responsibility to provide for the permanent disposal of high-level radioactive waste and such spent nuclear fuel as may be disposed of in order to protect the public health and safety and the environment, the costs of such disposal should be the responsibility of the generators and owners of such waste and spent fuel;

(5) the generators and owners of high-level radioactive waste and spent nuclear fuel have the primary responsibility to provide for, and the responsibility to pay the costs of, the interim storage of such waste and spent fuel until such waste and spent fuel is accepted by the Secretary of Energy in accordance with the provisions of this chapter;

(6) State and public participation in the planning and development of repositories is essential in order to promote public confidence in the safety of disposal of such waste and spent fuel; and

(7) high-level radioactive waste and spent nuclear fuel have become major subjects of public concern, and appropriate precautions must be taken to ensure that such waste and spent fuel do not adversely affect the public health and safety and the environment for this or future generations.

(b) The purposes of this part are—

(1) to establish a schedule for the siting, construction, and operation of repositories that will provide a reasonable assurance that the

public and the environment will be adequately protected from the hazards posed by high-level radioactive waste and such spent nuclear fuel as may be disposed of in a repository;

(2) to establish the Federal responsibility, and a definite Federal policy, for the disposal of such waste and spent fuel;

(3) to define the relationship between the Federal Government and the State governments with respect to the disposal of such waste and spent fuel; and

(4) to establish a Nuclear Waste Fund, composed of payments made by the generators and owners of such waste and spent fuel, that will ensure that the costs of carrying out activities relating to the disposal of such waste and spent fuel will be borne by the persons responsible for generating such waste and spent fuel.

§ 10132. Recommendation of candidate sites for site characterization

(a) Guidelines

Not later than 180 days after January 7, 1983, the Secretary, following consultation with the Council on Environmental Quality, the Administrator of the Environmental Protection Agency, the Director of the United States Geological Survey, and interested Governors, and the concurrence of the Commission shall issue general guidelines for the recommendation of sites for repositories. Such guidelines shall specify detailed geologic considerations that shall be primary criteria for the selection of sites in various geologic media. Such guidelines shall specify factors that qualify or disqualify any site from development as a repository, including factors pertaining to the location of valuable natural resources, hydrology, geophysics, seismic activity, and atomic energy defense activities, proximity to water supplies, proximity to populations, the effect upon the rights of users of water, and proximity to components of the National Park System, the National Wildlife Refuge System, the National Wild and Scenic Rivers System, the National Wilderness Preservation System, or National Forest Lands. Such guidelines shall take into consideration the proximity to sites where high-level radioactive waste and spent nuclear fuel is generated or temporarily stored and the transportation and safety factors involved in moving such waste to a repository. Such guidelines shall specify population factors that will disqualify any site from development as a repository if any surface facility of such repository would be located (1) in a highly populated area; or (2) adjacent to an area 1 mile by 1 mile having a population of not less than 1,000 individuals. Such guidelines also shall require the Secretary to consider the cost and impact of transporting to the repository site the solidified high-level radioactive waste and spent fuel to be disposed of in the repository and the advantages of regional distribution in the siting of repositories. Such guidelines shall require the Secretary to consider the various geologic media in which sites for repositories may be located and, to the extent practicable, to recommend sites in different geologic media. The

Secretary shall use guidelines established under this subsection in considering candidate sites for recommendation under subsection (b) of this section. The Secretary may revise such guidelines from time to time, consistent with the provisions of this subsection.

(b) Recommendation by Secretary to President

(1)(A) Following the issuance of guidelines under subsection (a) of this section and consultation with the Governors of affected States, the Secretary shall nominate at least 5 sites that he determines suitable for site characterization for selection of the first repository site.

(B) Subsequent to such nomination, the Secretary shall recommend to the President 3 of the nominated sites not later than January 1, 1985 for characterization as candidate sites.

(C) Such recommendations under subparagraph (B) shall be consistent with the provisions of section 10225 of this title.

(D) Each nomination of a site under this subsection shall be accompanied by an environmental assessment, which shall include a detailed statement of the basis for such recommendation and of the probable impacts of the site characterization activities planned for such site, and a discussion of alternative activities relating to site characterization that may be undertaken to avoid such impacts. Such environmental assessment shall include—

(i) an evaluation by the Secretary as to whether such site is suitable for site characterization under the guidelines established under subsection (a) of this section;

(ii) an evaluation by the Secretary as to whether such site is suitable for development as a repository under each such guideline that does not require site characterization as a prerequisite for application of such guideline;

(iii) an evaluation by the Secretary of the effects of the site characterization activities at such site on the public health and safety and the environment;

(iv) a reasonable comparative evaluation by the Secretary of such site with other sites and locations that have been considered;

(v) a description of the decision process by which such site was recommended; and

(vi) an assessment of the regional and local impacts of locating the proposed repository at such site.

(E)(i)¹ The issuance of any environmental assessment under this paragraph shall be considered to be a final agency action subject to judicial review in accordance with the provisions of chapter 7 of title 5 and section 10139 of this title. Such judicial review shall be limited to the sufficiency of such environmental assessment with respect to the items described in clauses (i) through (vi) of subparagraph (E).

(F) Each environmental assessment prepared under this paragraph shall be made available to the public.

(G) Before nominating a site, the Secretary shall notify the Governor and legislature of the State in which such site is located, or the governing body of the affected Indian tribe where such site is located, as the case may be, of such nomination and the basis for such nomination.

¹ So in original. There is no cl. (ii).

(2) Before nominating any site the Secretary shall hold public hearings in the vicinity of such site to inform the residents of the area in which such site is located of the proposed nomination of such site and to receive their comments. At such hearings, the Secretary shall also solicit and receive any recommendations of such residents with respect to issues that should be addressed in the environmental assessment described in paragraph (1) and the site characterization plan described in section 10133(b)(1) of this title.

(3) In evaluating the sites nominated under this section prior to any decision to recommend a site as a candidate site, the Secretary shall use available geophysical, geologic, geochemical and hydrologic, and other information and shall not conduct any preliminary borings or excavations at a site unless (i) such preliminary boring or excavation activities were in progress on January 7, 1983, or (ii) the Secretary certifies that such available information from other sources, in the absence of preliminary borings or excavations, will not be adequate to satisfy applicable requirements of this chapter or any other law: *Provided*, That preliminary borings or excavations under this section shall not exceed a diameter of 6 inches.

(c) Presidential review of recommended candidate sites

(1) The President shall review each candidate site recommendation made by the Secretary under subsection (b) of this section. Not later than 60 days after the submission by the Secretary of a recommendation of a candidate site, the President, in his discretion, may either approve or disapprove such candidate site, and shall transmit any such decision to the Secretary and to either the Governor and legislature of the State in which such candidate site is located, or the governing body of the affected Indian tribe where such candidate site is located, as the case may be. If, during such 60-day period, the President fails to approve or disapprove such candidate site, or fails to invoke his authority under paragraph (2) to delay his decision, such candidate site shall be considered to be approved, and the Secretary shall notify such Governor and legislature, or governing body of the affected Indian tribe, of the approval of such candidate site by reason of the inaction of the President.

(2) The President may delay for not more than 6 months his decision under paragraph (1) to approve or disapprove a candidate site, upon determining that the information provided with the recommendation of the Secretary is insufficient to permit a decision within the 60-day period referred to in paragraph (1). The President may invoke his authority under this paragraph by submitting written notice to the Congress, within such 60-day period, of his intent to invoke such authority. If the President invokes such authority, but fails to approve or disapprove the candidate site involved by the end of such 6-month period, such candidate site shall be considered to be approved, and the Secretary shall notify such Governor and legislature, or governing body of the affected Indian tribe, of the approval of such candidate site by reason of the inaction of the President.

(d) Preliminary activities

Except as otherwise provided in this section, each activity of the President or the Secretary under this section shall be considered to be a preliminary decisionmaking activity. No such activity shall require the preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), or to require any environmental review under subparagraph (E) or (F) of section 102(2) of such Act.

(C) substituting “subparagraph (B)” for “subparagraphs (B) and (C)”, and striking out former subpar. (C) which read as follows: “Not later than July 1, 1989, the Secretary shall nominate 5 sites, which shall include at least 3 additional sites not nominated under subparagraph (A), and recommend by such date to the President from such 5 nominated sites 3 candidate sites the Secretary determines suitable for site characterization for selection of the second repository. The Secretary may not nominate any site previously nominated under subparagraph (A), that was not recommended as a candidate site under subparagraph (B).”

Subsec. (d). Pub. L. 100-202 and Pub. L. 100-203, § 5011(c), amended section identically, redesignating subsec. (e) as (d) and striking out former subsec. (d) which read as follows: “After the required recommendation of candidate sites under subsection (b) of this section, the Secretary may continue, as he determines necessary, to identify and study other sites to determine their suitability for recommendation for site characterization, in accordance with the procedures described in this section.”

Subsec. (e). Pub. L. 100-202 and Pub. L. 100-203, § 5011(d), which contained identical amendments directing that subsec. (f) be struck out and all subsequent subsections be redesignated accordingly, was executed by striking out subsec. (e) as the probable intent of Congress because of the redesignation of former subsec. (f) as (e) by Pub. L. 100-202 and Pub. L. 100-203, § 5011(c), and the absence of any subsections subsequent to former subsec. (f). Subsec. (e) read as follows: “Nothing in this section may be construed as prohibiting the Secretary from continuing ongoing or presently planned site characterization at any site on Department of Energy land for which the location of the principal borehole has been approved by the Secretary by August 1, 1982, except that (1) the environmental assessment described in subsection (b)(1) of this section shall be prepared and made available to the public before proceeding to sink shafts at any such site; and (2) the Secretary shall not continue site characterization at any such site unless such site is among the candidate sites recommended by the Secretary under the first sentence of subsection (b) of this section for site characterization and approved by the President under subsection (c) of this section; and (3) the Secretary shall conduct public hearings under section 10133(b)(2) of this title and comply with requirements under section 10137 of this title within one year of January 7, 1983.”

DELEGATION OF NOTIFICATION FUNCTION

Letter of the President of the United States, dated May 28, 1986, 51 F.R. 19531, provided:

Letter to the Honorable John S. Herrington, Secretary of Energy

Dear Mr. Secretary:

You are hereby authorized to perform the notification function vested in the President pursuant to Section 112(c)(1) of the Nuclear Waste Policy Act of 1982, 42 U.S.C. §10132(c)(1).

RONALD REAGAN.

§ 10133. Site characterization**(a) In general**

The Secretary shall carry out, in accordance with the provisions of this section, appropriate site characterization activities at the Yucca Mountain site. The Secretary shall consider fully the comments received under subsection (b)(2) of this section and section 10132(b)(2) of this title and shall, to the maximum extent practicable and in consultation with the Governor of the State of Nevada, conduct site characterization activities in a manner that minimizes any significant adverse environmental impacts identified in such comments or in the environmental assessment submitted under subsection (b)(1) of this section.

(b) Commission and States

(1) Before proceeding to sink shafts at the Yucca Mountain site, the Secretary shall submit for such candidate site to the Commission and to the Governor or legislature of the State of Nevada, for their review and comment—

(A) a general plan for site characterization activities to be conducted at such candidate site, which plan shall include—

- (i) a description of such candidate site;
- (ii) a description of such site characterization activities, including the following: the extent of planned excavations, plans for any onsite testing with radioactive or nonradioactive material, plans for any investigation activities that may affect the capability of such candidate site to isolate high-level radioactive waste and spent nuclear fuel, and plans to control any adverse, safety-related impacts from such site characterization activities;
- (iii) plans for the decontamination and decommissioning of such candidate site, and for the mitigation of any significant adverse environmental impacts caused by site characterization activities if it is determined unsuitable for application for a construction authorization for a repository;
- (iv) criteria to be used to determine the suitability of such candidate site for the location of a repository, developed pursuant to section 10132(a) of this title; and
- (v) any other information required by the Commission;

(B) a description of the possible form or packaging for the high-level radioactive waste and spent nuclear fuel to be emplaced in such repository, a description, to the extent practicable, of the relationship between such waste form or packaging and the geologic medium of such site, and a description of the activities being conducted by the Secretary with respect to such possible waste form or packaging or such relationship; and

(C) a conceptual repository design that takes into account likely site-specific requirements.

(2) Before proceeding to sink shafts at the Yucca Mountain site, the Secretary shall (A) make available to the public the site characterization plan described in paragraph (1); and (B) hold public hearings in the vicinity of such candidate site to inform the residents of the area in which such candidate site is located of such plan, and to receive their comments.

(3) During the conduct of site characterization activities at the Yucca Mountain site, the Secretary shall report not less than once every 6 months to the Commission and to the Governor and legislature of the State of Nevada, on the nature and extent of such activities and the information developed from such activities.

(c) Restrictions

(1) The Secretary may conduct at the Yucca Mountain site only such site characterization activities as the Secretary considers necessary to provide the data required for evaluation of the suitability of such site for an application to be submitted to the Commission for a construction authorization for a repository at such site, and for compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) In conducting site characterization activities—

(A) the Secretary may not use any radioactive material at a site unless the Commission concurs that such use is necessary to provide data for the preparation of the required environmental reports and an application for a construction authorization for a repository at such site; and

(B) if any radioactive material is used at a site—

(i) the Secretary shall use the minimum quantity necessary to determine the suitability of such site for a repository, but in no event more than the curie equivalent of 10 metric tons of spent nuclear fuel; and

(ii) such radioactive material shall be fully retrievable.

(3) If the Secretary at any time determines the Yucca Mountain site to be unsuitable for development as a repository, the Secretary shall—

(A) terminate all site characterization activities at such site;

(B) notify the Congress, the Governor and legislature of Nevada of such termination and the reasons for such termination;

(C) remove any high-level radioactive waste, spent nuclear fuel, or other radioactive materials at or in such site as promptly as practicable;

(D) take reasonable and necessary steps to reclaim the site and to mitigate any signifi-

cant adverse environmental impacts caused by site characterization activities at such site;

(E) suspend all future benefits payments under part F of this subchapter with respect to such site; and

(F) report to Congress not later than 6 months after such determination the Secretary's recommendations for further action to assure the safe, permanent disposal of spent nuclear fuel and high-level radioactive waste, including the need for new legislative authority.

(d) Preliminary activities

Each activity of the Secretary under this section that is in compliance with the provisions of subsection (c) of this section shall be considered a preliminary decisionmaking activity. No such activity shall require the preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), or to¹ require any environmental review under subparagraph (E) or (F) of section 102(2) of such Act.

“(4) If a site is determined to be unsuitable for application for a construction authorization for a repository, the Secretary shall take reasonable and necessary steps to reclaim the site and to mitigate any significant adverse environmental impacts caused by site characterization activities.”

§ 10134. Site approval and construction authorization

(a) Hearings and Presidential recommendation

(1) The Secretary shall hold public hearings in the vicinity of the Yucca Mountain site, for the purposes of informing the residents of the area of such consideration and receiving their comments regarding the possible recommendation of such site. If, upon completion of such hearings and completion of site characterization activities at the Yucca Mountain site, under section 10133 of this title, the Secretary decides to recommend approval of such site to the President, the Secretary shall notify the Governor and legislature of the State of Nevada, of such decision. No sooner than the expiration of the 30-day period following such notification, the Secretary shall submit to the President a recommendation that the President approve such site for the development of a repository. Any such recommendation by the Secretary shall be based on the record of information developed by the Secretary under section 10133 of this title and this section, including the information described in subparagraph (A) through subparagraph (G). Together with any recommendation of a site under this paragraph, the Secretary shall make available to the public, and submit to the President, a comprehensive statement of the basis of such recommendation, including the following:

(A) a description of the proposed repository, including preliminary engineering specifications for the facility;

(B) a description of the waste form or packaging proposed for use at such repository, and an explanation of the relationship between such waste form or packaging and the geologic medium of such site;

(C) a discussion of data, obtained in site characterization activities, relating to the safety of such site;

(D) a final environmental impact statement prepared for the Yucca Mountain site pursuant to subsection (f) of this section and the Na-

tional Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), together with comments made concerning such environmental impact statement by the Secretary of the Interior, the Council on Environmental Quality, the Administrator, and the Commission, except that the Secretary shall not be required in any such environmental impact statement to consider the need for a repository, the alternatives to geological disposal, or alternative sites to the Yucca Mountain site;

(E) preliminary comments of the Commission concerning the extent to which the at-depth site characterization analysis and the waste form proposal for such site seem to be sufficient for inclusion in any application to be submitted by the Secretary for licensing of such site as a repository;

(F) the views and comments of the Governor and legislature of any State, or the governing body of any affected Indian tribe, as determined by the Secretary, together with the response of the Secretary to such views;

(G) such other information as the Secretary considers appropriate; and

(H) any impact report submitted under section 10136(c)(2)(B) of this title by the State of Nevada.

(2)(A) If, after recommendation by the Secretary, the President considers the Yucca Mountain site qualified for application for a construction authorization for a repository, the President shall submit a recommendation of such site to Congress.

(B) The President shall submit with such recommendation a copy of the statement for such site prepared by the Secretary under paragraph (1).

(3)(A) The President may not recommend the approval of the Yucca Mountain site unless the Secretary has recommended to the President under paragraph (1) approval of such site and has submitted to the President a statement for such site as required under such paragraph.

(B) No recommendation of a site by the President under this subsection shall require the preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), or to¹ require any environmental review under subparagraph (E) or (F) of section 102(2) of such Act.

(b) Submission of application

If the President recommends to the Congress the Yucca Mountain site under subsection (a) of this section and the site designation is permitted to take effect under section 10135 of this title, the Secretary shall submit to the Commission an application for a construction authorization for a repository at such site not later than 90 days after the date on which the recommendation of the site designation is effective under such section and shall provide to the Governor and legislature of the State of Nevada a copy of such application.

(c) Status report on application

Not later than 1 year after the date on which an application for a construction authorization

is submitted under subsection (b) of this section, and annually thereafter until the date on which such authorization is granted, the Commission shall submit a report to the Congress describing the proceedings undertaken through the date of such report with regard to such application, including a description of—

(1) any major unresolved safety issues, and the explanation of the Secretary with respect to design and operation plans for resolving such issues;

(2) any matters of contention regarding such application; and

(3) any Commission actions regarding the granting or denial of such authorization.

(d) Commission action

The Commission shall consider an application for a construction authorization for all or part of a repository in accordance with the laws applicable to such applications, except that the Commission shall issue a final decision approving or disapproving the issuance of a construction authorization not later than the expiration of 3 years after the date of the submission of such application, except that the Commission may extend such deadline by not more than 12 months if, not less than 30 days before such deadline, the Commission complies with the reporting requirements established in subsection (e)(2) of this section. The Commission decision approving the first such application shall prohibit the emplacement in the first repository of a quantity of spent fuel containing in excess of 70,000 metric tons of heavy metal or a quantity of solidified high-level radioactive waste resulting from the reprocessing of such a quantity of spent fuel until such time as a second repository is in operation. In the event that a monitored retrievable storage facility, approved pursuant to part C of this subchapter, shall be located, or is planned to be located, within 50 miles of the first repository, then the Commission decision approving the first such application shall prohibit the emplacement of a quantity of spent fuel containing in excess of 70,000 metric tons of heavy metal or a quantity of solidified high-level radioactive waste resulting from the reprocessing of spent fuel in both the repository and monitored retrievable storage facility until such time as a second repository is in operation.

(e) Project decision schedule

(1) The Secretary shall prepare and update, as appropriate, in cooperation with all affected Federal agencies, a project decision schedule that portrays the optimum way to attain the operation of the repository, within the time periods specified in this part. Such schedule shall include a description of objectives and a sequence of deadlines for all Federal agencies required to take action, including an identification of the activities in which a delay in the start, or completion, of such activities will cause a delay in beginning repository operation.

(2) Any Federal agency that determines that it cannot comply with any deadline in the project decision schedule, or fails to so comply, shall submit to the Secretary and to the Congress a written report explaining the reason for its failure or expected failure to meet such deadline, the reason why such agency could not reach an

agreement with the Secretary, the estimated time for completion of the activity or activities involved, the associated effect on its other deadlines in the project decision schedule, and any recommendations it may have or actions it intends to take regarding any improvements in its operation or organization, or changes to its statutory directives or authority, so that it will be able to mitigate the delay involved. The Secretary, within 30 days after receiving any such report, shall file with the Congress his response to such report, including the reasons why the Secretary could not amend the project decision schedule to accommodate the Federal agency involved.

(f) Environmental impact statement

(1) Any recommendation made by the Secretary under this section shall be considered a major Federal action significantly affecting the quality of the human environment for purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.). A final environmental impact statement prepared by the Secretary under such Act shall accompany any recommendation to the President to approve a site for a repository.

(2) With respect to the requirements imposed by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), compliance with the procedures and requirements of this chapter shall be deemed adequate consideration of the need for a repository, the time of the initial availability of a repository, and all alternatives to the isolation of high-level radioactive waste and spent nuclear fuel in a repository.

(3) For purposes of complying with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and this section, the Secretary need not consider alternate sites to the Yucca Mountain site for the repository to be developed under this part.

(4) Any environmental impact statement prepared in connection with a repository proposed to be constructed by the Secretary under this part shall, to the extent practicable, be adopted by the Commission in connection with the issuance by the Commission of a construction authorization and license for such repository. To the extent such statement is adopted by the Commission, such adoption shall be deemed to also satisfy the responsibilities of the Commission under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and no further consideration shall be required, except that nothing in this subsection shall affect any independent responsibilities of the Commission to protect the public health and safety under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.).

(5) Nothing in this chapter shall be construed to amend or otherwise detract from the licensing requirements of the Nuclear Regulatory Commission established in title II of the Energy Reorganization Act of 1974 (42 U.S.C. 5841 et seq.).

(6) In any such statement prepared with respect to the repository to be constructed under this part, the Nuclear Regulatory Commission need not consider the need for a repository, the time of initial availability of a repository, alter-

nate sites to the Yucca Mountain site, or non-geologic alternatives to such site.

The first blank space in such resolution shall be filled with the name of the geographic location of the proposed site of the repository to which such resolution pertains; the second blank space in such resolution shall be filled with the designation of the State Governor and legislature or Indian tribe governing body submitting the notice of disapproval to which such resolution pertains; and the last blank space in such resolution shall be filled with the date of such submission.

(b) State or Indian tribe petitions

The designation of a site as suitable for application for a construction authorization for a repository shall be effective at the end of the 60-day period beginning on the date that the President recommends such site to the Congress under section 10134 of this title, unless the Governor and legislature of the State in which such site is located, or the governing body of an Indian tribe on whose reservation such site is located, as the case may be, has submitted to the Congress a notice of disapproval under section 10136 or 10138 of this title. If any such notice of disapproval has been submitted, the designation of such site shall not be effective except as provided under subsection (c) of this section.

(c) Congressional review of petitions

(d) Procedures applicable to Senate

(1) The provisions of this subsection are enacted by the Congress—

(A) as an exercise of the rulemaking power of the Senate, and as such they are deemed a part of the rules of the Senate, but applicable only with respect to the procedure to be followed in the Senate in the case of resolutions of repository siting approval, and such provisions supersede other rules of the Senate only to the extent that they are inconsistent with such other rules; and

(B) with full recognition of the constitutional right of the Senate to change the rules (so far as relating to the procedure of the Senate) at any time, in the same manner and to the same extent as in the case of any other rule of the Senate.

(2)(A) Not later than the first day of session following the day on which any notice of disapproval of a repository site selection is submitted to the Congress under section 10136 or 10138 of this title, a resolution of repository siting approval shall be introduced (by request) in the Senate by the chairman of the committee to which such notice of disapproval is referred, or by a Member or Members of the Senate designated by such chairman.

Upon the expiration of 60 calendar days of continuous session after the introduction of the first resolution of repository siting approval with respect to any site, each committee to which such resolution was referred shall make its recommendations to the Senate.

(3) If any committee to which is referred a resolution of siting approval introduced under paragraph (2)(A), or, in the absence of such a resolution, any other resolution of siting approval introduced with respect to the site involved, has not reported such resolution at the end of 60 days of continuous session of Congress after introduction of such resolution, such committee shall be deemed to be discharged from further consideration of such resolution, and such resolution shall be placed on the appropriate calendar of the Senate.

(4)(A) When each committee to which a resolution of siting approval has been referred has reported, or has been deemed to be discharged from further consideration of, a resolution described in paragraph (3), it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) for any Member of the Senate to move to proceed to the consideration of such resolution. Such motion shall be highly privileged and shall not be debatable. Such motion shall not be subject to amendment, to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which such motion is agreed to or disagreed to shall not be in order. rules of the Senate, the vote on final approval of such resolution shall occur.

(D) Appeals from the decisions of the Chair relating to the application of the rules of the Senate to the procedure relating to a resolution of siting approval shall be decided without debate.

(5) If the Senate receives from the House a resolution of repository siting approval with respect to any site, then the following procedure shall apply:

(A) The resolution of the House with respect to such site shall not be referred to a committee.

(B) With respect to the resolution of the Senate with respect to such site—

(i) the procedure with respect to that or other resolutions of the Senate with respect to such site shall be the same as if no resolution from the House with respect to such site had been received; but

(ii) on any vote on final passage of a resolution of the Senate with respect to such site, a resolution from the House with respect to such site where the text is identical shall be automatically substituted for the resolution of the Senate.

(e) Procedures applicable to House of Representatives

(1) The provisions of this section are enacted by the Congress—

(A) as an exercise of the rulemaking power of the House of Representatives, and as such they are deemed a part of the rules of the House, but applicable only with respect to the procedure to be followed in the House in the case of resolutions of repository siting approval, and such provisions supersede other rules of the House only to the extent that they are inconsistent with such other rules; and

(B) with full recognition of the constitutional right of the House to change the rules (so far as relating to the procedure of the House) at any time, in the same manner and to the same extent as in the case of any other rule of the House.

(2) Resolutions of repository siting approval shall upon introduction, be immediately referred by the Speaker of the House to the appropriate committee or committees of the House. Any such resolution received from the Senate shall be held at the Speaker's table.

(3) Upon the expiration of 60 days of continuous session after the introduction of the first resolution of repository siting approval with respect to any site, each committee to which such resolution was referred shall be discharged from further consideration of such resolution, and such resolution shall be referred to the appropriate calendar, unless such resolution or an identical resolution was previously reported by each committee to which it was referred.

(4) It shall be in order for the Speaker to recognize a Member favoring a resolution to call up a resolution of repository siting approval after it has been on the appropriate calendar for 5 legislative days. When any such resolution is called up, the House shall proceed to its immediate consideration and the Speaker shall recognize the Member calling up such resolution and a Member opposed to such resolution for 2 hours

of debate in the House, to be equally divided and controlled by such Members. When such time has expired, the previous question shall be considered as ordered on the resolution to adoption without intervening motion. No amendment to any such resolution shall be in order, nor shall it be in order to move to reconsider the vote by which such resolution is agreed to or disagreed to.

(5) If the House receives from the Senate a resolution of repository siting approval with respect to any site, then the following procedure shall apply:

(g) Information provided to Congress

In considering any notice of disapproval submitted to the Congress under section 10136 or 10138 of this title, the Congress may obtain any comments of the Commission with respect to such notice of disapproval. The provision of such comments by the Commission shall not be construed as binding the Commission with respect to any licensing or authorization action concerning the repository involved.

§ 10136. Participation of States

(a) Notification of States and affected tribes

The Secretary shall identify the States with one or more potentially acceptable sites for a repository within 90 days after January 7, 1983. Within 90 days of such identification, the Secretary shall notify the Governor, the State legislature, and the tribal council of any affected Indian tribe in any State of the potentially ac-

ceptable sites within such State. For the purposes of this subchapter, the term “potentially acceptable site” means any site at which, after geologic studies and field mapping but before detailed geologic data gathering, the Department undertakes preliminary drilling and geophysical testing for the definition of site location.

(b) State participation in repository siting decisions

(1) Unless otherwise provided by State law, the Governor or legislature of each State shall have authority to submit a notice of disapproval to the Congress under paragraph (2). In any case in which State law provides for submission of any such notice of disapproval by any other person or entity, any reference in this part to the Governor or legislature of such State shall be considered to refer instead to such other person or entity.

(2) Upon the submission by the President to the Congress of a recommendation of a site for a repository, the Governor or legislature of the State in which such site is located may disapprove the site designation and submit to the Congress a notice of disapproval. Such Governor or legislature may submit such a notice of disapproval to the Congress not later than the 60 days after the date that the President recommends such site to the Congress under section 10134 of this title. A notice of disapproval shall be considered to be submitted to the Congress on the date of the transmittal of such notice of disapproval to the Speaker of the House and the President pro tempore of the Senate. Such notice of disapproval shall be accompanied by a statement of reasons explaining why such Governor or legislature disapproved the recommended repository site involved.

(3) The authority of the Governor or legislature of each State under this subsection shall not be applicable with respect to any site located on a reservation.

(c) Financial assistance

(1)(A) The Secretary shall make grants to the State of Nevada and any affected unit of local government for the purpose of participating in activities required by this section and section 10137 of this title or authorized by written agreement entered into pursuant to section 10137(c) of this title. Any salary or travel expense that would ordinarily be incurred by such State or affected unit of local government, may not be considered eligible for funding under this paragraph.

(B) The Secretary shall make grants to the State of Nevada and any affected unit of local government for purposes of enabling such State or affected unit of local government—

(i) to review activities taken under this part with respect to the Yucca Mountain site for purposes of determining any potential economic, social, public health and safety, and environmental impacts of a repository on such State, or affected unit of local government and its residents;

(ii) to develop a request for impact assistance under paragraph (2);

(iii) to engage in any monitoring, testing, or evaluation activities with respect to site characterization programs with regard to such site;

(iv) to provide information to Nevada residents regarding any activities of such State, the Secretary, or the Commission with respect to such site; and

(v) to request information from, and make comments and recommendations to, the Secretary regarding any activities taken under this part with respect to such site.

(C) Any salary or travel expense that would ordinarily be incurred by the State of Nevada or any affected unit of local government may not be considered eligible for funding under this paragraph.

(2)(A)(i) The Secretary shall provide financial and technical assistance to the State of Nevada, and any affected unit of local government requesting such assistance.

(ii) Such assistance shall be designed to mitigate the impact on such State or affected unit of local government of the development of such repository and the characterization of such site.

(iii) Such assistance to such State or affected unit of local government of such State shall commence upon the initiation of site characterization activities.

(B) The State of Nevada and any affected unit of local government may request assistance under this subsection by preparing and submitting to the Secretary a report on the economic, social, public health and safety, and environmental impacts that are likely to result from site characterization activities at the Yucca Mountain site. Such report shall be submitted to the Secretary after the Secretary has submitted to the State a general plan for site characterization activities under section 10133(b) of this title.

(C) As soon as practicable after the Secretary has submitted such site characterization plan, the Secretary shall seek to enter into a binding agreement with the State of Nevada setting forth—

(i) the amount of assistance to be provided under this subsection to such State or affected unit of local government; and

(ii) the procedures to be followed in providing such assistance.

(3)(A) In addition to financial assistance provided under paragraphs (1) and (2), the Secretary shall grant to the State of Nevada and any affected unit of local government an amount each fiscal year equal to the amount such State or affected unit of local government, respectively, would receive if authorized to tax site characterization activities at such site, and the development and operation of such repository, as such State or affected unit of local government taxes the non-Federal real property and industrial activities occurring within such State or affected unit of local government.

(B) Such grants shall continue until such time as all such activities, development, and operation are terminated at such site.

(4)(A) The State of Nevada or any affected unit of local government may not receive any grant under paragraph (1) after the expiration of the 1-year period following—

(i) the date on which the Secretary notifies the Governor and legislature of the State of Nevada of the termination of site characterization activities at the site in such State;

(ii) the date on which the Yucca Mountain site is disapproved under section 10135 of this title; or

(iii) the date on which the Commission disapproves an application for a construction authorization for a repository at such site;

whichever occurs first.

(B) The State of Nevada or any affected unit of local government may not receive any further assistance under paragraph (2) with respect to a site if repository construction activities or site characterization activities at such site are terminated by the Secretary or if such activities are permanently enjoined by any court.

(C) At the end of the 2-year period beginning on the effective date of any license to receive and possess for a repository in a State, no Federal funds, shall be made available to such State or affected unit of local government under paragraph (1) or (2), except for—

(i) such funds as may be necessary to support activities related to any other repository located in, or proposed to be located in, such State, and for which a license to receive and possess has not been in effect for more than 1 year;

(ii) such funds as may be necessary to support State activities pursuant to agreements or contracts for impact assistance entered into, under paragraph (2), by such State with the Secretary during such 2-year period; and

(iii) such funds as may be provided under an agreement entered into under subchapter IV of this chapter.

(5) Financial assistance authorized in this subsection shall be made out of amounts held in the Waste Fund.

(6) No State, other than the State of Nevada, may receive financial assistance under this subsection after December 22, 1987.

(d) Additional notification and consultation

Whenever the Secretary is required under any provision of this chapter to notify or consult with the governing body of an affected Indian tribe where a site is located, the Secretary shall also notify or consult with, as the case may be, the Governor of the State in which such reservation is located.

§ 10137. Consultation with States and affected Indian tribes

(a) Provision of information

(1) The Secretary, the Commission, and other agencies involved in the construction, operation, or regulation of any aspect of a repository in a State shall provide to the Governor and legislature of such State, and to the governing body of any affected Indian tribe, timely and

complete information regarding determinations or plans made with respect to the site characterization siting, development, design, licensing, construction, operation, regulation, or decommissioning of such repository.

(2) Upon written request for such information by the Governor or legislature of such State, or by the governing body of any affected Indian tribe, as the case may be, the Secretary shall provide a written response to such request within 30 days of the receipt of such request. Such response shall provide the information requested or, in the alternative, the reasons why the information cannot be so provided. If the Secretary fails to so respond within such 30 days, the Governor or legislature of such State, or the governing body of any affected Indian tribe, as the case may be, may transmit a formal written objection to such failure to respond to the President. If the President or Secretary fails to respond to such written request within 30 days of the receipt by the President of such formal written objection, the Secretary shall immediately suspend all activities in such State authorized by this part, and shall not renew such activities until the Governor or legislature of such State, or the governing body of any affected Indian tribe, as the case may be, has received the written response to such written request required by this subsection.

(b) Consultation and cooperation

In performing any study of an area within a State for the purpose of determining the suitability of such area for a repository pursuant to section 10132(c) of this title, and in subsequently developing and loading¹ any repository within such State, the Secretary shall consult and cooperate with the Governor and legislature of such State and the governing body of any affected Indian tribe in an effort to resolve the concerns of such State and any affected Indian tribe regarding the public health and safety, environmental, and economic impacts of any such repository. In carrying out his duties under this part, the Secretary shall take such concerns into account to the maximum extent feasible and as specified in written agreements entered into under subsection (c) of this section.

(c) Written agreement

Not later than 60 days after (1) the approval of a site for site characterization for such a repository under section 10132(c) of this title, or (2) the written request of the State or Indian tribe in any affected State notified under section 10136(a) of this title to the Secretary, whichever² first occurs, the Secretary shall seek to enter into a binding written agreement, and shall begin negotiations, with such State and, where appropriate, to enter into a separate binding agreement with the governing body of any affected Indian tribe, setting forth (but not limited to) the procedures under which the requirements of subsections (a) and (b) of this section, and the provisions of such written agreement, shall be carried out. Any such written agreement shall not affect the authority of the Commission under existing law. Each such written

agreement shall, to the maximum extent feasible, be completed not later than 6 months after such notification. Such written agreement shall specify procedures—

(1) by which such State or governing body of an affected Indian tribe, as the case may be, may study, determine, comment on, and make recommendations with regard to the possible public health and safety, environmental, social, and economic impacts of any such repository;

(2) by which the Secretary shall consider and respond to comments and recommendations made by such State or governing body of an affected Indian tribe, including the period in which the Secretary shall so respond;

(3) by which the Secretary and such State or governing body of an affected Indian tribe may review or modify the agreement periodically;

(4) by which such State or governing body of an affected Indian tribe is to submit an impact report and request for impact assistance under section 10136(c) of this title or section 10138(b) of this title, as the case may be;

(5) by which the Secretary shall assist such State, and the units of general local government in the vicinity of the repository site, in resolving the offsite concerns of such State and units of general local government, including, but not limited to, questions of State liability arising from accidents, necessary road upgrading and access to the site, ongoing emergency preparedness and emergency response, monitoring of transportation of high-level radioactive waste and spent nuclear fuel through such State, conduct of baseline health studies of inhabitants in neighboring communities near the repository site and reasonable periodic monitoring thereafter, and monitoring of the repository site upon any decommissioning and decontamination;

(6) by which the Secretary shall consult and cooperate with such State on a regular, ongoing basis and provide for an orderly process and timely schedule for State review and evaluation, including identification in the agreement of key events, milestones, and decision points in the activities of the Secretary at the potential repository site;

(7) by which the Secretary shall notify such State prior to the transportation of any high-level radioactive waste and spent nuclear fuel into such State for disposal at the repository site;

(8) by which such State may conduct reasonable independent monitoring and testing of activities on the repository site, except that such monitoring and testing shall not unreasonably interfere with or delay onsite activities;

(9) for sharing, in accordance with applicable law, of all technical and licensing information, the utilization of available expertise, the facilitating of permit procedures, joint project review, and the formulation of joint surveillance and monitoring arrangements to carry out applicable Federal and State laws;

(10) for public notification of the procedures specified under the preceding paragraphs; and

(11) for resolving objections of a State and affected Indian tribes at any stage of the plan-

(d) On-site representative

The Secretary shall offer to any State, Indian tribe or unit of local government within whose jurisdiction a site for a repository or monitored retrievable storage facility is located under this subchapter an opportunity to designate a representative to conduct on-site oversight activities at such site. Reasonable expenses of such representatives shall be paid out of the Waste Fund.

1987—Subsec. (d). Pub. L. 100-202 and Pub. L. 100-203 amended section identically, adding subsec. (d).

§ 10138. Participation of Indian tribes

(a) Participation of Indian tribes in repository siting decisions

Upon the submission by the President to the Congress of a recommendation of a site for a repository located on the reservation of an affected Indian tribe, the governing body of such Indian tribe may disapprove the site designation and submit to the Congress a notice of disapproval. The governing body of such Indian tribe may submit such a notice of disapproval to the Congress not later than the 60 days after the date that the President recommends such site to the Congress under section 10134 of this title. A notice of disapproval shall be considered to be submitted to the Congress on the date of the transmittal of such notice of disapproval to the Speaker of the House and the President pro tempore of the Senate. Such notice of disapproval shall be accompanied by a statement of reasons explaining why the governing body of such Indian tribe disapproved the recommended repository site involved.

(b) Financial assistance

(1) The Secretary shall make grants to each affected tribe notified under section 10136(a) of this title for the purpose of participating in activities required by section 10137 of this title or authorized by written agreement entered into pursuant to section 10137(c) of this title. Any salary or travel expense that would ordinarily be incurred by such tribe, may not be considered eligible for funding under this paragraph.

(2)(A) The Secretary shall make grants to each affected Indian tribe where a candidate site for a repository is approved under section 10132(c) of this title. Such grants may be made to each such Indian tribe only for purposes of enabling such Indian tribe—

(i) to review activities taken under this part with respect to such site for purposes of determining any potential economic, social, public health and safety, and environmental impacts of such repository on the reservation and its residents;

(ii) to develop a request for impact assistance under paragraph (2);

(iii) to engage in any monitoring, testing, or evaluation activities with respect to site characterization programs with regard to such site;

(iv) to provide information to the residents of its reservation regarding any activities of such Indian tribe, the Secretary, or the Commission with respect to such site; and

(v) to request information from, and make comments and recommendations to, the Secretary regarding any activities taken under this part with respect to such site.

(B) The amount of funds provided to any affected Indian tribe under this paragraph in any fiscal year may not exceed 100 percent of the costs incurred by such Indian tribe with respect to the activities described in clauses (i) through (v) of subparagraph (A). Any salary or travel expense that would ordinarily be incurred by such Indian tribe may not be considered eligible for funding under this paragraph.

(3)(A) The Secretary shall provide financial and technical assistance to any affected Indian tribe requesting such assistance and where there is a site with respect to which the Commission has authorized construction of a repository. Such assistance shall be designed to mitigate the impact on such Indian tribe of the development of such repository. Such assistance to such Indian tribe shall commence within 6 months following the granting by the Commission of a construction authorization for such repository and following the initiation of construction activities at such site.

(B) Any affected Indian tribe desiring assistance under this paragraph shall prepare and submit to the Secretary a report on any economic, social, public health and safety, and environmental impacts that are likely as a result of the development of a repository at a site on the reservation of such Indian tribe. Such report shall be submitted to the Secretary following the completion of site characterization activities at such site and before the recommendation of such site to the President by the Secretary for application for a construction authorization for a repository. As soon as practicable following the granting of a construction authorization for such repository, the Secretary shall seek to enter into a binding agreement with the Indian tribe involved setting forth the amount of assistance to be provided to such Indian tribe under this paragraph and the procedures to be followed in providing such assistance.

(4) The Secretary shall grant to each affected Indian tribe where a site for a repository is approved under section 10132(c) of this title an

amount each fiscal year equal to the amount such Indian tribe would receive were it authorized to tax site characterization activities at such site, and the development and operation of such repository, as such Indian tribe taxes the other commercial activities occurring on such reservation. Such grants shall continue until such time as all such activities, development, and operation are terminated at such site.

(5)¹ An affected Indian tribe may not receive any grant under paragraph (1) after the expiration of the 1-year period following—

(i) the date on which the Secretary notifies such Indian tribe of the termination of site characterization activities at the candidate site involved on the reservation of such Indian tribe;

(ii) the date on which such site is disapproved under section 10135 of this title;

(iii) the date on which the Commission disapproves an application for a construction authorization for a repository at such site;²

(iv) December 22, 1987;

whichever occurs first, unless there is another candidate site on the reservation of such Indian tribe that is approved under section 10132(c) of this title and with respect to which the actions described in clauses (i), (ii), and (iii) have not been taken.

(B) An affected Indian tribe may not receive any further assistance under paragraph (2) with respect to a site if repository construction activities at such site are terminated by the Secretary or if such activities are permanently enjoined by any court.

(C) At the end of the 2-year period beginning on the effective date of any license to receive and possess for a repository at a site on the reservation of an affected Indian tribe, no Federal funds shall be made available under paragraph (1) or (2) to such Indian tribe, except for—

(i) such funds as may be necessary to support activities of such Indian tribe related to any other repository where a license to receive and possess has not been in effect for more than 1 year; and

(ii) such funds as may be necessary to support activities of such Indian tribe pursuant to agreements or contracts for impact assistance entered into, under paragraph (2), by such Indian tribe with the Secretary during such 2-year period.

(6) Financial assistance authorized in this subsection shall be made out of amounts held in the Nuclear Waste Fund established in section 10222 of this title.

§ 10139. Judicial review of agency actions

(a) Jurisdiction of United States courts of appeals

(1) Except for review in the Supreme Court of the United States, the United States courts of appeals shall have original and exclusive jurisdiction over any civil action—

(A) for review of any final decision or action of the Secretary, the President, or the Commission under this part;

(B) alleging the failure of the Secretary, the President, or the Commission to make any decision, or take any action, required under this part;

(C) challenging the constitutionality of any decision made, or action taken, under any provision of this part;

(D) for review of any environmental impact statement prepared pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to any action under this part, or as required under section 10155(c)(1) of this title, or alleging a failure to prepare such statement with respect to any such action;

(E) for review of any environmental assessment prepared under section 10132(b)(1) or 10155(c)(2) of this title; or

(F) for review of any research and development activity under subchapter II of this chapter.

(2) The venue of any proceeding under this section shall be in the judicial circuit in which the petitioner involved resides or has its principal office, or in the United States Court of Appeals for the District of Columbia.

(c)¹ Deadline for commencing action

A civil action for judicial review described under subsection (a)(1) of this section may be brought not later than the 180th day after the date of the decision or action or failure to act involved, as the case may be, except that if a party shows that he did not know of the decision or action complained of (or of the failure to act), and that a reasonable person acting under the circumstances would not have known, such party may bring a civil action not later than the 180th day after the date such party acquired actual or constructive knowledge of such decision, action, or failure to act.

All actions of a Federal agency or officer with respect to consideration of applications or requests for the issuance or grant of any such authorization shall be expedited, and any such application or request shall take precedence over any similar applications or requests not related to such repositories.

(b) Commission requirements and criteria

(1)(A) Not later than January 1, 1984, the Commission, pursuant to authority under other provisions of law, shall, by rule, promulgate technical requirements and criteria that it will apply, under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) and the Energy Reorganization Act of 1974 (42 U.S.C. 5801 et seq.), in approving or disapproving—

- (i) applications for authorization to construct repositories;
- (ii) applications for licenses to receive and possess spent nuclear fuel and high-level radioactive waste in such repositories; and
- (iii) applications for authorization for closure and decommissioning of such repositories.

(C) Such requirements and criteria shall not be inconsistent with any comparable standards promulgated by the Administrator under subsection (a) of this section.

(2) For purposes of this chapter, nothing in this section shall be construed to prohibit the Commission from promulgating requirements and criteria under paragraph (1) before the Administrator promulgates standards under sub-

NUCLEAR WASTE STORAGE AND DISPOSAL AT YUCCA MOUNTAIN SITE

Pub. L. 102-486, title VIII, § 801, Oct. 24, 1992, 106 Stat. 2921, provided that:

“(a) ENVIRONMENTAL PROTECTION AGENCY STANDARDS.—

“(1) PROMULGATION.—Notwithstanding the provisions of section 121(a) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10141(a)), section 161 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(b)), and any other authority of the Administrator of the Environmental Protection Agency to set generally applicable standards for the Yucca Mountain site, the Administrator shall, based upon and consistent with the findings and recommendations of the National Academy of Sciences, promulgate, by rule, public health and safety standards for protection of the public from releases from radioactive materials stored or disposed of in the repository at the Yucca Mountain site. Such standards shall prescribe the maximum annual effective dose equivalent to individual members of the public from releases to the accessible environment from radioactive materials stored or disposed of in the repository. The standards shall be promulgated not later than 1 year after the Administrator receives the findings and recommendations of the National Academy of Sciences under paragraph (2) and shall be the only such standards applicable to the Yucca Mountain site.

“(2) STUDY BY NATIONAL ACADEMY OF SCIENCES.—Within 90 days after the date of the enactment of this Act [Oct. 24, 1992], the Administrator shall contract with the National Academy of Sciences to conduct a study to provide, by not later than December 31, 1993, findings and recommendations on reasonable standards for protection of the public health and safety, including—

“(A) whether a health-based standard based upon doses to individual members of the public from releases to the accessible environment (as that term is defined in the regulations contained in subpart B of part 191 of title 40, Code of Federal Regulations,

as in effect on November 18, 1985) will provide a reasonable standard for protection of the health and safety of the general public;

“(B) whether it is reasonable to assume that a system for post-closure oversight of the repository can be developed, based upon active institutional controls, that will prevent an unreasonable risk of breaching the repository’s engineered or geologic barriers or increasing the exposure of individual members of the public to radiation beyond allowable limits; and

“(C) whether it is possible to make scientifically supportable predictions of the probability that the repository’s engineered or geologic barriers will be breached as a result of human intrusion over a period of 10,000 years.

“(3) APPLICABILITY.—The provisions of this section shall apply to the Yucca Mountain site, rather than any other authority of the Administrator to set generally applicable standards for radiation protection.

“(b) NUCLEAR REGULATORY COMMISSION REQUIREMENTS AND CRITERIA.—

“(1) MODIFICATIONS.—Not later than 1 year after the Administrator promulgates standards under subsection (a), the Nuclear Regulatory Commission shall, by rule, modify its technical requirements and criteria under section 121(b) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10141(b)), as necessary, to be consistent with the Administrator’s standards promulgated under subsection (a).

“(2) REQUIRED ASSUMPTIONS.—The Commission’s requirements and criteria shall assume, to the extent consistent with the findings and recommendations of the National Academy of Sciences, that, following repository closure, the inclusion of engineered barriers and the Secretary’s post-closure oversight of the Yucca Mountain site, in accordance with subsection (c), shall be sufficient to—

“(A) prevent any activity at the site that poses an unreasonable risk of breaching the repository’s engineered or geologic barriers; and

“(B) prevent any increase in the exposure of individual members of the public to radiation beyond allowable limits.

“(c) POST-CLOSURE OVERSIGHT.—Following repository closure, the Secretary of Energy shall continue to oversee the Yucca Mountain site to prevent any activity at the site that poses an unreasonable risk of—

“(1) breaching the repository’s engineered or geologic barriers; or

“(2) increasing the exposure of individual members of the public to radiation beyond allowable limits.”

§ 10142. Disposal of spent nuclear fuel

Notwithstanding any other provision of this part, any repository constructed on a site approved under this part shall be designed and constructed to permit the retrieval of any spent nuclear fuel placed in such repository, during an appropriate period of operation of the facility, for any reason pertaining to the public health and safety, or the environment, or for the purpose of permitting the recovery of the economically valuable contents of such spent fuel. The Secretary shall specify the appropriate period of retrievability with respect to any repository at the time of design of such repository, and such aspect of such repository shall be subject to approval or disapproval by the Commission as part of the construction authorization process under subsections (b) through (d) of section 10134 of this title.

§ 10143. Title to material

Delivery, and acceptance by the Secretary, of any high-level radioactive waste or spent nu-

clear fuel for a repository constructed under this part shall constitute a transfer to the Secretary of title to such waste or spent fuel.

(Pub. L. 97–425, title I, § 123, Jan. 7, 1983, 96 Stat. 2229.)

§ 10144. Consideration of effect of acquisition of water rights

The Secretary shall give full consideration to whether the development, construction, and operation of a repository may require any purchase or other acquisition of water rights that will have a significant adverse effect on the present or future development of the area in which such repository is located. The Secretary shall mitigate any such adverse effects to the maximum extent practicable.

(Pub. L. 97–425, title I, § 124, Jan. 7, 1983, 96 Stat. 2229.)

§ 10145. Termination of certain provisions

Sections 10139 and 10140 of this title shall cease to have effect at such time as a repository developed under this part is licensed to receive and possess high-level radioactive waste and spent nuclear fuel.

PART B—INTERIM STORAGE PROGRAM

§ 10151. Findings and purposes

(a) The Congress finds that—

(1) the persons owning and operating civilian nuclear power reactors have the primary responsibility for providing interim storage of spent nuclear fuel from such reactors, by maximizing, to the extent practical, the effective use of existing storage facilities at the site of each civilian nuclear power reactor, and by adding new onsite storage capacity in a timely manner where practical;

(2) the Federal Government has the responsibility to encourage and expedite the effective use of existing storage facilities and the addition of needed new storage capacity at the site of each civilian nuclear power reactor; and

(3) the Federal Government has the responsibility to provide, in accordance with the provisions of this part, not more than 1,900 metric tons of capacity for interim storage of spent nuclear fuel for civilian nuclear power reactors that cannot reasonably provide adequate storage capacity at the sites of such reactors when needed to assure the continued, orderly operation of such reactors.

(b) The purposes of this part are—

(1) to provide for the utilization of available spent nuclear fuel pools at the site of each civilian nuclear power reactor to the extent practical and the addition of new spent nuclear fuel storage capacity where practical at the site of such reactor; and

(2) to provide, in accordance with the provisions of this part, for the establishment of a federally owned and operated system for the interim storage of spent nuclear fuel at one or

more facilities owned by the Federal Government with not more than 1,900 metric tons of capacity to prevent disruptions in the orderly operation of any civilian nuclear power reactor that cannot reasonably provide adequate spent nuclear fuel storage capacity at the site of such reactor when needed.

§ 10152. Available capacity for interim storage of spent nuclear fuel

The Secretary, the Commission, and other authorized Federal officials shall each take such actions as such official considers necessary to encourage and expedite the effective use of available storage, and necessary additional storage, at the site of each civilian nuclear power reactor consistent with—

- (1) the protection of the public health and safety, and the environment;
- (2) economic considerations;
- (3) continued operation of such reactor;
- (4) any applicable provisions of law; and
- (5) the views of the population surrounding such reactor.

§ 10153. Interim at-reactor storage

The Commission shall, by rule, establish procedures for the licensing of any technology approved by the Commission under section 10198(a)¹ of this title for use at the site of any civilian nuclear power reactor. The establishment of such procedures shall not preclude the licensing, under any applicable procedures or rules of the Commission in effect prior to such establishment, of any technology for the storage of civilian spent nuclear fuel at the site of any civilian nuclear power reactor.

L. 97-425, which is classified to section 10199(a) of this title, and has been translated as section 10198(a) of this title as the probable intent of Congress in view of the subject matter of section 10198(a) which relates to development of technologies for storage of spent nuclear fuel, and the subject matter of section 10199(a) which relates to payments to States and Indian tribes.

§ 10154. Licensing of facility expansions and transshipments

(a) Oral argument

In any Commission hearing under section 189 of the Atomic Energy Act of 1954 (42 U.S.C. 2239) on an application for a license, or for an amendment to an existing license, filed after January 7, 1983, to expand the spent nuclear fuel storage capacity at the site of a civilian nuclear power reactor, through the use of high-density fuel storage racks, fuel rod compaction, the transshipment of spent nuclear fuel to another civil-

ian nuclear power reactor within the same utility system, the construction of additional spent nuclear fuel pool capacity or dry storage capacity, or by other means, the Commission shall, at the request of any party, provide an opportunity for oral argument with respect to any matter which the Commission determines to be in controversy among the parties. The oral argument shall be preceded by such discovery procedures as the rules of the Commission shall provide. The Commission shall require each party, including the Commission staff, to submit in written form, at the time of the oral argument, a summary of the facts, data, and arguments upon which such party proposes to rely that are known at such time to such party. Only facts and data in the form of sworn testimony or written submission may be relied upon by the parties during oral argument. Of the materials that may be submitted by the parties during oral argument, the Commission shall only consider those facts and data that are submitted in the form of sworn testimony or written submission.

(b) Adjudicatory hearing

(1) At the conclusion of any oral argument under subsection (a) of this section, the Commission shall designate any disputed question of fact, together with any remaining questions of law, for resolution in an adjudicatory hearing only if it determines that—

(A) there is a genuine and substantial dispute of fact which can only be resolved with sufficient accuracy by the introduction of evidence in an adjudicatory hearing; and

(B) the decision of the Commission is likely to depend in whole or in part on the resolution of such dispute.

(2) In making a determination under this subsection, the Commission—

(A) shall designate in writing the specific facts that are in genuine and substantial dispute, the reason why the decision of the agency is likely to depend on the resolution of such facts, and the reason why an adjudicatory hearing is likely to resolve the dispute; and

(B) shall not consider—

(i) any issue relating to the design, construction, or operation of any civilian nuclear power reactor already licensed to operate at such site, or any civilian nuclear power reactor for which a construction permit has been granted at such site, unless the Commission determines that any such issue substantially affects the design, construction, or operation of the facility or activity for which such license application, authorization, or amendment is being considered; or

(ii) any siting or design issue fully considered and decided by the Commission in connection with the issuance of a construction permit or operating license for a civilian nuclear power reactor at such site, unless (I) such issue results from any revision of siting or design criteria by the Commission following such decision; and (II) the Commission determines that such issue substantially affects the design, construction, or operation of the facility or activity for which such license application, authorization, or amendment is being considered.

¹ See References in Text note below.

(3) The provisions of paragraph (2)(B) shall apply only with respect to licenses, authorizations, or amendments to licenses or authorizations, applied for under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) before December 31, 2005.

(4) The provisions of this section shall not apply to the first application for a license or license amendment received by the Commission to expand onsite spent fuel storage capacity by the use of a new technology not previously approved for use at any nuclear powerplant by the Commission.

(c) Judicial review

No court shall hold unlawful or set aside a decision of the Commission in any proceeding described in subsection (a) of this section because of a failure by the Commission to use a particular procedure pursuant to this section unless—

(1) an objection to the procedure used was presented to the Commission in a timely fashion or there are extraordinary circumstances that excuse the failure to present a timely objection; and

(2) the court finds that such failure has precluded a fair consideration and informed resolution of a significant issue of the proceeding taken as a whole.

§ 10155. Storage of spent nuclear fuel

(a) Storage capacity

(1) Subject to section 10107 of this title, the Secretary shall provide, in accordance with paragraph (5), not more than 1,900 metric tons of capacity for the storage of spent nuclear fuel from civilian nuclear power reactors. Such storage capacity shall be provided through any one or more of the following methods, used in any combination determined by the Secretary to be appropriate:

(A) use of available capacity at one or more facilities owned by the Federal Government on January 7, 1983, including the modification and expansion of any such facilities, if the Commission determines that such use will adequately protect the public health and safety, except that such use shall not—

(i) render such facilities subject to licensing under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) or the Energy Reorganization Act of 1974 (42 U.S.C. 5801 et seq.); or

(ii) except as provided in subsection (c) of this section require the preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), such facility is already being used, or has previously been used, for such storage or for any similar purpose.

(B) acquisition of any modular or mobile spent nuclear fuel storage equipment, including spent nuclear fuel storage casks, and provision of such equipment, to any person generating or holding title to spent nuclear fuel, at the site of any civilian nuclear power reactor operated by such person or at any site owned by the Federal Government on January 7, 1983;

(C) construction of storage capacity at any site of a civilian nuclear power reactor.

(2) Storage capacity authorized by paragraph (1) shall not be provided at any Federal or non-Federal site within which there is a candidate site for a repository. The restriction in the preceding sentence shall only apply until such time as the Secretary decides that such candidate site is no longer a candidate site under consideration for development as a repository.

(3) In selecting methods of providing storage capacity under paragraph (1), the Secretary shall consider the timeliness of the availability of each such method and shall seek to minimize the transportation of spent nuclear fuel, the public health and safety impacts, and the costs of providing such storage capacity.

(4) In providing storage capacity through any method described in paragraph (1), the Secretary shall comply with any applicable requirements for licensing or authorization of such method, except as provided in paragraph (1)(A)(i).

(5) The Secretary shall ensure that storage capacity is made available under paragraph (1) when needed, as determined on the basis of the storage needs specified in contracts entered into under section 10156(a) of this title, and shall accept upon request any spent nuclear fuel as covered under such contracts.

(6) For purposes of paragraph (1)(A), the term “facility” means any building or structure.

(b) Contracts

(1) Subject to the capacity limitation established in subsections (a)(1) and (d) of this section, the Secretary shall offer to enter into, and may enter into, contracts under section 10156(a) of this title with any person generating or owning spent nuclear fuel for purposes of providing storage capacity for such spent fuel under this section only if the Commission determines that—

(A) adequate storage capacity to ensure the continued orderly operation of the civilian nuclear power reactor at which such spent nuclear fuel is generated cannot reasonably be provided by the person owning and operating such reactor at such site, or at the site of any other civilian nuclear power reactor operated by such person, and such capacity cannot be made available in a timely manner through any method described in subparagraph (B); and

(B) such person is diligently pursuing licensed alternatives to the use of Federal storage capacity for the storage of spent nuclear fuel expected to be generated by such person in the future, including—

(i) expansion of storage facilities at the site of any civilian nuclear power reactor operated by such person;

(ii) construction of new or additional storage facilities at the site of any civilian nuclear power reactor operated by such person;

(iii) acquisition of modular or mobile spent nuclear fuel storage equipment, including spent nuclear fuel storage casks, for use at the site of any civilian nuclear power reactor operated by such person; and

(iv) transshipment to another civilian nuclear power reactor owned by such person.

(2) In making the determination described in paragraph (1)(A), the Commission shall ensure maintenance of a full core reserve storage capability at the site of the civilian nuclear power reactor involved unless the Commission determines that maintenance of such capability is not necessary for the continued orderly operation of such reactor.

(3) The Commission shall complete the determinations required in paragraph (1) with respect to any request for storage capacity not later than 6 months after receipt of such request by the Commission.

(c) Environmental review

(1) The provision of 300 or more metric tons of storage capacity at any one Federal site under subsection (a)(1)(A) of this section shall be considered to be a major Federal action requiring preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(2)(A) The Secretary shall prepare, and make available to the public, an environmental assessment of the probable impacts of any provision of less than 300 metric tons of storage capacity at any one Federal site under subsection (a)(1)(A) of this section that requires the modification or expansion of any facility at the site, and a discussion of alternative activities that may be undertaken to avoid such impacts. Such environmental assessment shall include—

(i) an estimate of the amount of storage capacity to be made available at such site;

(ii) an evaluation as to whether the facilities to be used at such site are suitable for the provision of such storage capacity;

(iii) a description of activities planned by the Secretary with respect to the modification or expansion of the facilities to be used at such site;

(iv) an evaluation of the effects of the provision of such storage capacity at such site on the public health and safety, and the environment;

(v) a reasonable comparative evaluation of current information with respect to such site and facilities and other sites and facilities available for the provision of such storage capacity;

(vi) a description of any other sites and facilities that have been considered by the Secretary for the provision of such storage capacity; and

(vii) an assessment of the regional and local impacts of providing such storage capacity at such site, including the impacts on transportation.

(B) The issuance of any environmental assessment under this paragraph shall be considered to be a final agency action subject to judicial review in accordance with the provisions of chap-

ter 7 of title 5. Such judicial review shall be limited to the sufficiency of such assessment with respect to the items described in clauses (i) through (vii) of subparagraph (A).

(3) Judicial review of any environmental impact statement or environmental assessment prepared pursuant to this subsection shall be conducted in accordance with the provisions of section 10139 of this title.

(d) Review of sites and State participation

(1) In carrying out the provisions of this part with regard to any interim storage of spent fuel from civilian nuclear power reactors which the Secretary is authorized by this section to provide, the Secretary shall, as soon as practicable, notify, in writing, the Governor and the State legislature of any State and the Tribal Council of any affected Indian tribe in such State in which is located a potentially acceptable site or facility for such interim storage of spent fuel of his intention to investigate that site or facility.

(2) During the course of investigation of such site or facility, the Secretary shall keep the Governor, State legislature, and affected Tribal Council currently informed of the progress of the work, and results of the investigation. At the time of selection by the Secretary of any site or existing facility, but prior to undertaking any site-specific work or alterations, the Secretary shall promptly notify the Governor, the legislature, and any affected Tribal Council in writing of such selection, and subject to the provisions of paragraph (6) of this subsection, shall promptly enter into negotiations with such State and affected Tribal Council to establish a cooperative agreement under which such State and Council shall have the right to participate in a process of consultation and cooperation, based on public health and safety and environmental concerns, in all stages of the planning, development, modification, expansion, operation, and closure of storage capacity at a site or facility within such State for the interim storage of spent fuel from civilian nuclear power reactors. Public participation in the negotiation of such an agreement shall be provided for and encouraged by the Secretary, the State, and the affected Tribal Council. The Secretary, in cooperation with the States and Indian tribes, shall develop and publish minimum guidelines for public participation in such negotiations, but the adequacy of such guidelines or any failure to comply with such guidelines shall not be a basis for judicial review.

(3) The cooperative agreement shall include, but need not be limited to, the sharing in accordance with applicable law of all technical and licensing information, the utilization of available expertise, the facilitating of permitting procedures, joint project review, and the formulation of joint surveillance and monitoring arrangements to carry out applicable Federal and State laws. The cooperative agreement also shall include a detailed plan or schedule of milestones, decision points and opportunities for State or eligible Tribal Council review and objection. Such cooperative agreement shall provide procedures for negotiating and resolving objections of the State and affected Tribal Council in any stage of planning, development, modi-

fication, expansion, operation, or closure of storage capacity at a site or facility within such State. The terms of any cooperative agreement shall not affect the authority of the Nuclear Regulatory Commission under existing law.

(4) For the purpose of this subsection, "process of consultation and cooperation" means a methodology by which the Secretary (A) keeps the State and eligible Tribal Council fully and currently informed about the aspects of the project related to any potential impact on the public health and safety and environment; (B) solicits, receives, and evaluates concerns and objections of such State and Council with regard to such aspects of the project on an ongoing basis; and (C) works diligently and cooperatively to resolve, through arbitration or other appropriate mechanisms, such concerns and objections. The process of consultation and cooperation shall not include the grant of a right to any State or Tribal Council to exercise an absolute veto of any aspect of the planning, development, modification, expansion, or operation of the project.

(5) The Secretary and the State and affected Tribal Council shall seek to conclude the agreement required by paragraph (2) as soon as practicable, but not later than 180 days following the date of notification of the selection under paragraph (2). The Secretary shall periodically report to the Congress thereafter on the status of the agreements approved under paragraph (3). Any report to the Congress on the status of negotiations of such agreement by the Secretary shall be accompanied by comments solicited by the Secretary from the State and eligible Tribal Council.

(6)(A) Upon deciding to provide an aggregate of 300 or more metric tons of storage capacity under subsection (a)(1) of this section at any one site, the Secretary shall notify the Governor and legislature of the State where such site is located, or the governing body of the Indian tribe in whose reservation such site is located, as the case may be, of such decision. During the 60-day period following receipt of notification by the Secretary of his decision to provide an aggregate of 300 or more metric tons of storage capacity at any one site, the Governor or legislature of the State in which such site is located, or the governing body of the affected Indian tribe where such site is located, as the case may be, may disapprove the provision of 300 or more metric tons of storage capacity at the site involved and submit to the Congress a notice of such disapproval. A notice of disapproval shall be considered to be submitted to the Congress on the date of the transmittal of such notice of disapproval to the Speaker of the House and the President pro tempore of the Senate. Such notice of disapproval shall be accompanied by a statement of reasons explaining why the provision of such storage capacity at such site was disapproved by such Governor or legislature or the governing body of such Indian tribe.

(B) Unless otherwise provided by State law, the Governor or legislature of each State shall have authority to submit a notice of disapproval to the Congress under subparagraph (A). In any case in which State law provides for submission of any such notice of disapproval by any other person or entity, any reference in this part to

the Governor or legislature of such State shall be considered to refer instead to such other person or entity.

(C) The authority of the Governor and legislature of each State under this paragraph shall not be applicable with respect to any site located on a reservation.

(D) If any notice of disapproval is submitted to the Congress under subparagraph (A), the proposed provision of 300 or more metric tons of storage capacity at the site involved shall be disapproved unless, during the first period of 90 calendar days of continuous session of the Congress following the date of the receipt by the Congress of such notice of disapproval, the Congress passes a resolution approving such proposed provision of storage capacity in accordance with the procedures established in this paragraph and subsections (d) through (f) of section 10135 of this title and such resolution thereafter becomes law. For purposes of this paragraph, the term "resolution" means a joint resolution of either House of the Congress, the matter after the resolving clause of which is as follows: "That there hereby is approved the provision of 300 or more metric tons of spent nuclear fuel storage capacity at the site located at _____, with respect to which a notice of disapproval was submitted by _____ on _____." The first blank space in such resolution shall be filled with the geographic location of the site involved; the second blank space in such resolution shall be filled with the designation of the State Governor and legislature or affected Indian tribe governing body submitting the notice of disapproval involved; and the last blank space in such resolution shall be filled with the date of submission of such notice of disapproval.

(E) For purposes of the consideration of any resolution described in subparagraph (D), each reference in subsections (d) and (e) of section 10135 of this title to a resolution of repository siting approval shall be considered to refer to the resolution described in such subparagraph.

(7) As used in this section, the term "affected Tribal Council" means the governing body of any Indian tribe within whose reservation boundaries there is located a potentially acceptable site for interim storage capacity of spent nuclear fuel from civilian nuclear power reactors, or within whose boundaries a site for such capacity is selected by the Secretary, or whose federally defined possessory or usage rights to other lands outside of the reservation's boundaries arising out of congressionally ratified treaties, as determined by the Secretary of the Interior pursuant to a petition filed with him by the appropriate governmental officials of such tribe, may be substantially and adversely affected by the establishment of any such storage capacity.

(e) Limitations

Any spent nuclear fuel stored under this section shall be removed from the storage site or facility involved as soon as practicable, but in any event not later than 3 years following the date on which a repository or monitored retrievable storage facility developed under this chapter is available for disposal of such spent nuclear fuel.

(f) Report

The Secretary shall annually prepare and submit to the Congress a report on any plans of the Secretary for providing storage capacity under this section. Such report shall include a description of the specific manner of providing such storage selected by the Secretary, if any. The Secretary shall prepare and submit the first such report not later than 1 year after January 7, 1983.

(g) Criteria for determining adequacy of available storage capacity

Not later than 90 days after January 7, 1983, the Commission pursuant to section 553 of the Administrative Procedures Act [5 U.S.C. 553], shall propose, by rule, procedures and criteria for making the determination required by subsection (b) of this section that a person owning and operating a civilian nuclear power reactor cannot reasonably provide adequate spent nuclear fuel storage capacity at the civilian nuclear power reactor site when needed to ensure the continued orderly operation of such reactor. Such criteria shall ensure the maintenance of a full core reserve storage capability at the site of such reactor unless the Commission determines that maintenance of such capability is not necessary for the continued orderly operation of such reactor. Such criteria shall identify the feasibility of reasonably providing such adequate spent nuclear fuel storage capacity, taking into account economic, technical, regulatory, and public health and safety factors, through the use of high-density fuel storage racks, fuel rod compaction, transshipment of spent nuclear fuel to another civilian nuclear power reactor within the same utility system, construction of additional spent nuclear fuel pool capacity, or such other technologies as may be approved by the Commission.

(h) Application

Notwithstanding any other provision of law, nothing in this chapter shall be construed to encourage, authorize, or require the private or Federal use, purchase, lease, or other acquisition of any storage facility located away from the site of any civilian nuclear power reactor and not owned by the Federal Government on January 7, 1983.

(i) Coordination with research and development program

To the extent available, and consistent with the provisions of this section, the Secretary shall provide spent nuclear fuel for the research and development program authorized in section 10198¹ of this title from spent nuclear fuel received by the Secretary for storage under this section. Such spent nuclear fuel shall not be subject to the provisions of subsection (e) of this section.

§ 10156. Interim Storage Fund**(a) Contracts**

(1) During the period following January 7, 1983, but not later than January 1, 1990, the Secretary is authorized to enter into contracts with persons who generate or own spent nuclear fuel resulting from civilian nuclear activities for the storage of such spent nuclear fuel in any storage capacity provided under this part: *Provided, however*, That the Secretary shall not enter into contracts for spent nuclear fuel in amounts in excess of the available storage capacity specified in section 10155(a) of this title. Those contracts shall provide that the Federal Government will (1) take title at the civilian nuclear power reactor site, to such amounts of spent nuclear fuel from the civilian nuclear power reactor as the Commission determines cannot be stored onsite, (2) transport the spent nuclear fuel to a federally owned and operated interim away-from-reactor storage facility, and (3) store such fuel in the facility pending further processing, storage, or disposal. Each such contract shall (A) provide for payment to the Secretary of fees determined in accordance with the provisions of this section; and (B) specify the amount of storage capacity to be provided for the person involved.

(2) The Secretary shall undertake a study and, not later than 180 days after January 7, 1983, submit to the Congress a report, establishing payment charges that shall be calculated on an annual basis, commencing on or before January 1, 1984. Such payment charges and the calculation thereof shall be published in the Federal Register, and shall become effective not less than 30 days after publication. Each payment charge published in the Federal Register under this paragraph shall remain effective for a period of 12 months from the effective date as the charge for the cost of the interim storage of any spent nuclear fuel. The report of the Secretary

¹ See References in Text note below.

shall specify the method and manner of collection (including the rates and manner of payment) and any legislative recommendations determined by the Secretary to be appropriate.

(3) Fees for storage under this part shall be established on a nondiscriminatory basis. The fees to be paid by each person entering into a contract with the Secretary under this subsection shall be based upon an estimate of the pro rata costs of storage and related activities under this part with respect to such person, including the acquisition, construction, operation, and maintenance of any facilities under this part.

(4) The Secretary shall establish in writing criteria setting forth the terms and conditions under which such storage services shall be made available.

(5) Except as provided in section 10157 of this title, nothing in this chapter or any other Act requires the Secretary, in carrying out the responsibilities of this section, to obtain a license or permit to possess or own spent nuclear fuel.

(b) Limitation

No spent nuclear fuel generated or owned by any department of the United States referred to in section 101 or 102 of title 5 may be stored by the Secretary in any storage capacity provided under this part unless such department transfers to the Secretary, for deposit in the Interim Storage Fund, amounts equivalent to the fees that would be paid to the Secretary under the contracts referred to in this section if such spent nuclear fuel were generated by any other person.

(c) Establishment of Interim Storage Fund

There hereby is established in the Treasury of the United States a separate fund, to be known as the Interim Storage Fund. The Storage Fund shall consist of—

(1) all receipts, proceeds, and recoveries realized by the Secretary under subsections (a), (b), and (e) of this section, which shall be deposited in the Storage Fund immediately upon their realization;

(2) any appropriations made by the Congress to the Storage Fund; and

(3) any unexpended balances available on January 7, 1983, for functions or activities necessary or incident to the interim storage of civilian spent nuclear fuel, which shall automatically be transferred to the Storage Fund on such date.

(d) Use of Storage Fund

The Secretary may make expenditures from the Storage Fund, subject to subsection (e) of this section, for any purpose necessary or appropriate to the conduct of the functions and activities of the Secretary, or the provision or anticipated provision of services, under this part, including—

(1) the identification, development, licensing, construction, operation, decommissioning, and post-decommissioning maintenance and monitoring of any interim storage facility provided under this part;

(2) the administrative cost of the interim storage program;

(3) the costs associated with acquisition, design, modification, replacement, operation,

and construction of facilities at an interim storage site, consistent with the restrictions in section 10155 of this title;

(4) the cost of transportation of spent nuclear fuel; and

(5) impact assistance as described in subsection (e) of this section.

(e) Impact assistance

(1) Beginning the first fiscal year which commences after January 7, 1983, the Secretary shall make annual impact assistance payments to a State or appropriate unit of local government, or both, in order to mitigate social or economic impacts occasioned by the establishment and subsequent operation of any interim storage capacity within the jurisdictional¹ boundaries of such government or governments and authorized under this part: *Provided, however*, That such impact assistance payments shall not exceed (A) ten per centum of the costs incurred in paragraphs (1) and (2), or (B) \$15 per kilogram of spent fuel, whichever is less;

(2) Payments made available to States and units of local government pursuant to this section shall be—

(A) allocated in a fair and equitable manner with a priority to those States or units of local government suffering the most severe impacts; and

(B) utilized by States or units of local governments only for (i) planning, (ii) construction and maintenance of public services, (iii) provision of public services related to the providing of such interim storage authorized under this subchapter, and (iv) compensation for loss of taxable property equivalent to that if the storage had been provided under private ownership.

(3) Such payments shall be subject to such terms and conditions as the Secretary determines necessary to ensure that the purposes of this subsection shall be achieved. The Secretary shall issue such regulations as may be necessary to carry out the provisions of this subsection.

(4) Payments under this subsection shall be made available solely from the fees determined under subsection (a) of this section.

(5) The Secretary is authorized to consult with States and appropriate units of local government in advance of commencement of establishment of storage capacity authorized under this part in an effort to determine the level of the payment such government would be eligible to receive pursuant to this subsection.

(6) As used in this subsection, the term “unit of local government” means a county, parish, township, municipality, and shall include a borough existing in the State of Alaska on January 7, 1983, and any other unit of government below the State level which is a unit of general government as determined by the Secretary.

(f) Administration of Storage Fund

(1) The Secretary of the Treasury shall hold the Storage Fund and, after consultation with the Secretary, annually report to the Congress on the financial condition and operations of the Storage Fund during the preceding fiscal year.

¹ So in original. Probably should be “jurisdictional”.

(2) The Secretary shall submit the budget of the Storage Fund to the Office of Management and Budget triennially along with the budget of the Department of Energy submitted at such time in accordance with chapter 11 of title 31. The budget of the Storage Fund shall consist of estimates made by the Secretary of expenditures from the Storage Fund and other relevant financial matters for the succeeding 3 fiscal years, and shall be included in the Budget of the United States Government. The Secretary may make expenditures from the Storage Fund, subject to appropriations which shall remain available until expended. Appropriations shall be subject to triennial authorization.

(3) If the Secretary determines that the Storage Fund contains at any time amounts in excess of current needs, the Secretary may request the Secretary of the Treasury to invest such amounts, or any portion of such amounts as the Secretary determines to be appropriate, in obligations of the United States—

(A) having maturities determined by the Secretary of the Treasury to be appropriate to the needs of the Storage Fund; and

(B) bearing interest at rates determined to be appropriate by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the maturities of such investments, except that the interest rate on such investments shall not exceed the average interest rate applicable to existing borrowings.

(4) Receipts, proceeds, and recoveries realized by the Secretary under this section, and expenditures of amounts from the Storage Fund, shall be exempt from annual apportionment under the provisions of subchapter II of chapter 15 of title 31.

(5) If at any time the moneys available in the Storage Fund are insufficient to enable the Secretary to discharge his responsibilities under this part, the Secretary shall issue to the Secretary of the Treasury obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions as may be agreed to by the Secretary and the Secretary of the Treasury. The total of such obligations shall not exceed amounts provided in appropriation Acts. Redemption of such obligations shall be made by the Secretary from moneys available in the Storage Fund. Such obligations shall bear interest at a rate determined by the Secretary of the Treasury, which shall be not less than a rate determined by taking into consideration the average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the obligations under this paragraph. The Secretary of the Treasury shall purchase any issued obligations, and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, and the purposes for which securities may be issued under such Act² are extended to include any purchase of such obliga-

tions. The Secretary of the Treasury may at any time sell any of the obligations acquired by him under this paragraph. All redemptions, purchases, and sales by the Secretary of the Treasury of obligations under this paragraph shall be treated as public debt transactions of the United States.

(6) Any appropriations made available to the Storage Fund for any purpose described in subsection (d) of this section shall be repaid into the general fund of the Treasury, together with interest from the date of availability of the appropriations until the date of repayment. Such interest shall be paid on the cumulative amount of appropriations available to the Storage Fund, less the average undisbursed cash balance in the Storage Fund account during the fiscal year involved. The rate of such interest shall be determined by the Secretary of the Treasury taking into consideration the average market yield during the month preceding each fiscal year on outstanding marketable obligations of the United States of comparable maturity. Interest payments may be deferred with the approval of the Secretary of the Treasury, but any interest payments so deferred shall themselves bear interest.

(2) The Secretary, in providing for the transportation of spent nuclear fuel under this chapter, shall utilize by contract private industry to the fullest extent possible in each aspect of such transportation. The Secretary shall use direct Federal services for such transportation only upon a determination of the Secretary of Transportation, in consultation with the Secretary, that private industry is unable or unwilling to provide such transportation services at reasonable cost.

PART C—MONITORED RETRIEVABLE STORAGE

§ 10161. Monitored retrievable storage

(a) Findings

The Congress finds that—

² See References in Text note below.

¹ So in original. No subsec. (b) has been enacted.

(1) long-term storage of high-level radioactive waste or spent nuclear fuel in monitored retrievable storage facilities is an option for providing safe and reliable management of such waste or spent fuel;

(2) the executive branch and the Congress should proceed as expeditiously as possible to consider fully a proposal for construction of one or more monitored retrievable storage facilities to provide such long-term storage;

(3) the Federal Government has the responsibility to ensure that site-specific designs for such facilities are available as provided in this section;

(4) the generators and owners of the high-level radioactive waste and spent nuclear fuel to be stored in such facilities have the responsibility to pay the costs of the long-term storage of such waste and spent fuel; and

(5) disposal of high-level radioactive waste and spent nuclear fuel in a repository developed under this chapter should proceed regardless of any construction of a monitored retrievable storage facility pursuant to this section.

(b) Submission of proposal by Secretary

(1) On or before June 1, 1985, the Secretary shall complete a detailed study of the need for and feasibility of, and shall submit to the Congress a proposal for, the construction of one or more monitored retrievable storage facilities for high-level radioactive waste and spent nuclear fuel. Each such facility shall be designed—

(A) to accommodate spent nuclear fuel and high-level radioactive waste resulting from civilian nuclear activities;

(B) to permit continuous monitoring, management, and maintenance of such spent fuel and waste for the foreseeable future;

(C) to provide for the ready retrieval of such spent fuel and waste for further processing or disposal; and

(D) to safely store such spent fuel and waste as long as may be necessary by maintaining such facility through appropriate means, including any required replacement of such facility.

(2) Such proposal shall include—

(A) the establishment of a Federal program for the siting, development, construction, and operation of facilities capable of safely storing high-level radioactive waste and spent nuclear fuel, which facilities are to be licensed by the Commission;

(B) a plan for the funding of the construction and operation of such facilities, which plan shall provide that the costs of such activities shall be borne by the generators and owners of the high-level radioactive waste and spent nuclear fuel to be stored in such facilities;

(C) site-specific designs, specifications, and cost estimates sufficient to (i) solicit bids for the construction of the first such facility; (ii) support congressional authorization of the construction of such facility; and (iii) enable completion and operation of such facility as soon as practicable following congressional authorization of such facility; and

(D) a plan for integrating facilities constructed pursuant to this section with other

storage and disposal facilities authorized in this chapter.

(3) In formulating such proposal, the Secretary shall consult with the Commission and the Administrator, and shall submit their comments on such proposal to the Congress at the time such proposal is submitted.

(4) The proposal shall include, for the first such facility, at least 3 alternative sites and at least 5 alternative combinations of such proposed sites and facility designs consistent with the criteria of paragraph (1). The Secretary shall recommend the combination among the alternatives that the Secretary deems preferable. The environmental assessment under subsection (c) of this section shall include a full analysis of the relative advantages and disadvantages of all 5 such alternative combinations of proposed sites and proposed facility designs.

(c) Environmental impact statements

(1) Preparation and submission to the Congress of the proposal required in this section shall not require the preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The Secretary shall prepare, in accordance with regulations issued by the Secretary implementing such Act [42 U.S.C. 4321 et seq.], an environmental assessment with respect to such proposal. Such environmental assessment shall be based upon available information regarding alternative technologies for the storage of spent nuclear fuel and high-level radioactive waste. The Secretary shall submit such environmental assessment to the Congress at the time such proposal is submitted.

(2) If the Congress by law, after review of the proposal submitted by the Secretary under subsection (b) of this section, specifically authorizes construction of a monitored retrievable storage facility, the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall apply with respect to construction of such facility, except that any environmental impact statement prepared with respect to such facility shall not be required to consider the need for such facility or any alternative to the design criteria for such facility set forth in subsection (b)(1) of this section.

(d) Licensing

Any facility authorized pursuant to this section shall be subject to licensing under section 5842(3) of this title. In reviewing the application filed by the Secretary for licensing of the first such facility, the Commission may not consider the need for such facility or any alternative to the design criteria for such facility set forth in subsection (b)(1) of this section.

(e) Clarification

Nothing in this section limits the consideration of alternative facility designs consistent with the criteria of subsection (b)(1) of this section in any environmental impact statement, or in any licensing procedure of the Commission, with respect to any monitored, retrievable facility authorized pursuant to this section.

(f) Impact assistance

(1) Upon receipt by the Secretary of congressional authorization to construct a facility de-

scribed in subsection (b) of this section, the Secretary shall commence making annual impact aid payments to appropriate units of general local government in order to mitigate any social or economic impacts resulting from the construction and subsequent operation of any such facility within the jurisdictional boundaries of any such unit.

(2) Payments made available to units of general local government under this subsection shall be—

(A) allocated in a fair and equitable manner, with priority given to units of general local government determined by the Secretary to be most severely affected; and

(B) utilized by units of general local government only for planning, construction, maintenance, and provision of public services related to the siting of such facility.

(3) Such payments shall be subject to such terms and conditions as the Secretary determines are necessary to ensure achievement of the purposes of this subsection. The Secretary shall issue such regulations as may be necessary to carry out the provisions of this subsection.

(4) Such payments shall be made available entirely from funds held in the Nuclear Waste Fund established in section 10222(c) of this title and shall be available only to the extent provided in advance in appropriation Acts.

(5) The Secretary may consult with appropriate units of general local government in advance of commencement of construction of any such facility in an effort to determine the level of payments each such unit is eligible to receive under this subsection.

(g) Limitation

No monitored retrievable storage facility developed pursuant to this section may be constructed in any State in which there is located any site approved for site characterization under section 10132 of this title. The restriction in the preceding sentence shall only apply until such time as the Secretary decides that such candidate site is no longer a candidate site under consideration for development as a repository. Such restriction shall continue to apply to any site selected for construction as a repository.

(h) Participation of States and Indian tribes

Any facility authorized pursuant to this section shall be subject to the provisions of sections 10135, 10136(a), 10136(b), 10136(d), 10137, and 10138 of this title. For purposes of carrying out the provisions of this subsection, any reference in sections 10135 through 10138 of this title to a repository shall be considered to refer to a monitored retrievable storage facility.

In carrying out the provisions of sections 10164 and 10165 of this title, the Secretary shall make no presumption or preference to such sites by reason of their previous selection.

(b) Authorization

The Secretary is authorized to site, construct, and operate one monitored retrievable storage facility subject to the conditions described in sections 10163 through 10169 of this title.

§ 10163. Monitored Retrievable Storage Commission

(a) ¹ Establishment

(1)(A) There is established a Monitored Retrievable Storage Review Commission (hereinafter in this section referred to as the “MRS Commission”), that shall consist of 3 members who shall be appointed by and serve at the pleasure of the President pro tempore of the Senate and the Speaker of the House of Representatives.

(B) Members of the MRS Commission shall be appointed not later than 30 days after December 22, 1987, from among persons who as a result of training, experience and attainments are exceptionally well qualified to evaluate the need for a monitored retrievable storage facility as a part of the Nation’s nuclear waste management system.

(C) The MRS Commission shall prepare a report on the need for a monitored retrievable storage facility as a part of a national nuclear waste management system that achieves the purposes of this chapter. In preparing the report under this subparagraph, the MRS Commission shall—

(i) review the status and adequacy of the Secretary’s evaluation of the systems advantages and disadvantages of bringing such a facility into the national nuclear waste disposal system;

(ii) obtain comment and available data on monitored retrievable storage from affected parties, including States containing potentially acceptable sites;

(iii) evaluate the utility of a monitored retrievable storage facility from a technical perspective; and

¹ So in original. No subsec. (b) has been enacted.

(iv) make a recommendation to Congress as to whether such a facility should be included in the national nuclear waste management system in order to achieve the purposes of this chapter, including meeting needs for packaging and handling of spent nuclear fuel, improving the flexibility of the repository development schedule, and providing temporary storage of spent nuclear fuel accepted for disposal.

(2) In preparing the report and making its recommendation under paragraph (1) the MRS Commission shall compare such a facility to the alternative of at-reactor storage of spent nuclear fuel prior to disposal of such fuel in a repository under this chapter. Such comparison shall take into consideration the impact on—

- (A) repository design and construction;
- (B) waste package design, fabrication and standardization;
- (C) waste preparation;
- (D) waste transportation systems;
- (E) the reliability of the national system for the disposal of radioactive waste;
- (F) the ability of the Secretary to fulfill contractual commitments of the Department under this chapter to accept spent nuclear fuel for disposal; and
- (G) economic factors, including the impact on the costs likely to be imposed on ratepayers of the Nation's electric utilities for temporary at-reactor storage of spent nuclear fuel prior to final disposal in a repository, as well as the costs likely to be imposed on ratepayers of the Nation's electric utilities in building and operating such a facility.

(3) The report under this subsection, together with the recommendation of the MRS Commission, shall be transmitted to Congress on November 1, 1989.

(4)(A)(i) Each member of the MRS Commission shall be paid at the rate provided for level III of the Executive Schedule for each day (including travel time) such member is engaged in the work of the MRS Commission, and shall receive travel expenses, including per diem in lieu of subsistence in the same manner as is permitted under sections 5702 and 5703 of title 5.

(ii) The MRS Commission may appoint and fix compensation, not to exceed the rate of basic pay payable for GS-18 of the General Schedule, for such staff as may be necessary to carry out its functions.

(B)(i) The MRS Commission may hold hearings, sit and act at such times and places, take such testimony and receive such evidence as the MRS Commission considers appropriate. Any member of the MRS Commission may administer oaths or affirmations to witnesses appearing before the MRS Commission.

(ii) The MRS Commission may request any Executive agency, including the Department, to furnish such assistance or information, including records, data, files, or documents, as the Commission considers necessary to carry out its functions. Unless prohibited by law, such agency shall promptly furnish such assistance or information.

(iii) To the extent permitted by law, the Administrator of the General Services Administration shall, upon request of the MRS Commis-

sion, provide the MRS Commission with necessary administrative services, facilities, and support on a reimbursable basis.

(iv) The MRS Commission may procure temporary and intermittent services from experts and consultants to the same extent as is authorized by section 3109(b) of title 5 at rates and under such rules as the MRS Commission considers reasonable.

(C) The MRS Commission shall cease to exist 60 days after the submission to Congress of the report required under this subsection.

§ 10164. Survey

After the MRS Commission submits its report to the Congress under section 10163 of this title, the Secretary may conduct a survey and evaluation of potentially suitable sites for a monitored retrievable storage facility. In conducting such survey and evaluation, the Secretary shall consider the extent to which siting a monitored retrievable storage facility at each site surveyed would—

- (1) enhance the reliability and flexibility of the system for the disposal of spent nuclear fuel and high-level radioactive waste established under this chapter;
- (2) minimize the impacts of transportation and handling of such fuel and waste;
- (3) provide for public confidence in the ability of such system to safely dispose of the fuel and waste;
- (4) impose minimal adverse effects on the local community and the local environment;
- (5) provide a high probability that the facility will meet applicable environmental, health, and safety requirements in a timely fashion;
- (6) provide such other benefits to the system for the disposal of spent nuclear fuel and high-level radioactive waste as the Secretary deems appropriate; and

(7) unduly burden a State in which significant volumes of high-level radioactive waste resulting from atomic energy defense activities are stored.

§ 10165. Site selection

(a) In general

The Secretary may select the site evaluated under section 10164 of this title that the Secretary determines on the basis of available information to be the most suitable for a monitored retrievable storage facility that is an integral part of the system for the disposal of spent nuclear fuel and high-level radioactive waste established under this chapter.

(b) Limitation

The Secretary may not select a site under subsection (a) of this section until the Secretary recommends to the President the approval of a site for development as a repository under section 10134(a) of this title.

(c) Site specific activities

The Secretary may conduct such site specific activities at each site surveyed under section 10164 of this title as he determines may be necessary to support an application to the Commission for a license to construct a monitored retrievable storage facility at such site.

(d) Environmental assessment

Site specific activities and selection of a site under this section shall not require the preparation of an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The Secretary shall prepare an environmental assessment with respect to such selection in accordance with regulations issued by the Secretary implementing such Act [42 U.S.C. 4321 et seq.]. Such environmental assessment shall be based upon available information regarding alternative technologies for the storage of spent nuclear fuel and high-level radioactive waste. The Secretary shall submit such environmental assessment to the Congress at the time such site is selected.

(e) Notification before selection

(1) At least 6 months before selecting a site under subsection (a) of this section, the Secretary shall notify the Governor and legislature of the State in which such site is located, or the governing body of the affected Indian tribe where such site is located, as the case may be, of such potential selection and the basis for such selection.

(2) Before selecting any site under subsection (a) of this section, the Secretary shall hold at least one public hearing in the vicinity of such site to solicit any recommendations of interested parties with respect to issues raised by the selection of such site.

(f) Notification of selection

The Secretary shall promptly notify Congress and the appropriate State or Indian tribe of the selection under subsection (a) of this section.

(g) Limitation

No monitored retrievable storage facility authorized pursuant to section 10162(b) of this title may be constructed in the State of Nevada.

§ 10166. Notice of disapproval

(a) In general

The selection of a site under section 10165 of this title shall be effective at the end of the period of 60 calendar days beginning on the date of notification under such subsection, unless the governing body of the Indian tribe on whose reservation such site is located, or, if the site is not on a reservation, the Governor and the legislature of the State in which the site is located, has submitted to Congress a notice of disapproval with respect to such site. If any such notice of disapproval has been submitted under this subsection, the selection of the site under section 10165 of this title shall not be effective except as provided under section 10135(c) of this title.

(b) References

For purposes of carrying out the provisions of this subsection, references in section 10135(c) of this title to a repository shall be considered to refer to a monitored retrievable storage facility and references to a notice of disapproval of a repository site designation under section 10136(b) or 10138(a) of this title shall be considered to refer to a notice of disapproval under this section.

(Pub. L. 97-425, title I, §146, as added Pub. L. 100-202, §101(d) [title III, §300], Dec. 22, 1987, 101 Stat. 1329-104, 1329-121; Pub. L. 100-203, title V, §5021, Dec. 22, 1987, 101 Stat. 1330-235.)

§ 10168. Construction authorization

(a) Environmental impact statement

(1) Once the selection of a site is effective under section 10166 of this title, the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall apply with respect to construction of a monitored retrievable storage facility, except that any environmental impact statement prepared with respect to such facility shall not be required to consider the need for such facility or any alternative to the design criteria for such facility set forth in section 10161(b)(1) of this title.

(2) Nothing in this section shall be construed to limit the consideration of alternative facility designs consistent with the criteria described in section 10161(b)(1) of this title in any environmental impact statement, or in any licensing procedure of the Commission, with respect to any monitored retrievable storage facility authorized under section 10162(b) of this title.

(b) Application for construction license

Once the selection of a site for a monitored retrievable storage facility is effective under section 10166 of this title, the Secretary may submit an application to the Commission for a license to construct such a facility as part of an integrated nuclear waste management system and in accordance with the provisions of this section and applicable agreements under this chapter affecting such facility.

(c) Licensing

Any monitored retrievable storage facility authorized pursuant to section 10162(b) of this title shall be subject to licensing under section 5842(3) of this title. In reviewing the application filed by the Secretary for licensing of such facility, the Commission may not consider the need for such facility or any alternative to the design criteria for such facility set forth in section 10161(b)(1) of this title.

(d) Licensing conditions

Any license issued by the Commission for a monitored retrievable storage facility under this section shall provide that—

(1) construction of such facility may not begin until the Commission has issued a license for the construction of a repository under section 10135(d) of this title;

(2) construction of such facility or acceptance of spent nuclear fuel or high-level radioactive waste shall be prohibited during such time as the repository license is revoked by the Commission or construction of the repository ceases;

(3) the quantity of spent nuclear fuel or high-level radioactive waste at the site of such

facility at any one time may not exceed 10,000 metric tons of heavy metal until a repository under this chapter first accepts spent nuclear fuel or solidified high-level radioactive waste; and

(4) the quantity of spent nuclear fuel or high-level radioactive waste at the site of such facility at any one time may not exceed 15,000 metric tons of heavy metal.

PART D—LOW-LEVEL RADIOACTIVE WASTE

§ 10171. Financial arrangements for low-level radioactive waste site closure

(a) Financial arrangements

(1) The Commission shall establish by rule, regulation, or order, after public notice, and in accordance with section 2231 of this title, such standards and instructions as the Commission may deem necessary or desirable to ensure in the case of each license for the disposal of low-level radioactive waste that an adequate bond, surety, or other financial arrangement (as determined by the Commission) will be provided by a licensee to permit completion of all requirements established by the Commission for the decontamination, decommissioning, site closure, and reclamation of sites, structures, and equipment used in conjunction with such low-level radioactive waste. Such financial arrangements shall be provided and approved by the Commission, or, in the case of sites within the boundaries of any agreement State under section 2021 of this title, by the appropriate State or State entity, prior to issuance of licenses for low-level radioactive waste disposal or, in the case of licenses in effect on January 7, 1983, prior to termination of such licenses.

(2) If the Commission determines that any long-term maintenance or monitoring, or both, will be necessary at a site described in paragraph (1), the Commission shall ensure before termination of the license involved that the licensee has made available such bonding, surety, or other financial arrangements as may be necessary to ensure that any necessary long-term maintenance or monitoring needed for such site will be carried out by the person having title and custody for such site following license termination.

(b) Title and custody

(1) The Secretary shall have authority to assume title and custody of low-level radioactive waste and the land on which such waste is disposed of, upon request of the owner of such waste and land and following termination of the license issued by the Commission for such disposal, if the Commission determines that—

(A) the requirements of the Commission for site closure, decommissioning, and decontamination have been met by the licensee involved and that such licensee is in compliance with the provisions of subsection (a) of this section;

(B) such title and custody will be transferred to the Secretary without cost to the Federal Government; and

(C) Federal ownership and management of such site is necessary or desirable in order to protect the public health and safety, and the environment.

(2) If the Secretary assumes title and custody of any such waste and land under this subsection, the Secretary shall maintain such waste and land in a manner that will protect the public health and safety, and the environment.

(c) Special sites

If the low-level radioactive waste involved is the result of a licensed activity to recover zirconium, hafnium, and rare earths from source material, the Secretary, upon request of the owner of the site involved, shall assume title and custody of such waste and the land on which it is disposed when such site has been decontaminated and stabilized in accordance with the requirements established by the Commission and when such owner has made adequate financial arrangements approved by the Commission for the long-term maintenance and monitoring of such site.

SUBCHAPTER II—RESEARCH, DEVELOPMENT, AND DEMONSTRATION REGARDING DISPOSAL OF HIGH-LEVEL RADIOACTIVE WASTE AND SPENT NUCLEAR FUEL

§ 10191. Purpose

It is the purpose of this subchapter—

(1) to provide direction to the Secretary with respect to the disposal of high-level radioactive waste and spent nuclear fuel;

(2) to authorize the Secretary, pursuant to this subchapter—

(A) to provide for the construction, operation, and maintenance of a deep geologic test and evaluation facility; and

(B) to provide for a focused and integrated high-level radioactive waste and spent nuclear fuel research and development program, including the development of a test and evaluation facility to carry out research and provide an integrated demonstration of the technology for deep geologic disposal of high-level radioactive waste, and the development of the facilities to demonstrate dry storage of spent nuclear fuel; and

(3) to provide for an improved cooperative role between the Federal Government and States, affected Indian tribes, and units of general local government in the siting of a test and evaluation facility.

(Pub. L. 97-425, title II, §211, Jan. 7, 1983, 96 Stat. 2245.)

§ 10192. Applicability

The provisions of this subchapter are subject to section 10107 of this title and shall not apply to facilities that are used for the disposal of high-level radioactive waste, low-level radioactive waste, transuranic waste, or spent nuclear fuel resulting from atomic energy defense activities.

(Pub. L. 97-425, title II, §212, Jan. 7, 1983, 96 Stat. 2245.)

§ 10193. Identification of sites

(a) Guidelines

Not later than 6 months after January 7, 1983, and notwithstanding the failure of other agencies to promulgate standards pursuant to applicable law, the Secretary, in consultation with the Commission, the Director of the United States Geological Survey, the Administrator, the Council on Environmental Quality, and such other Federal agencies as the Secretary considers appropriate, is authorized to issue, pursuant to section 553 of title 5, general guidelines for the selection of a site for a test and evaluation facility. Under such guidelines the Secretary shall specify factors that qualify or disqualify a

site for development as a test and evaluation facility, including factors pertaining to the location of valuable natural resources, hydrogeophysics, seismic activity, and atomic energy defense activities, proximity to water supplies, proximity to populations, the effect upon the rights of users of water, and proximity to components of the National Park System, the National Wildlife Refuge System, the National Wild and Scenic Rivers System, the National Wilderness Preservation System, or National Forest Lands. Such guidelines shall require the Secretary to consider the various geologic media in which the site for a test and evaluation facility may be located and, to the extent practicable, to identify sites in different geologic media. The Secretary shall use guidelines established under this subsection in considering and selecting sites under this subchapter.

(b) Site identification by Secretary

(1) Not later than 1 year after January 7, 1983, and following promulgation of guidelines under subsection (a) of this section, the Secretary is authorized to identify 3 or more sites, at least 2 of which shall be in different geologic media in the continental United States, and at least 1 of which shall be in media other than salt. Subject to Commission requirements, the Secretary shall give preference to sites for the test and evaluation facility in media possessing geochemical characteristics that retard aqueous transport of radionuclides. In order to provide a greater possible protection of public health and safety as operating experience is gained at the test and evaluation facility, and with the exception of the primary areas under review by the Secretary on January 7, 1983, for the location of a test and evaluation facility or repository, all sites identified under this subsection shall be more than 15 statute miles from towns having a population of greater than 1,000 persons as determined by the most recent census unless such sites contain high-level radioactive waste prior to identification under this subchapter. Each identification of a site shall be supported by an environmental assessment, which shall include a detailed statement of the basis for such identification and of the probable impacts of the siting research activities planned for such site, and a discussion of alternative activities relating to siting research that may be undertaken to avoid such impacts. Such environmental assessment shall include—

(A) an evaluation by the Secretary as to whether such site is suitable for siting research under the guidelines established under subsection (a) of this section;

(B) an evaluation by the Secretary of the effects of the siting research activities at such site on the public health and safety and the environment;

(C) a reasonable comparative evaluation by the Secretary of such site with other sites and locations that have been considered;

(D) a description of the decision process by which such site was recommended; and

(E) an assessment of the regional and local impacts of locating the proposed test and evaluation facility at such site.

(2) When the Secretary identifies a site, the Secretary shall as soon as possible notify the

Governor of the State in which such site is located, or the governing body of the affected Indian tribe where such site is located, of such identification and the basis of such identification. Additional sites for the location of the test and evaluation facility authorized in section 10222(d) of this title may be identified after such 1 year period, following the same procedure as if such sites had been identified within such period.

(Pub. L. 97-425, title II, § 213, Jan. 7, 1983, 96 Stat. 2245; Pub. L. 102-154, title I, Nov. 13, 1991, 105 Stat. 1000.)

CHANGE OF NAME

“United States Geological Survey” substituted for “Geological Survey” in subsec. (a) pursuant to provision of title I of Pub. L. 102-154, set out as a note under section 31 of Title 43, Public Lands.

§ 10194. Siting research and related activities

(a) In general

Not later than 30 months after the date on which the Secretary completes the identification of sites under section 10193 of this title, the Secretary is authorized to complete sufficient evaluation of 3 sites to select a site for expanded siting research activities and for other activities under section 10198 of this title. The Secretary is authorized to conduct such preconstruction activities relative to such site selection for the test and evaluation facility as he deems appropriate. Additional sites for the location of the test and evaluation facility authorized in section 10222(d) of this title may be evaluated after such 30-month period, following the same procedures as if such sites were to be evaluated within such period.

(b) Public meetings and environmental assessment

Not later than 6 months after the date on which the Secretary completes the identification of sites under section 10193 of this title, and before beginning siting research activities, the Secretary shall hold at least 1 public meeting in the vicinity of each site to inform the residents of the area of the activities to be conducted at such site and to receive their views.

(c) Restrictions

Except as provided in section 10198 of this title with respect to a test and evaluation facility, in conducting siting research activities pursuant to subsection (a) of this section—

- (1) the Secretary shall use the minimum quantity of high-level radioactive waste or other radioactive materials, if any, necessary to achieve the test or research objectives;
- (2) the Secretary shall ensure that any radioactive material used or placed on a site shall be fully retrievable; and
- (3) upon termination of siting research activities at a site for any reason, the Secretary shall remove any radioactive material at or in the site as promptly as practicable.

(d) Title to material

The Secretary may take title, in the name of the Federal Government, to the high-level radioactive waste, spent nuclear fuel, or other radio-

active material emplaced in a test and evaluation facility. If the Secretary takes title to any such material, the Secretary shall enter into the appropriate financial arrangements described in subsection (a) or (b) of section 10222 of this title for the disposal of such material.

§ 10195. Test and evaluation facility siting review and reports

(a) Consultation and cooperation

The Governor of a State, or the governing body of an affected Indian tribe, notified of a site identification under section 10193 of this title shall have the right to participate in a process of consultation and cooperation as soon as the site involved has been identified pursuant to such section and throughout the life of the test and evaluation facility. For purposes of this section, the term “process of consultation and cooperation” means a methodology—

(1) by which the Secretary—

(A) keeps the Governor or governing body involved fully and currently informed about any potential economic or public health and safety impacts in all stages of the siting, development, construction, and operation of a test and evaluation facility;

(B) solicits, receives, and evaluates concerns and objections of such Governor or governing body with regard to such test and evaluation facility on an ongoing basis; and

(C) works diligently and cooperatively to resolve such concerns and objections; and

(2) by which the State or affected Indian tribe involved can exercise reasonable independent monitoring and testing of onsite activities related to all stages of the siting, development, construction and operation of the test and evaluation facility, except that any such monitoring and testing shall not unreasonably interfere with onsite activities.

(b) Written agreements

The Secretary shall enter into written agreements with the Governor of the State in which an identified site is located or with the governing body of any affected Indian tribe where an identified site is located in order to expedite the consultation and cooperation process. Any such written agreement shall specify—

(1) procedures by which such Governor or governing body may study, determine, comment on, and make recommendations with regard to the possible health, safety, and economic impacts of the test and evaluation facility;

(2) procedures by which the Secretary shall consider and respond to comments and recommendations made by such Governor or governing body, including the period in which the Secretary shall so respond;

(3) the documents the Department is to submit to such Governor or governing body, the timing for such submissions, the timing for such Governor or governing body to identify public health and safety concerns and the process to be followed to try to eliminate those concerns;

(4) procedures by which the Secretary and either such Governor or governing body may review or modify the agreement periodically; and

(5) procedures for public notification of the procedures specified under subparagraphs (A) through (D).

(c) Limitation

(Pub. L. 97-425, title II, §215, Jan. 7, 1983, 96 Stat. 2247.)

§ 10196. Federal agency actions

(a) Cooperation and coordination

Federal agencies shall assist the Secretary by cooperating and coordinating with the Secretary in the preparation of any necessary reports under this subchapter and the mission plan under section 10221 of this title.

(b) Environmental review

(1) No action of the Secretary or any other Federal agency required by this subchapter or section 10221 of this title with respect to a test and evaluation facility to be taken prior to the initiation of onsite construction of a test and evaluation facility shall require the preparation of an environmental impact statement under section 102(2)(C) of the Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), or to require the preparation of environmental reports, except as otherwise specifically provided for in this subchapter.

(2) The Secretary and the heads of all other Federal agencies shall, to the maximum extent possible, avoid duplication of efforts in the preparation of reports under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

§ 10197. Research and development on disposal of high-level radioactive waste

(a) Purpose

Not later than 64 months after January 7, 1983, the Secretary is authorized to, to the extent practicable, begin at a site evaluated under section 10194 of this title, as part of and as an extension of siting research activities of such site under such section, the mining and construction of a test and evaluation facility. Prior to the mining and construction of such facility, the Secretary shall prepare an environmental assessment. The purpose of such facility shall be—

(1) to supplement and focus the repository site characterization process;

(2) to provide the conditions under which known technological components can be inte-

grated to demonstrate a functioning repository-like system;

(3) to provide a means of identifying, evaluating, and resolving potential repository licensing issues that could not be resolved during the siting research program conducted under section 10192 of this title;

(4) to validate, under actual conditions, the scientific models used in the design of a repository;

(5) to refine the design and engineering of repository components and systems and to confirm the predicted behavior of such components and systems;

(6) to supplement the siting data, the generic and specific geological characteristics developed under section 10194 of this title relating to isolating disposal materials in the physical environment of a repository;

(7) to evaluate the design concepts for packaging, handling, and emplacement of high-level radioactive waste and spent nuclear fuel at the design rate; and

(8) to establish operating capability without exposing workers to excessive radiation.

(b) Design

The Secretary shall design each test and evaluation facility—

(1) to be capable of receiving not more than 100 full-sized canisters of solidified high-level radioactive waste (which canisters shall not exceed an aggregate weight of 100 metric tons), except that spent nuclear fuel may be used instead of such waste if such waste cannot be obtained under reasonable conditions;

(2) to permit full retrieval of solidified high-level radioactive waste, or other radioactive material used by the Secretary for testing, upon completion of the technology demonstration activities; and

(3) based upon the principle that the high-level radioactive waste, spent nuclear fuel, or other radioactive material involved shall be isolated from the biosphere in such a way that the initial isolation is provided by engineered barriers functioning as a system with the geologic environment.

(c) Operation

(1) Not later than 88 months after January 7, 1983, the Secretary shall begin an in situ testing program at the test and evaluation facility in accordance with the mission plan developed under section 10221 of this title, for purposes of—

(A) conducting in situ tests of bore hole sealing, geologic media fracture sealing, and room closure to establish the techniques and performance for isolation of high-level radioactive waste, spent nuclear fuel, or other radioactive materials from the biosphere;

(B) conducting in situ tests with radioactive sources and materials to evaluate and improve reliable models for radionuclide migration, absorption, and containment within the engineered barriers and geologic media involved, if the Secretary finds there is reasonable assurance that such radioactive sources and materials will not threaten the use of such site as a repository;

(C) conducting in situ tests to evaluate and improve models for ground water or brine flow through fractured geologic media;

(D) conducting in situ tests under conditions representing the real time and the accelerated time behavior of the engineered barriers within the geologic environment involved;

(E) conducting in situ tests to evaluate the effects of heat and pressure on the geologic media involved, on the hydrology of the surrounding area, and on the integrity of the disposal packages;

(F) conducting in situ tests under both normal and abnormal repository conditions to establish safe design limits for disposal packages and to determine the effects of the gross release of radionuclides into surroundings, and the effects of various credible failure modes, including—

(i) seismic events leading to the coupling of aquifers through the test and evaluation facility;

(ii) thermal pulses significantly greater than the maximum calculated; and

(iii) human intrusion creating a direct pathway to the biosphere; and

(G) conducting such other research and development activities as the Secretary considers appropriate, including such activities necessary to obtain the use of high-level radioactive waste, spent nuclear fuel, or other radioactive materials (such as any highly radioactive material from the Three Mile Island nuclear powerplant or from the West Valley Demonstration Project) for test and evaluation purposes, if such other activities are reasonably necessary to support the repository program and if there is reasonable assurance that the radioactive sources involved will not threaten the use of such site as a repository.

(2) The in situ testing authorized in this subsection shall be designed to ensure that the suitability of the site involved for licensing by the Commission as a repository will not be adversely affected.

(d) Use of existing Department facilities

During the conducting of siting research activities under section 10194 of this title and for such period thereafter as the Secretary considers appropriate, the Secretary shall use Department facilities owned by the Federal Government on January 7, 1983, for the conducting of generically applicable tests regarding packaging, handling, and emplacement technology for solidified high-level radioactive waste and spent nuclear fuel from civilian nuclear activities.

(e) Engineered barriers

The system of engineered barriers and selected geology used in a test and evaluation facility shall have a design life at least as long as that which the Commission requires by regulations issued under this chapter, or under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), for repositories.

(f) Role of Commission

(1)(A) Not later than 1 year after January 7, 1983, the Secretary and the Commission shall reach a written understanding establishing the procedures for review, consultation, and coordination in the planning, construction, and operation of the test and evaluation facility under

this section. Such understanding shall establish a schedule, consistent with the deadlines set forth in this subchapter,¹ for submission by the Secretary of, and review by the Commission of and necessary action on—

(i) the mission plan prepared under section 10221 of this title; and

(ii) such reports and other information as the Commission may reasonably require to evaluate any health and safety impacts of the test and evaluation facility.

(B) Such understanding shall also establish the conditions under which the Commission may have access to the test and evaluation facility for the purpose of assessing any public health and safety concerns that it may have. No shafts may be excavated for the test and evaluation until the Secretary and the Commission enter into such understanding.

(2) Subject to section 10225 of this title, the test and evaluation facility, and the facilities authorized in this section, shall be constructed and operated as research, development, and demonstration facilities, and shall not be subject to licensing under section 5842 of this title.

(3)(A) The Commission shall carry out a continuing analysis of the activities undertaken under this section to evaluate the adequacy of the consideration of public health and safety issues.

(B) The Commission shall report to the President, the Secretary, and the Congress as the Commission considers appropriate with respect to the conduct of activities under this section.

(g) Environmental review

The Secretary shall prepare an environmental impact statement under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) prior to conducting tests with radioactive materials at the test and evaluation facility. Such environmental impact statement shall incorporate, to the extent practicable, the environmental assessment prepared under subsection (a) of this section. Nothing in this subsection may be construed to limit siting research activities conducted under section 10194 of this title. This subsection shall apply only to activities performed exclusively for a test and evaluation facility.

(h) Limitations

(1) If the test and evaluation facility is not located at the site of a repository, the Secretary shall obtain the concurrence of the Commission with respect to the decontamination and decommissioning of such facility.

(2) If the test and evaluation facility is not located at a candidate site or repository site, the Secretary shall conduct only the portion of the in situ testing program required in subsection (c) of this section determined by the Secretary to be useful in carrying out the purposes of this chapter.

(3) The operation of the test and evaluation facility shall terminate not later than—

(A) 5 years after the date on which the initial repository begins operation; or

(B) at such time as the Secretary determines that the continued operation of a test and

¹ See References in Text note below.

evaluation facility is not necessary for research, development, and demonstration purposes;

whichever occurs sooner.

(4) Notwithstanding any other provisions of this subsection, as soon as practicable following any determination by the Secretary, with the concurrence of the Commission, that the test and evaluation facility is unsuitable for continued operation, the Secretary shall take such actions as are necessary to remove from such site any radioactive material placed on such site as a result of testing and evaluation activities conducted under this section. Such requirement may be waived if the Secretary, with the concurrence of the Commission, finds that short-term testing and evaluation activities using radioactive material will not endanger the public health and safety.

§ 10198. Research and development on spent nuclear fuel

(a) Demonstration and cooperative programs

The Secretary shall establish a demonstration program, in cooperation with the private sector, for the dry storage of spent nuclear fuel at civilian nuclear power reactor sites, with the objective of establishing one or more technologies that the Commission may, by rule, approve for use at the sites of civilian nuclear power reactors without, to the maximum extent practicable, the need for additional site-specific approvals by the Commission. Not later than 1 year after January 7, 1983, the Secretary shall select at least 1, but not more than 3, sites evaluated under section 10194 of this title at such power reactors. In selecting such site or sites, the Secretary shall give preference to civilian nuclear power reactors that will soon have a shortage of interim storage capacity for spent nuclear fuel. Subject to reaching agreement as provided in subsection (b) of this section, the Secretary shall undertake activities to assist such power reactors with demonstration projects at such sites, which may use one of the following types of alternate storage technologies: spent nuclear fuel storage casks, caissons, or silos. The Secretary shall also undertake a cooperative program with civilian nuclear power reactors to encourage the development of the technology for spent nuclear fuel rod consolidation in existing power reactor water storage basins.

(b) Cooperative agreements

To carry out the programs described in subsection (a) of this section, the Secretary shall

enter into a cooperative agreement with each utility involved that specifies, at a minimum, that—

(1) such utility shall select the alternate storage technique to be used, make the land and spent nuclear fuel available for the dry storage demonstration, submit and provide site-specific documentation for a license application to the Commission, obtain a license relating to the facility involved, construct such facility, operate such facility after licensing, pay the costs required to construct such facility, and pay all costs associated with the operation and maintenance of such facility;

(2) the Secretary shall provide, on a cost-sharing basis, consultative and technical assistance, including design support and generic licensing documentation, to assist such utility in obtaining the construction authorization and appropriate license from the Commission; and

(3) the Secretary shall provide generic research and development of alternative spent nuclear fuel storage techniques to enhance utility-provided, at-reactor storage capabilities, if authorized in any other provision of this chapter or in any other provision of law.

(c) Dry storage research and development

(1) The consultative and technical assistance referred to in subsection (b)(2) of this section may include, but shall not be limited to, the establishment of a research and development program for the dry storage of not more than 300 metric tons of spent nuclear fuel at facilities owned by the Federal Government on January 7, 1983. The purpose of such program shall be to collect necessary data to assist the utilities involved in the licensing process.

(2) To the extent available, and consistent with the provisions of section 10155 of this title, the Secretary shall provide spent nuclear fuel for the research and development program authorized in this subsection from spent nuclear fuel received by the Secretary for storage under section 10155 of this title. Such spent nuclear fuel shall not be subject to the provisions of section 10155(e) of this title.

(d) Funding

The total contribution from the Secretary from Federal funds and the use of Federal facilities or services shall not exceed 25 percent of the total costs of the demonstration program authorized in subsection (a) of this section, as estimated by the Secretary. All remaining costs of such program shall be paid by the utilities involved or shall be provided by the Secretary from the Interim Storage Fund established in section 10156 of this title.

(e) Relation to spent nuclear fuel storage program

The spent nuclear fuel storage program authorized in section 10155 of this title shall not be construed to authorize the use of research development or demonstration facilities owned by the Department unless—

(1) a period of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than 3 calendar days to a day certain)

has passed after the Secretary has transmitted to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a written report containing a full and complete statement concerning (A) the facility involved; (B) any necessary modifications; (C) the cost thereof; and (D) the impact on the authorized research and development program; or

(2) each such committee, before the expiration of such period, has transmitted to the Secretary a written notice to the effect that such committee has no objection to the proposed use of such facility.

(a) Payments

Subject to subsection (b) of this section, the Secretary shall make payments to each State or affected Indian tribe that has entered into an agreement pursuant to section 10195 of this title. The Secretary shall pay an amount equal to 100 percent of the expenses incurred by such State or Indian tribe in engaging in any monitoring, testing, evaluation, or other consultation and cooperation activity under section 10195 of this title with respect to any site. The amount paid by the Secretary under this paragraph shall not exceed \$3,000,000 per year from the date on which the site involved was identified to the date on which the decontamination and decommission of the facility is complete pursuant to section 10197(h) of this title. Any such payment may only be made to a State in which a potential site for a test and evaluation facility has been identified under section 10193 of this title, or to an affected Indian tribe where the potential site has been identified under such section.

(b) Limitation

The Secretary shall make any payment to a State under subsection (a) of this section only if such State agrees to provide, to each unit of general local government within the jurisdictional boundaries of which the potential site or effectively selected site involved is located, at least one-tenth of the payments made by the Secretary to such State under such subsection. A State or affected Indian tribe receiving any payment under subsection (a) of this section shall otherwise have discretion to use such payment for whatever purpose it deems necessary, including the State or tribal activities pursuant to agreements entered into in accordance with section 10195 of this title. Annual payments

shall be prorated on a 365-day basis to the specified dates.

§ 10202. Research on alternatives for permanent disposal of high-level radioactive waste

The Secretary shall continue and accelerate a program of research, development, and investigation of alternative means and technologies for the permanent disposal of high-level radioactive waste from civilian nuclear activities and Federal research and development activities except that funding shall be made from amounts appropriated to the Secretary for purposes of carrying out this section. Such program shall include examination of various waste disposal options.

(2) In preparing any comments on the mission plan, such agencies shall specify with precision any objections that they may have. Upon submission of the mission plan to such agencies, the Secretary shall publish a notice in the Federal Register of the submission of the mission plan and of its availability for public inspection, and, upon receipt of any comments of such agencies respecting the mission plan, the Secretary shall publish a notice in the Federal Register of the receipt of comments and of the availability of the comments for public inspection. If the Secretary does not revise the mission plan to meet objections specified in such comments, the Secretary shall publish in the Federal Register

a detailed statement for not so revising the mission plan.

(3) The Secretary, after reviewing any other comments made by such agencies and revising the mission plan to the extent that the Secretary may consider to be appropriate, shall submit the mission plan to the appropriate committees of the Congress not later than 17 months after January 7, 1983. § 10222. Nuclear Waste Fund

(a) Contracts

(1) In the performance of his functions under this chapter, the Secretary is authorized to enter into contracts with any person who generates or holds title to high-level radioactive waste, or spent nuclear fuel, of domestic origin for the acceptance of title, subsequent transportation, and disposal of such waste or spent fuel. Such contracts shall provide for payment to the Secretary of fees pursuant to paragraphs (2) and (3) sufficient to offset expenditures described in subsection (d) of this section.

(2) For electricity generated by a civilian nuclear power reactor and sold on or after the date 90 days after January 7, 1983, the fee under paragraph (1) shall be equal to 1.0 mil per kilowatt-hour.

(3) For spent nuclear fuel, or solidified high-level radioactive waste derived from spent nuclear fuel, which fuel was used to generate electricity in a civilian nuclear power reactor prior to the application of the fee under paragraph (2) to such reactor, the Secretary shall, not later than 90 days after January 7, 1983, establish a 1 time fee per kilogram of heavy metal in spent nuclear fuel, or in solidified high-level radioactive waste. Such fee shall be in an amount equivalent to an average charge of 1.0 mil per kilowatt-hour for electricity generated by such spent nuclear fuel, or such solidified high-level waste derived therefrom, to be collected from any person delivering such spent nuclear fuel or high-level waste, pursuant to section 10143 of this title, to the Federal Government. Such fee shall be paid to the Treasury of the United States and shall be deposited in the separate fund established by subsection (c) of this section.¹ In paying such a fee, the person delivering spent fuel, or solidified high-level radioactive wastes derived therefrom, to the Federal Government shall have no further financial obligation to the Federal Government for the long-term storage and permanent disposal of such spent fuel, or the solidified high-level radioactive waste derived therefrom.

(4) Not later than 180 days after January 7, 1983, the Secretary shall establish procedures for the collection and payment of the fees established by paragraph (2) and paragraph (3). The

Secretary shall annually review the amount of the fees established by paragraphs (2) and (3) above to evaluate whether collection of the fee will provide sufficient revenues to offset the costs as defined in subsection (d) of this section. In the event the Secretary determines that either insufficient or excess revenues are being collected, in order to recover the costs incurred by the Federal Government that are specified in subsection (d) of this section, the Secretary shall propose an adjustment to the fee to insure full cost recovery. The Secretary shall immediately transmit this proposal for such an adjustment to Congress. The adjusted fee proposed by the Secretary shall be effective after a period of 90 days of continuous session have elapsed following the receipt of such transmittal unless during such 90-day period either House of Congress adopts a resolution disapproving the Secretary's proposed adjustment in accordance with the procedures set forth for congressional review of an energy action under section 6421 of this title.

(5) Contracts entered into under this section shall provide that—

(A) following commencement of operation of a repository, the Secretary shall take title to the high-level radioactive waste or spent nuclear fuel involved as expeditiously as practicable upon the request of the generator or owner of such waste or spent fuel; and

(B) in return for the payment of fees established by this section, the Secretary, beginning not later than January 31, 1998, will dispose of the high-level radioactive waste or spent nuclear fuel involved as provided in this subchapter.¹

(6) The Secretary shall establish in writing criteria setting forth the terms and conditions under which such disposal services shall be made available.

(b) Advance contracting requirement

(1)(A) The Commission shall not issue or renew a license to any person to use a utilization or production facility under the authority of section 2133 or 2134 of this title unless—

(i) such person has entered into a contract with the Secretary under this section; or

(ii) the Secretary affirms in writing that such person is actively and in good faith negotiating with the Secretary for a contract under this section.

(B) The Commission, as it deems necessary or appropriate, may require as a precondition to the issuance or renewal of a license under section 2133 or 2134 of this title that the applicant for such license shall have entered into an agreement with the Secretary for the disposal of high-level radioactive waste and spent nuclear fuel that may result from the use of such license.

(2) Except as provided in paragraph (1), no spent nuclear fuel or high-level radioactive waste generated or owned by any person (other than a department of the United States referred to in section 101 or 102 of title 5) may be disposed of by the Secretary in any repository constructed under this chapter unless the generator or owner of such spent fuel or waste has entered

¹ See References in Text note below.

into a contract with the Secretary under this section by not later than—

(A) June 30, 1983; or

(B) the date on which such generator or owner commences generation of, or takes title to, such spent fuel or waste;

whichever occurs later.

(3) The rights and duties of a party to a contract entered into under this section may be assignable with transfer of title to the spent nuclear fuel or high-level radioactive waste involved.

(4) No high-level radioactive waste or spent nuclear fuel generated or owned by any department of the United States referred to in section 101 or 102 of title 5 may be disposed of by the Secretary in any repository constructed under this chapter unless such department transfers to the Secretary, for deposit in the Nuclear Waste Fund, amounts equivalent to the fees that would be paid to the Secretary under the contracts referred to in this section if such waste or spent fuel were generated by any other person.

(c) Establishment of Nuclear Waste Fund

There hereby is established in the Treasury of the United States a separate fund, to be known as the Nuclear Waste Fund. The Waste Fund shall consist of—

(1) all receipts, proceeds, and recoveries realized by the Secretary under subsections (a), (b), and (e) of this section, which shall be deposited in the Waste Fund immediately upon their realization;

(2) any appropriations made by the Congress to the Waste Fund; and

(3) any unexpended balances available on January 7, 1983, for functions or activities necessary or incident to the disposal of civilian high-level radioactive waste or civilian spent nuclear fuel, which shall automatically be transferred to the Waste Fund on such date.

(d) Use of Waste Fund

The Secretary may make expenditures from the Waste Fund, subject to subsection (e) of this section, only for purposes of radioactive waste disposal activities under subchapters I and II of this chapter, including—

(1) the identification, development, licensing, construction, operation, decommissioning, and post-decommissioning maintenance and monitoring of any repository, monitored,² retrievable storage facility³ or test and evaluation facility constructed under this chapter;

(2) the conducting of nongeneric research, development, and demonstration activities under this chapter;

(3) the administrative cost of the radioactive waste disposal program;

(4) any costs that may be incurred by the Secretary in connection with the transportation, treating, or packaging of spent nuclear fuel or high-level radioactive waste to be disposed of in a repository, to be stored in a monitored,² retrievable storage site³ or to be used in a test and evaluation facility;

(5) the costs associated with acquisition, design, modification, replacement, operation,

and construction of facilities at a repository site, a monitored,² retrievable storage site³ or a test and evaluation facility site and necessary or incident to such repository, monitored,² retrievable storage facility³ or test and evaluation facility; and

(6) the provision of assistance to States, units of general local government, and Indian tribes under sections 10136, 10138, and 10199 of this title.

No amount may be expended by the Secretary under this subchapter⁴ for the construction or expansion of any facility unless such construction or expansion is expressly authorized by this or subsequent legislation. The Secretary hereby is authorized to construct one repository and one test and evaluation facility.

(e) Administration of Waste Fund

(1) The Secretary of the Treasury shall hold the Waste Fund and, after consultation with the Secretary, annually report to the Congress on the financial condition and operations of the Waste Fund during the preceding fiscal year.

(2) The Secretary shall submit the budget of the Waste Fund to the Office of Management and Budget triennially along with the budget of the Department of Energy submitted at such time in accordance with chapter 11 of title 31. The budget of the Waste Fund shall consist of the estimates made by the Secretary of expenditures from the Waste Fund and other relevant financial matters for the succeeding 3 fiscal years, and shall be included in the Budget of the United States Government. The Secretary may make expenditures from the Waste Fund, subject to appropriations which shall remain available until expended. Appropriations shall be subject to triennial authorization.

(3) If the Secretary determines that the Waste Fund contains at any time amounts in excess of current needs, the Secretary may request the Secretary of the Treasury to invest such amounts, or any portion of such amounts as the Secretary determines to be appropriate, in obligations of the United States—

(A) having maturities determined by the Secretary of the Treasury to be appropriate to the needs of the Waste Fund; and

(B) bearing interest at rates determined to be appropriate by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the maturities of such investments, except that the interest rate on such investments shall not exceed the average interest rate applicable to existing borrowings.

(4) Receipts, proceeds, and recoveries realized by the Secretary under this section, and expenditures of amounts from the Waste Fund, shall be exempt from annual apportionment under the provisions of subchapter II of chapter 15 of title 31.

(5) If at any time the moneys available in the Waste Fund are insufficient to enable the Secretary to discharge his responsibilities under

³ So in original. Probably should be followed by a comma.

⁴ See References in Text note below.

this subchapter,⁵ the Secretary shall issue to the Secretary of the Treasury obligations in such forms and denominations, bearing such maturities, and subject to such terms and conditions as may be agreed to by the Secretary and the Secretary of the Treasury. The total of such obligations shall not exceed amounts provided in appropriation Acts. Redemption of such obligations shall be made by the Secretary from moneys available in the Waste Fund. Such obligations shall bear interest at a rate determined by the Secretary of the Treasury, which shall be not less than a rate determined by taking into consideration the average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the obligations under this paragraph. The Secretary of the Treasury shall purchase any issued obligations, and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, and the purposes for which securities may be issued under such Act⁵ are extended to include any purchase of such obligations. The Secretary of the Treasury may at any time sell any of the obligations acquired by him under this paragraph. All redemptions, purchases, and sales by the Secretary of the Treasury of obligations under this paragraph shall be treated as public debt transactions of the United States.

(6) Any appropriations made available to the Waste Fund for any purpose described in subsection (d) of this section shall be repaid into the general fund of the Treasury, together with interest from the date of availability of the appropriations until the date of repayment. Such interest shall be paid on the cumulative amount of appropriations available to the Waste Fund, less the average undisbursed cash balance in the Waste Fund account during the fiscal year involved. The rate of such interest shall be determined by the Secretary of the Treasury taking into consideration the average market yield during the month preceding each fiscal year on outstanding marketable obligations of the United States of comparable maturity. Interest payments may be deferred with the approval of the Secretary of the Treasury, but any interest payments so deferred shall themselves bear interest.

(b) Consultation with affected States, subdivisions of States, and tribes

In addition to entering into negotiations under subsection (a) of this section, the Negotiator shall consult with any State, affected unit of local government, or any Indian tribe that the Negotiator determines may be affected by the siting of a repository or monitored retrievable storage facility and may include in any proposed agreement such terms and conditions relating to the interest of such States, affected units of local government, or Indian tribes as the Negotiator determines to be reasonable and appropriate.

(c) Consultation with other Federal agencies

The Negotiator may solicit and consider the comments of the Secretary, the Nuclear Regulatory Commission, or any other Federal agency on the suitability of any potential site for site characterization. § 10301. Congressional findings and declarations

The Congress finds and declares that—

(1) the existence of an adequate supply of water of good quality for the production of materials and energy for the Nation's needs and for the efficient use of the Nation's energy and water resources is essential to national economic stability and growth, and to the well-being of the people;

(2) the management of water resources is closely related to maintaining environmental quality, productivity of natural resources and agricultural systems, and social well-being;

(3) there is an increasing threat of impairment to the quantity and quality of surface and groundwater resources;

(4) the Nation's capabilities for technological assessment and planning and for policy formulation for water resources must be strengthened at the Federal, State, and local governmental levels;

(5) there should be a continuing national investment in water and related research and technology commensurate with growing national needs;

(6) it is necessary to provide for the research and development of technology for the conversion of saline and other impaired waters to a quality suitable for municipal, industrial, agricultural, recreational, and other beneficial uses;

(7) the Nation must provide programs to strengthen research and associated graduate education because the pool of scientists, engineers, and technicians trained in fields related to water resources constitutes an invaluable natural resource which should be increased, fully utilized, and regularly replenished; and¹

(8) long-term planning and policy development are essential to ensure the availability

of an abundant supply of high quality water for domestic and other uses; and

(9) the States must have the research and problem-solving capacity necessary to effectively manage their water resources.

§ 10303. Water resources research and technology institutes

(a) Establishment; designation of site by State legislature or Governor

Subject to the approval of the Secretary of the Interior (hereafter in this chapter referred to as the “Secretary”) under this section, one water resources research and technology institute, center, or equivalent agency (hereafter in this chapter referred to as the “institute”) may be established in each State (as used in this chapter, the term “State” includes the Commonwealth of Puerto Rico, the District of Columbia, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Mariana Islands and the Federated States of Micronesia) at a college or university which was established in accordance with the Act approved July 2, 1862 (12 Stat. 503) [7 U.S.C. 301 et seq.], or at some other institution designated by act of the legislature of the State concerned. If there is more than one such college or university in a State established in accordance with such Act of July 2, 1862, the institute in such State shall, in the absence of a designation to the contrary by act of the legislature of the State, be established at the one such college or university designated by the Governor of the State. Two or more States may cooperate in the establishment of a single institute or regional institute, in which event the sums otherwise allocated to institutes in each of the co-operating States shall be paid to such single or regional institute.

(b) Scope of research; other activities; cooperation and coordination

Each institute shall—

(1) plan, conduct, or otherwise arrange for competent applied and peer reviewed research that fosters—

(A) improvements in water supply reliability;

(B) the exploration of new ideas that—

- (i) address water problems; or
- (ii) expand understanding of water and water-related phenomena;

(C) the entry of new research scientists, engineers, and technicians into water resources fields; and

(D) the dissemination of research results to water managers and the public.¹

(2) cooperate closely with other colleges and universities in the State that have demonstrated capabilities for research, information dissemination, and graduate training in order to develop a statewide program designed to resolve State and regional water and related land problems.

Each institute shall also cooperate closely with other institutes and other organizations in the region to increase the effectiveness of the institutes and for the purpose of promoting regional coordination.

(c) Grants; matching funds

From the sums appropriated pursuant to subsection (f) of this section, the Secretary shall make grants to each institute to be matched on a basis of no less than 2 non-Federal dollars for every 1 Federal dollar, such sums to be used only for the reimbursement of the direct cost expenditures incurred for the conduct of the water resources research program.

(d) Submission and approval of water research program; requisite assurances

Prior to and as a condition of the receipt each fiscal year of funds appropriated under subsection (f) of this section, each institute shall submit to the Secretary for his approval a water research program that includes assurances, satisfactory to the Secretary, that such program was developed in close consultation and collaboration with the director of that State's department of water resources or similar agency, other leading water resources officials within the State, and interested members of the public. The program described in the preceding sentence shall include plans to promote research, training, information dissemination, and other activities meeting the needs of the State and Nation, and shall encourage regional cooperation among institutes in research into areas of water management, development, and conservation that have a regional or national character.

(e) Evaluation of water resources research program

The Secretary shall conduct a careful and detailed evaluation of each institute at least once every 3 years to determine that the quality and relevance of its water resources research and its effectiveness at producing measured results and applied water supply research as an institution for planning, conducting, and arranging for research warrants its continued support under this

section. If, as a result of any such evaluation, the Secretary determines that an institute does not qualify for further support under this section, then no further grants to the institute may be made until the institute's qualifications are reestablished to the satisfaction of the Secretary.

(f) Authorization of appropriations in general

(1) There is authorized to be appropriated to carry out this section, to remain available until expended, \$12,000,000 for each of fiscal years 2007 through 2011.

(2) Any sums appropriated under this subsection but which fail to be obligated by the close of the fiscal year for which they were appropriated shall be transferred by the Secretary and available for obligation during the succeeding fiscal year under the terms of subsection (g) of this section.

(g) Additional appropriations where research focused on water problems of interstate nature

(1) There is further authorized to be appropriated to the Secretary of the Interior the sum of \$6,000,000 for each of fiscal years 2007 through 2011 only for reimbursement of the direct cost expenses of additional research or synthesis of the results of research by institutes which focuses on water problems and issues of a regional or interstate nature beyond those of concern only to a single State and which relate to specific program priorities identified jointly by the Secretary and the institutes. Such funds when appropriated shall be matched on a not less than dollar-for-dollar basis by funds made available to institutes or groups of institutes, by States or other non-Federal sources. Funds made available under this subsection shall remain available until expended.

(2) Research funds made available under this subsection shall be made on a competitive basis subject to the merit of the proposal, the need for the information to be produced, and the opportunity such funds will provide for training of water resources scientists or professionals.

§ 10341. Findings

The Congress finds that—

(1) there is an increasing threat of impairment to the quantity and quality of the Nation's water resources due to, among other things, growing national needs, recurring drought in the Western States, point and nonpoint source pollution, and saltwater intrusion into existing groundwater supplies;

(2) many communities in the United States have water supplies containing high salinity levels or contaminants which pose health risks;

(3) the Nation needs to develop economical processes to treat existing water supplies that are contaminated;

(4) it is necessary to provide for research into new techniques to reclaim waste water and to convert saline and other contaminated waters to a quality suitable for municipal, industrial, agricultural, recreational, and other beneficial uses;

(5) there is very little Federal funding being applied to basic research in the field of treatment of contaminated water through membrane processes; and

(6) the treatment of contaminated water through membrane processes will solve a wide variety of water treatment problems, including compliance with the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.] and the

STUDY OF TRAINING NEEDS OF HEALTH PROFESSIONALS

Pub. L. 105-392, title IV, § 407(b), Nov. 13, 1998, 112 Stat. 3589, provided that: "The Secretary of Health and Human Services shall request that the Institute of Medicine conduct a study concerning the training needs of health professionals with respect to the detection and referral of victims of family or acquaintance violence. Not later than 2 years after the date of enactment of this Act [Nov. 13, 1998], the Institute of Medicine shall prepare and submit to Congress a report concerning the study conducted under this subsection."

§ 10402. State grants authorized**(a) Authority of Secretary; application; requirements; approval**

(1) In order to assist in supporting the establishment, maintenance, and expansion of pro-

grams and projects to prevent incidents of family violence and to provide immediate shelter and related assistance for victims of family violence and their dependents, the Secretary is authorized, in accordance with the provisions of this chapter, to make grants to States.

(2) No grant may be made under this subsection unless the chief executive officer of the State seeking such grant submits an application to the Secretary at such time and in such manner as the Secretary may reasonably require. Each such application shall—

(A) provide that funds provided under this subsection will be distributed in grants to local public agencies and nonprofit private organizations (including religious and charitable organizations, and voluntary associations) for programs and projects within such State to prevent incidents of family violence and to provide immediate shelter and related assistance for victims of family violence and their dependents in order to prevent future violent incidents;

(B) provide, with respect to funds provided to a State under this subsection for any fiscal year, that—

(i) not more than 5 percent of such funds will be used for State administrative costs; and

(ii) in the distribution of funds by the State under this subsection, the State will give special emphasis to the support of community-based projects of demonstrated effectiveness carried out by nonprofit private organizations, the primary purpose of which is to operate shelters for victims of family violence and their dependents, and those which provide counseling, advocacy, and self-help services to victims and their children.¹

(C) set forth procedures designed to involve State domestic violence coalitions, knowledgeable individuals, and interested organizations and assure an equitable distribution of grants and grant funds within the State and between urban and rural areas within such State and a plan to address the needs of underserved populations, as defined in section 3796gg-2 of this title;²

(D) specify the State agency to be designated as responsible for the administration of programs and activities relating to family violence which are carried out by the State under this chapter and for coordination of related programs within the State;

(E) provide documentation that procedures have been developed, and implemented including copies of the policies and procedure, to assure the confidentiality of records pertaining to any individual provided family violence prevention or treatment services by any program assisted under this chapter and provide assurances that the address or location of any shelter-facility assisted under this chapter will, except with written authorization of the person or persons responsible for the operation of such shelter, not be made public;

(F) provide documentation to the Secretary that the State has a law or procedure that has

been implemented for the eviction of an abusing spouse from a share household; and

(G) meet such requirements as the Secretary reasonably determines are necessary to carry out the purposes and provisions of this chapter.

(3) The Secretary shall approve any application that meets the requirements of this subsection, and the Secretary shall not disapprove any such application except after reasonable notice of the Secretary's intention to disapprove and after a 6-month period providing an opportunity for correction of any deficiencies. The Secretary shall provide such notice within 45 days of the date of the application if any of the provisions of paragraph (2) have not been satisfied in such application. If the State has not corrected the deficiencies in such application within the 6-month period following the receipt of the Secretary's notice of intention to disapprove, the Secretary shall withhold payment of any grant funds to such State until the date that is 30 days prior to the end of the fiscal year for which such grant funds are appropriated or until such time as the State provides documentation that the deficiencies have been corrected, whichever occurs first. State Domestic Violence Coalitions shall be permitted to participate in determining whether a grantee is in compliance with paragraph (2), except that no funds made available to State Domestic Violence Coalitions under section 10410 of this title shall be used to challenge a determination as to whether a grantee is in compliance with, or to seek the enforcement of, the eligibility requirements of such paragraph.

(4) Upon completion of the activities funded by a grant under this subpart,³ the State grantee shall file a performance report with the Director explaining the activities carried out together with an assessment of the effectiveness of those activities in achieving the purposes of this subpart.² A section of this performance report shall be completed by each grantee or subgrantee that performed the direct services contemplated in the application certifying performance of direct services under the grant. The Director shall suspend funding for an approved application if an applicant fails to submit an annual performance report or if the funds are expended for purposes other than those set forth under this subpart,² after following the procedures set forth in paragraph (3). Federal funds may be used only to supplement, not supplant, State funds.

(5) Upon completion of the activities funded by a grant under this chapter, the State shall submit to the Secretary a report that contains a description of the activities carried out under paragraph (2)(B)(i).

FEDERAL EMPLOYEE DOMESTIC VIOLENCE AWARENESS CAMPAIGN

Memorandum of President of the United States, Oct. 2, 1995, 60 F.R. 52821, provided:

Memorandum for Heads of Executive Departments and Agencies

Domestic violence is not a private, family dispute that affects only the people involved. Domestic vio-

lence is violent criminal activity that affects us all, regardless of race, income, or age, in every community in this country. It means higher health care costs, increased absenteeism, and declining productivity. It destroys families, relationships, and lives. More importantly, it tears at the moral fabric of who we are and undermines the very institution that has been the cornerstone of our country: the family.

In passing the Violence Against Women Act [probably means the Violence Against Women Act of 1994, title IV of Pub. L. 103-322, see Tables for classification] as part of the Violent Crime Control Act ("VCCA") [probably means the Violent Crime Control and Law Enforcement Act of 1994, Pub. L. 103-322, see Tables for classification] last year, the Congress recognized the seriousness of the problem of domestic violence. This new law combines tough new penalties with programs to prosecute offenders and help women victims. In the last year, every State has received a down payment of \$426,000 in grants to help train prosecutors, police, and service providers in combatting the problem of domestic violence. Moreover, because of the VCCA, every State will now ensure that women who have been assaulted will not have to pay for their medical examinations resulting from rape and other acts of violence.

Throughout October, National Domestic Violence Awareness Month, business, labor, law enforcement, public health, and civic organizations will be working to increase our understanding of this problem and create solutions that can save lives. I believe the Federal Government has a responsibility to be a leader in this effort.

Today, I am directing that executive departments and agencies institute employee awareness campaigns on domestic violence. Within the next 6 months, you should implement a program to promote Federal employee awareness of the problem of domestic violence and the programs and resources that are available for victims. I support and encourage the initial plans made by the Justice Department, which include the production of a resource manual and a poster, and the scheduling of a Violence Against Women Information Fair on October 30, 1995. This fair will include speakers, artwork, and exhibits.

We have a responsibility to assist all victims of domestic violence and their families trapped in a cycle of violence with no sense of where to turn. Often, victims will not report their circumstances to the public, but they may turn to coworkers for help. Thus, by providing information to all Federal workers on the programs available, we can make a contribution to the effort to protect women from abuse and reduce the level of violence in America.

The Director of the Office Management and Budget is authorized and directed to publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

(4) such program, as to compensable crimes occurring within the State, makes compensation awards to victims who are nonresidents of the State on the basis of the same criteria used to make awards to victims who are residents of such State;

(5) such program provides compensation to victims of Federal crimes occurring within the State on the same basis that such program provides compensation to victims of State crimes;

(6) such program provides compensation to residents of the State who are victims of crimes occurring outside the State if—

(A) the crimes would be compensable crimes had they occurred inside that State; and

(B) the places the crimes occurred in are States not having eligible crime victim compensation programs;

(c) Exclusion from income, resources, and assets for purposes of means tests

Notwithstanding any other law (other than title IV of Public Law 107-42), for the purpose of any maximum allowed income, resource, or asset eligibility requirement in any Federal, State, or local government program using Federal funds that provides medical or other assistance (or payment or reimbursement of the cost of such assistance), any amount of crime victim compensation that the applicant receives

through a crime victim compensation program under this section shall not be included in the income, resources, or assets of the applicant, nor shall that amount reduce the amount of the assistance available to the applicant from Federal, State, or local government programs using Federal funds, unless the total amount of assistance that the applicant receives from all such programs is sufficient to fully compensate the applicant for losses suffered as a result of the crime.

(1) such crime victim compensation program shall not pay that compensation; and

SUBCHAPTER I—PROTECTION AND ADVOCACY SYSTEMS

PART A—ESTABLISHMENT OF SYSTEMS

§ 10801. Congressional findings and statement of purpose

(a) The Congress finds that—

(1) individuals with mental illness are vulnerable to abuse and serious injury;

(2) family members of individuals with mental illness play a crucial role in being advocates for the rights of individuals with mental illness where the individuals are minors, the individuals are legally competent and choose to involve the family members, and the individuals are legally incompetent and the legal guardians, conservators, or other legal representatives are members of the family;

(3) individuals with mental illness are subject to neglect, including lack of treatment, adequate nutrition, clothing, health care, and adequate discharge planning; and

(4) State systems for monitoring compliance with respect to the rights of individuals with mental illness vary widely and are frequently inadequate.

(b) The purposes of this chapter are—

(1) to ensure that the rights of individuals with mental illness are protected; and

(2) to assist States to establish and operate a protection and advocacy system for individuals with mental illness which will—

(A) protect and advocate the rights of such individuals through activities to ensure the enforcement of the Constitution and Federal and State statutes; and

(B) investigate incidents of abuse and neglect of individuals with mental illness if the incidents are reported to the system or if there is probable cause to believe that the incidents occurred.

(ii) for any other State, is \$260,000.

(C) The factor specified in this subparagraph is the ratio of the amount appropriated under section 10827 of this title for the fiscal year for which the allotment is being made to the amount appropriated under such section for fiscal year 1995.

(D) If the total amount appropriated for a fiscal year is at least \$25,000,000, the Secretary shall make an allotment in accordance with subparagraph (A) to the eligible system serving the American Indian consortium.

(b)(1) To the extent that all the amounts appropriated under section 10827 of this title for a fiscal year are not allotted to eligible systems because—

(A) one or more eligible systems have not submitted an application for an allotment for such fiscal year; or

(B) one or more eligible systems have notified the Secretary that they do not intend to use the full amount of their allotment,

the amount which is not so allotted shall be reallocated among the remaining eligible systems.

(3) The Secretary shall make reallocations under paragraphs (1) and (2) on such date or dates as the Secretary may fix (but not earlier than 30 days after the Secretary has published notice of the intention of the Secretary to make such reallocation in the Federal Register). A reallocation to an eligible system shall be made in proportion to the original allotment of such system for such fiscal year, but with such proportionate amount for such system being reduced to the extent it exceeds the sum the Secretary estimates such system needs and will be able to use during such period. The total of such reductions shall be similarly reallocated among eligible systems whose proportionate amounts were not so reduced. Any amount so reallocated to an eligible system for a fiscal year shall be deemed to be a part of its allotment under subsection (a) of this section for such fiscal year.

SUBCHAPTER II—RESTATEMENT OF BILL OF RIGHTS FOR MENTAL HEALTH PATIENTS

§ 10841. Restatement of bill of rights

It is the sense of the Congress that, as previously stated in title V of the Mental Health Systems Act [42 U.S.C. 9501 et seq.], each State should review and revise, if necessary, its laws to ensure that mental health patients receive the protection and services they require, and that in making such review and revision, States should take into account the recommendations of the President's Commission on Mental Health and the following:

(1) A person admitted to a program or facility for the purpose of receiving mental health services should be accorded the following:

(A) The right to appropriate treatment and related services in a setting and under conditions that—

(i) are the most supportive of such person's personal liberty; and

(ii) restrict such liberty only to the extent necessary consistent with such person's treatment needs, applicable requirements of law, and applicable judicial orders.

(B) The right to an individualized, written, treatment or service plan (such plan to be developed promptly after admission of such person), the right to treatment based on such plan, the right to periodic review and reassessment of treatment and related service needs, and the right to appropriate revision of such plan, including any revision necessary to provide a description of mental health services that may be needed after such person is discharged from such program or facility.

(C) The right to ongoing participation, in a manner appropriate to such person's capabilities, in the planning of mental health services to be provided such person (including the right to participate in the development and periodic revision of the plan described in subparagraph (B)), and, in connection with such participation, the right to be provided with a reasonable explanation, in terms and language appropriate to such person's condition and ability to understand, of—

(i) such person's general mental condition and, if such program or facility has provided a physical examination, such person's general physical condition;

(ii) the objectives of treatment;

(iii) the nature and significant possible adverse effects of recommended treatments;

(iv) the reasons why a particular treatment is considered appropriate;

(v) the reasons why access to certain visitors may not be appropriate; and

(vi) any appropriate and available alternative treatments, services, and types of providers of mental health services.

(D) The right not to receive a mode or course of treatment, established pursuant to the treatment plan, in the absence of such person's informed, voluntary, written consent to such mode or course of treatment, except treatment—

(i) during an emergency situation if such treatment is pursuant to or documented contemporaneously by the written order of a responsible mental health professional; or

(ii) as permitted under applicable law in the case of a person committed by a court to a treatment program or facility.

(E) The right not to participate in experimentation in the absence of such person's informed, voluntary, written consent, the right to appropriate protections in connection with such participation, including the

right to a reasonable explanation of the procedure to be followed, the benefits to be expected, the relative advantages of alternative treatments, and the potential discomforts and risks, and the right and opportunity to revoke such consent.

(F) The right to freedom from restraint or seclusion, other than as a mode or course of treatment or restraint or seclusion during an emergency situation if such restraint or seclusion is pursuant to or documented contemporaneously by the written order of a responsible mental health professional.

(G) The right to a humane treatment environment that affords reasonable protection from harm and appropriate privacy to such person with regard to personal needs.

(H) The right to confidentiality of such person's records.

(I) The right to access, upon request, to such person's mental health care records, except such person may be refused access to—

(i) information in such records provided by a third party under assurance that such information shall remain confidential; and

(ii) specific material in such records if the health professional responsible for the mental health services concerned has made a determination in writing that such access would be detrimental to such person's health, except that such material may be made available to a similarly licensed health professional selected by such person and such health professional may, in the exercise of professional judgment, provide such person with access to any or all parts of such material or otherwise disclose the information contained in such material to such person.

(J) The right, in the case of a person admitted on a residential or inpatient care basis, to converse with others privately, to have convenient and reasonable access to the telephone and mails, and to see visitors during regularly scheduled hours, except that, if a mental health professional treating such person determines that denial of access to a particular visitor is necessary for treatment purposes, such mental health professional may, for a specific, limited, and reasonable period of time, deny such access if such mental health professional has ordered such denial in writing and such order has been incorporated in the treatment plan for such person. An order denying such access should include the reasons for such denial.

(K) The right to be informed promptly at the time of admission and periodically thereafter, in language and terms appropriate to such person's condition and ability to understand, of the rights described in this section.

(L) The right to assert grievances with respect to infringement of the rights described in this section, including the right to have such grievances considered in a fair, timely, and impartial grievance procedure provided for or by the program or facility.

(M) Notwithstanding subparagraph (J), the right of access to (including the opportuni-

ties and facilities for private communication with) any available—

- (i) rights protection service within the program or facility;
- (ii) rights protection service within the State mental health system designed to be available to such person;
- (iii) system established under subchapter I of this chapter to protect and advocate the rights of individuals with mental illness; and
- (iv) qualified advocate;

for the purpose of receiving assistance to understand, exercise, and protect the rights described in this section and in other provisions of law.

(N) The right to exercise the rights described in this section without reprisal, including reprisal in the form of denial of any appropriate, available treatment.

(O) The right to referral as appropriate to other providers of mental health services upon discharge.

(2)(A) The rights described in this section should be in addition to and not in derogation of any other statutory or constitutional rights.

(B) The rights to confidentiality of and access to records as provided in subparagraphs (H) and (I) of paragraph (1) should remain applicable to records pertaining to a person after such person's discharge from a program or facility.

(3)(A) No otherwise eligible person should be denied admission to a program or facility for mental health services as a reprisal for the exercise of the rights described in this section.

(B) Nothing in this section should—

- (i) obligate an individual mental health or health professional to administer treatment contrary to such professional's clinical judgment;
- (ii) prevent any program or facility from discharging any person for whom the provision of appropriate treatment, consistent with the clinical judgment of the mental health professional primarily responsible for such person's treatment, is or has become impossible as a result of such person's refusal to consent to such treatment;
- (iii) require a program or facility to admit any person who, while admitted on prior occasions to such program or facility, has repeatedly frustrated the purposes of such admissions by withholding consent to proposed treatment; or
- (iv) obligate a program or facility to provide treatment services to any person who is admitted to such program or facility solely for diagnostic or evaluative purposes.

(C) In order to assist a person admitted to a program or facility in the exercise or protection of such person's rights, such person's attorney or legal representatives should have reasonable access to—

- (i) such person;
- (ii) the areas of the program or facility where such person has received treatment, resided, or had access; and
- (iii) pursuant to the written authorization of such person, the records and information

pertaining to such person's diagnosis, treatment, and related services described in paragraph (1)(I).

(D) Each program and facility should post a notice listing and describing, in language and terms appropriate to the ability of the persons to whom such notice is addressed to understand, the rights described in this section of all persons admitted to such program or facility. Each such notice should conform to the format and content for such notices, and should be posted in all appropriate locations.

(4)(A) In the case of a person adjudicated by a court of competent jurisdiction as being incompetent to exercise the right to consent to treatment or experimentation described in subparagraph (D) or (E) of paragraph (1), or the right to confidentiality of or access to records described in subparagraph (H) or (I) of such paragraph, or to provide authorization as described in paragraph (3)(C)(iii), such right may be exercised or such authorization may be provided by the individual appointed by such court as such person's guardian or representative for the purpose of exercising such right or such authorization.

(B) In the case of a person who lacks capacity to exercise the right to consent to treatment or experimentation under subparagraph (D) or (E) of paragraph (1), or the right to confidentiality of or access to records described in subparagraph (H) or (I) of such paragraph, or to provide authorization as described in paragraph (3)(C)(iii), because such person has not attained an age considered sufficiently advanced under State law to permit the exercise of such right or such authorization to be legally binding, such right may be exercised or such authorization may be provided on behalf of such person by a parent or legal guardian of such person.

(C) Notwithstanding subparagraphs (A) and (B), in the case of a person admitted to a program or facility for the purpose of receiving mental health services, no individual employed by or receiving any remuneration from such program or facility should act as such person's guardian or representative.

SUBCHAPTER I—EMERGENCY PLANNING AND NOTIFICATION

§ 11001. Establishment of State commissions, planning districts, and local committees

(a) Establishment of State emergency response commissions

Not later than six months after October 17, 1986, the Governor of each State shall appoint a State emergency response commission. The Governor may designate as the State emergency response commission one or more existing emergency response organizations that are State-sponsored or appointed. The Governor shall, to the extent practicable, appoint persons to the State emergency response commission who have technical expertise in the emergency response field. The State emergency response commission shall appoint local emergency planning committees under subsection (c) of this section and shall supervise and coordinate the activities of such committees. The State emergency response commission shall establish procedures for receiving and processing requests from the public for information under section 11044 of this title, including tier II information under section 11022 of this title. Such procedures shall include the designation of an official to serve as coordinator for information. If the Governor of any State does not designate a State emergency response commission within such period, the Governor shall operate as the State emergency response commission until the Governor makes such designation.

(b) Establishment of emergency planning districts

Not later than nine months after October 17, 1986, the State emergency response commission

shall designate emergency planning districts in order to facilitate preparation and implementation of emergency plans. Where appropriate, the State emergency response commission may designate existing political subdivisions or multi-jurisdictional planning organizations as such districts. In emergency planning areas that involve more than one State, the State emergency response commissions of all potentially affected States may designate emergency planning districts and local emergency planning committees by agreement. In making such designation, the State emergency response commission shall indicate which facilities subject to the requirements of this subchapter are within such emergency planning district.

(c) Establishment of local emergency planning committees

Not later than 30 days after designation of emergency planning districts or 10 months after October 17, 1986, whichever is earlier, the State emergency response commission shall appoint members of a local emergency planning committee for each emergency planning district. Each committee shall include, at a minimum, representatives from each of the following groups or organizations: elected State and local officials; law enforcement, civil defense, firefighting, first aid, health, local environmental, hospital, and transportation personnel; broadcast and print media; community groups; and owners and operators of facilities subject to the requirements of this subchapter. Such committee shall appoint a chairperson and shall establish rules by which the committee shall function. Such rules shall include provisions for public notification of committee activities, public meetings to discuss the emergency plan, public comments, response to such comments by the committee, and distribution of the emergency plan. The local emergency planning committee shall establish procedures for receiving and processing requests from the public for information under section 11044 of this title, including tier II information under section 11022 of this title. Such procedures shall include the designation of an official to serve as coordinator for information.

(d) Revisions

A State emergency response commission may revise its designations and appointments under subsections (b) and (c) of this section as it deems appropriate. Interested persons may petition the State emergency response commission to modify the membership of a local emergency planning committee.

SHORT TITLE

Section 300(a) of title III of Pub. L. 99-499 provided that: "This title [enacting this chapter] may be cited as the 'Emergency Planning and Community Right-To-Know Act of 1986'."

EXECUTIVE ORDER NO. 12856

Ex. Ord. No. 12856, Aug. 3, 1993, 58 F.R. 41981, which provided for Federal compliance with right-to-know

laws and pollution prevention requirements, was revoked by Ex. Ord. No. 13148, §901, Apr. 21, 2000, 65 F.R. 24604, set out as a note under section 4321 of this title.

§ 11002. Substances and facilities covered and notification

(a) Substances covered

(1) In general

A substance is subject to the requirements of this subchapter if the substance is on the list published under paragraph (2).

(2) List of extremely hazardous substances

Within 30 days after October 17, 1986, the Administrator shall publish a list of extremely hazardous substances. The list shall be the same as the list of substances published in November 1985 by the Administrator in Appendix A of the "Chemical Emergency Preparedness Program Interim Guidance".

(3) Thresholds

(A) At the time the list referred to in paragraph (2) is published the Administrator shall—

(i) publish an interim final regulation establishing a threshold planning quantity for each substance on the list, taking into account the criteria described in paragraph (4), and

(ii) initiate a rulemaking in order to publish final regulations establishing a threshold planning quantity for each substance on the list.

(B) The threshold planning quantities may, at the Administrator's discretion, be based on classes of chemicals or categories of facilities.

(C) If the Administrator fails to publish an interim final regulation establishing a threshold planning quantity for a substance within 30 days after October 17, 1986, the threshold planning quantity for the substance shall be 2 pounds until such time as the Administrator publishes regulations establishing a threshold for the substance.

(4) Revisions

The Administrator may revise the list and thresholds under paragraphs (2) and (3) from time to time. Any revisions to the list shall take into account the toxicity, reactivity, volatility, dispersability, combustability, or flammability of a substance. For purposes of the preceding sentence, the term "toxicity" shall include any short- or long-term health effect which may result from a short-term exposure to the substance.

(b) Facilities covered

(1) Except as provided in section 11004 of this title, a facility is subject to the requirements of this subchapter if a substance on the list referred to in subsection (a) of this section is present at the facility in an amount in excess of the threshold planning quantity established for such substance.

(2) For purposes of emergency planning, a Governor or a State emergency response commission may designate additional facilities which shall be subject to the requirements of this subchapter, if such designation is made after public

notice and opportunity for comment. The Governor or State emergency response commission shall notify the facility concerned of any facility designation under this paragraph.

(c) Emergency planning notification

Not later than seven months after October 17, 1986, the owner or operator of each facility subject to the requirements of this subchapter by reason of subsection (b)(1) of this section shall notify the State emergency response commission for the State in which such facility is located that such facility is subject to the requirements of this subchapter. Thereafter, if a substance on the list of extremely hazardous substances referred to in subsection (a) of this section first becomes present at such facility in excess of the threshold planning quantity established for such substance, or if there is a revision of such list and the facility has present a substance on the revised list in excess of the threshold planning quantity established for such substance, the owner or operator of the facility shall notify the State emergency response commission and the local emergency planning committee within 60 days after such acquisition or revision that such facility is subject to the requirements of this subchapter.

(d) Notification of Administrator

The State emergency response commission shall notify the Administrator of facilities subject to the requirements of this subchapter by notifying the Administrator of—

- (1) each notification received from a facility under subsection (c) of this section, and
- (2) each facility designated by the Governor or State emergency response commission under subsection (b)(2) of this section.

(Pub. L. 99-499, title III, §302, Oct. 17, 1986, 100 Stat. 1730.)

§ 11003. Comprehensive emergency response plans

(a) Plan required

Each local emergency planning committee shall complete preparation of an emergency plan in accordance with this section not later than two years after October 17, 1986. The committee shall review such plan once a year, or more frequently as changed circumstances in the community or at any facility may require.

(b) Resources

Each local emergency planning committee shall evaluate the need for resources necessary to develop, implement, and exercise the emergency plan, and shall make recommendations with respect to additional resources that may be required and the means for providing such additional resources.

(c) Plan provisions

Each emergency plan shall include (but is not limited to) each of the following:

- (1) Identification of facilities subject to the requirements of this subchapter that are within the emergency planning district, identification of routes likely to be used for the transportation of substances on the list of extremely hazardous substances referred to in

section 11002(a) of this title, and identification of additional facilities contributing or subjected to additional risk due to their proximity to facilities subject to the requirements of this subchapter, such as hospitals or natural gas facilities.

(2) Methods and procedures to be followed by facility owners and operators and local emergency and medical personnel to respond to any release of such substances.

(3) Designation of a community emergency coordinator and facility emergency coordinators, who shall make determinations necessary to implement the plan.

(4) Procedures providing reliable, effective, and timely notification by the facility emergency coordinators and the community emergency coordinator to persons designated in the emergency plan, and to the public, that a release has occurred (consistent with the emergency notification requirements of section 11004 of this title).

(5) Methods for determining the occurrence of a release, and the area or population likely to be affected by such release.

(6) A description of emergency equipment and facilities in the community and at each facility in the community subject to the requirements of this subchapter, and an identification of the persons responsible for such equipment and facilities.

(7) Evacuation plans, including provisions for a precautionary evacuation and alternative traffic routes.

(8) Training programs, including schedules for training of local emergency response and medical personnel.

(9) Methods and schedules for exercising the emergency plan.

(d) Providing of information

For each facility subject to the requirements of this subchapter:

(1) Within 30 days after establishment of a local emergency planning committee for the emergency planning district in which such facility is located, or within 11 months after October 17, 1986, whichever is earlier, the owner or operator of the facility shall notify the emergency planning committee (or the Governor if there is no committee) of a facility representative who will participate in the emergency planning process as a facility emergency coordinator.

(2) The owner or operator of the facility shall promptly inform the emergency planning committee of any relevant changes occurring at such facility as such changes occur or are expected to occur.

(3) Upon request from the emergency planning committee, the owner or operator of the facility shall promptly provide information to such committee necessary for developing and implementing the emergency plan.

(e) Review by State emergency response commission

After completion of an emergency plan under subsection (a) of this section for an emergency planning district, the local emergency planning committee shall submit a copy of the plan to the State emergency response commission of

each State in which such district is located. The commission shall review the plan and make recommendations to the committee on revisions of the plan that may be necessary to ensure coordination of such plan with emergency response plans of other emergency planning districts. To the maximum extent practicable, such review shall not delay implementation of such plan.

(f) Guidance documents

The national response team, as established pursuant to the National Contingency Plan as established under section 9605 of this title, shall publish guidance documents for preparation and implementation of emergency plans. Such documents shall be published not later than five months after October 17, 1986.

(g) Review of plans by regional response teams

The regional response teams, as established pursuant to the National Contingency Plan as established under section 9605 of this title, may review and comment upon an emergency plan or other issues related to preparation, implementation, or exercise of such a plan upon request of a local emergency planning committee. Such review shall not delay implementation of the plan.

§ 11004. Emergency notification

(a) Types of releases

(1) 11002(a) substance which requires CERCLA notice

If a release of an extremely hazardous substance referred to in section 11002(a) of this title occurs from a facility at which a hazardous chemical is produced, used, or stored, and such release requires a notification under section 103(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 [42 U.S.C. 9603(a)] (hereafter in this section referred to as "CERCLA") (42 U.S.C. 9601 et seq.), the owner or operator of the facility shall immediately provide notice as described in subsection (b) of this section.

(2) Other 11002(a) substance

If a release of an extremely hazardous substance referred to in section 11002(a) of this title occurs from a facility at which a hazardous chemical is produced, used, or stored, and such release is not subject to the notification requirements under section 103(a) of CERCLA [42 U.S.C. 9603(a)], the owner or operator of the facility shall immediately provide notice as described in subsection (b) of this section, but only if the release—

(A) is not a federally permitted release as defined in section 101(10) of CERCLA [42 U.S.C. 9601(10)],

(B) is in an amount in excess of a quantity which the Administrator has determined (by regulation) requires notice, and

(C) occurs in a manner which would require notification under section 103(a) of CERCLA [42 U.S.C. 9603(a)].

Unless and until superseded by regulations establishing a quantity for an extremely hazardous substance described in this paragraph, a

quantity of 1 pound shall be deemed that quantity the release of which requires notice as described in subsection (b) of this section.

(3) Non-11002(a) substance which requires CERCLA notice

If a release of a substance which is not on the list referred to in section 11002(a) of this title occurs at a facility at which a hazardous chemical is produced, used, or stored, and such release requires notification under section 103(a) of CERCLA [42 U.S.C. 9603(a)], the owner or operator shall provide notice as follows:

(A) If the substance is one for which a reportable quantity has been established under section 102(a) of CERCLA [42 U.S.C. 9602(a)], the owner or operator shall provide notice as described in subsection (b) of this section.

(B) If the substance is one for which a reportable quantity has not been established under section 102(a) of CERCLA [42 U.S.C. 9602(a)]—

(i) Until April 30, 1988, the owner or operator shall provide, for releases of one pound or more of the substance, the same notice to the community emergency coordinator for the local emergency planning committee, at the same time and in the same form, as notice is provided to the National Response Center under section 103(a) of CERCLA [42 U.S.C. 9603(a)].

(ii) On and after April 30, 1988, the owner or operator shall provide, for releases of one pound or more of the substance, the notice as described in subsection (b) of this section.

(4) Exempted releases

This section does not apply to any release which results in exposure to persons solely within the site or sites on which a facility is located.

(b) Notification

(1) Recipients of notice

Notice required under subsection (a) of this section shall be given immediately after the release by the owner or operator of a facility (by such means as telephone, radio, or in person) to the community emergency coordinator for the local emergency planning committees, if established pursuant to section 11001(c) of this title, for any area likely to be affected by the release and to the State emergency planning commission of any State likely to be affected by the release. With respect to transportation of a substance subject to the requirements of this section, or storage incident to such transportation, the notice requirements of this section with respect to a release shall be satisfied by dialing 911 or, in the absence of a 911 emergency telephone number, calling the operator.

(2) Contents

Notice required under subsection (a) of this section shall include each of the following (to the extent known at the time of the notice and so long as no delay in responding to the emergency results):

(A) The chemical name or identity of any substance involved in the release.

(B) An indication of whether the substance is on the list referred to in section 11002(a) of this title.

(C) An estimate of the quantity of any such substance that was released into the environment.

(D) The time and duration of the release.

(E) The medium or media into which the release occurred.

(H) The name and telephone number of the person or persons to be contacted for further information.

(c) Followup emergency notice

As soon as practicable after a release which requires notice under subsection (a) of this section, such owner or operator shall provide a written followup emergency notice (or notices, as more information becomes available) setting forth and updating the information required under subsection (b) of this section, and including additional information with respect to—

(1) actions taken to respond to and contain the release,

(2) any known or anticipated acute or chronic health risks associated with the release, and

(3) where appropriate, advice regarding medical attention necessary for exposed individuals.

(B) The status of public emergency alert devices or systems for providing timely and effective public warning of an accidental release of extremely hazardous substances into the environment, including releases into the atmosphere, surface water, or groundwater from facilities that produce, store, or use significant quantities of such extremely hazardous substances.

(C) The technical and economic feasibility of establishing, maintaining, and operating

perimeter alert systems for detecting releases of such extremely hazardous substances into the atmosphere, surface water, or groundwater, at facilities that manufacture, use, or store significant quantities of such substances.

(3) Recommendations

The report required by this subsection shall also include the Administrator's recommendations for—

(A) initiatives to support the development of new or improved technologies or systems that would facilitate the timely monitoring, detection, and prevention of releases of extremely hazardous substances, and

(B) improving devices or systems for effectively alerting the public in a timely manner, in the event of an accidental release of such extremely hazardous substances.

SUBCHAPTER II—REPORTING REQUIREMENTS

§ 11021. Material safety data sheets

(a) Basic requirement

(1) Submission of MSDS or list

The owner or operator of any facility which is required to prepare or have available a material safety data sheet for a hazardous chemical under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.] and regulations promulgated under that Act shall submit a material safety data sheet for each such chemical, or a list of such chemicals as described in paragraph (2), to each of the following:

(A) The appropriate local emergency planning committee.

(B) The State emergency response commission.

(C) The fire department with jurisdiction over the facility.

(2) Contents of list

(A) The list of chemicals referred to in paragraph (1) shall include each of the following:

(i) A list of the hazardous chemicals for which a material safety data sheet is required under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.] and

regulations promulgated under that Act, grouped in categories of health and physical hazards as set forth under such Act and regulations promulgated under such Act, or in such other categories as the Administrator may prescribe under subparagraph (B).

(ii) The chemical name or the common name of each such chemical as provided on the material safety data sheet.

(iii) Any hazardous component of each such chemical as provided on the material safety data sheet.

(B) For purposes of the list under this paragraph, the Administrator may modify the categories of health and physical hazards as set forth under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.] and regulations promulgated under that Act by requiring information to be reported in terms of groups of hazardous chemicals which present similar hazards in an emergency.

(3) Treatment of mixtures

An owner or operator may meet the requirements of this section with respect to a hazardous chemical which is a mixture by doing one of the following:

(A) Submitting a material safety data sheet for, or identifying on a list, each element or compound in the mixture which is a hazardous chemical. If more than one mixture has the same element or compound, only one material safety data sheet, or one listing, of the element or compound is necessary.

(c) Availability of MSDS on request

(1) To local emergency planning committee

If an owner or operator of a facility submits a list of chemicals under subsection (a)(1) of this section, the owner or operator, upon request by the local emergency planning committee, shall submit the material safety data sheet for any chemical on the list to such committee.

(d) Initial submission and updating

(1) The initial material safety data sheet or list required under this section with respect to a

hazardous chemical shall be provided before the later of—

(A) 12 months after October 17, 1986, or

(B) 3 months after the owner or operator of a facility is required to prepare or have available a material safety data sheet for the chemical under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.] and regulations promulgated under that Act.

(2) Within 3 months following discovery by an owner or operator of significant new information concerning an aspect of a hazardous chemical for which a material safety data sheet was previously submitted to the local emergency planning committee under subsection (a) of this section, a revised sheet shall be provided to such person.

(e) "Hazardous chemical" defined

For purposes of this section, the term "hazardous chemical" has the meaning given such term by section 1910.1200(c) of title 29 of the Code of Federal Regulations, except that such term does not include the following:

(4) Any substance to the extent it is used in a research laboratory or a hospital or other medical facility under the direct supervision of a technically qualified individual.

(5) Any substance to the extent it is used in routine agricultural operations or is a fertilizer held for sale by a retailer to the ultimate customer.

(a) Basic requirement

(1) The owner or operator of any facility which is required to prepare or have available a material safety data sheet for a hazardous chemical under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.] and regulations promulgated under that Act shall prepare and submit an emergency and hazardous chemical inventory form (hereafter in this chapter referred to as an "inventory form") to each of the following:

(A) The appropriate local emergency planning committee.

(B) The State emergency response commission.

(C) The fire department with jurisdiction over the facility.

(2) The inventory form containing tier I information (as described in subsection (d)(1) of this section) shall be submitted on or before March 1, 1988, and annually thereafter on March 1, and shall contain data with respect to the preceding calendar year. The preceding sentence does not apply if an owner or operator provides, by the same deadline and with respect to the same calendar year, tier II information (as described in subsection (d)(2) of this section) to the recipients described in paragraph (1).

(3) An owner or operator may meet the requirements of this section with respect to a hazardous chemical which is a mixture by doing one of the following:

(A) Providing information on the inventory form on each element or compound in the mixture which is a hazardous chemical. If more than one mixture has the same element or compound, only one listing on the inventory form for the element or compound at the facility is necessary.

(B) Providing information on the inventory form on the mixture itself.

(b) Thresholds

The Administrator may establish threshold quantities for hazardous chemicals covered by this section below which no facility shall be subject to the provisions of this section. The threshold quantities may, in the Administrator's discretion, be based on classes of chemicals or categories of facilities.

(c) Hazardous chemicals covered

A hazardous chemical subject to the requirements of this section is any hazardous chemical for which a material safety data sheet or a listing is required under section 11021 of this title.

(d) Contents of form

(1) Tier I information

(A) Aggregate information by category

An inventory form shall provide the information described in subparagraph (B) in aggregate terms for hazardous chemicals in categories of health and physical hazards as set forth under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.] and regulations promulgated under that Act.

(B) Required information

The information referred to in subparagraph (A) is the following:

(i) An estimate (in ranges) of the maximum amount of hazardous chemicals in each category present at the facility at any time during the preceding calendar year.

(ii) An estimate (in ranges) of the average daily amount of hazardous chemicals in each category present at the facility during the preceding calendar year.

(iii) The general location of hazardous chemicals in each category.

(C) Modifications

For purposes of reporting information under this paragraph, the Administrator may—

(i) modify the categories of health and physical hazards as set forth under the Occupational Safety and Health Act of 1970 [29 U.S.C. 651 et seq.] and regulations promulgated under that Act by requiring information to be reported in terms of groups of hazardous chemicals which present similar hazards in an emergency, or

(ii) require reporting on individual hazardous chemicals of special concern to emergency response personnel.

(2) Tier II information

An inventory form shall provide the following additional information for each hazardous chemical present at the facility, but only upon request and in accordance with subsection (e) of this section:

(A) The chemical name or the common name of the chemical as provided on the material safety data sheet.

(B) An estimate (in ranges) of the maximum amount of the hazardous chemical present at the facility at any time during the preceding calendar year.

(C) An estimate (in ranges) of the average daily amount of the hazardous chemical present at the facility during the preceding calendar year.

(D) A brief description of the manner of storage of the hazardous chemical.

(E) The location at the facility of the hazardous chemical.

(F) An indication of whether the owner elects to withhold location information of a specific hazardous chemical from disclosure to the public under section 11044 of this title.

(e) Availability of tier II information

(1) Availability to State commissions, local committees, and fire departments

Upon request by a State emergency planning commission, a local emergency planning committee, or a fire department with jurisdiction over the facility, the owner or operator of a facility shall provide tier II information, as described in subsection (d) of this section, to the person making the request. Any such request shall be with respect to a specific facility.

(2) Availability to other State and local officials

A State or local official acting in his or her official capacity may have access to tier II information by submitting a request to the State emergency response commission or the local emergency planning committee. Upon receipt of a request for tier II information, the State commission or local committee shall, pursuant to paragraph (1), request the facility owner or operator for the tier II information and make available such information to the official.

(3) Availability to public

(A) In general

Any person may request a State emergency response commission or local emergency planning committee for tier II information relating to the preceding calendar year with respect to a facility. Any such re-

quest shall be in writing and shall be with respect to a specific facility.

(B) Automatic provision of information to public

Any tier II information which a State emergency response commission or local emergency planning committee has in its possession shall be made available to a person making a request under this paragraph in accordance with section 11044 of this title. If the State emergency response commission or local emergency planning committee does not have the tier II information in its possession, upon a request for tier II information the State emergency response commission or local emergency planning committee shall, pursuant to paragraph (1), request the facility owner or operator for tier II information with respect to a hazardous chemical which a facility has stored in an amount in excess of 10,000 pounds present at the facility at any time during the preceding calendar year and make such information available in accordance with section 11044 of this title to the person making the request.

(C) Discretionary provision of information to public

In the case of tier II information which is not in the possession of a State emergency response commission or local emergency planning committee and which is with respect to a hazardous chemical which a facility has stored in an amount less than 10,000 pounds present at the facility at any time during the preceding calendar year, a request from a person must include the general need for the information. The State emergency response commission or local emergency planning committee may, pursuant to paragraph (1), request the facility owner or operator for the tier II information on behalf of the person making the request. Upon receipt of any information requested on behalf of such person, the State emergency response commission or local emergency planning committee shall make the information available in accordance with section 11044 of this title to the person.

(D) Response in 45 days

A State emergency response commission or local emergency planning committee shall respond to a request for tier II information under this paragraph no later than 45 days after the date of receipt of the request.

(f) Fire department access

Upon request to an owner or operator of a facility which files an inventory form under this section by the fire department with jurisdiction over the facility, the owner or operator of the facility shall allow the fire department to conduct an on-site inspection of the facility and shall provide to the fire department specific location information on hazardous chemicals at the facility.

(g) Format of forms

The Administrator shall publish a uniform format for inventory forms within three months after October 17, 1986. If the Administrator does

not publish such forms, owners and operators of facilities subject to the requirements of this section shall provide the information required under this section by letter.

§ 11023. Toxic chemical release forms

(a) Basic requirement

The owner or operator of a facility subject to the requirements of this section shall complete a toxic chemical release form as published under subsection (g) of this section for each toxic chemical listed under subsection (c) of this section that was manufactured, processed, or otherwise used in quantities exceeding the toxic chemical threshold quantity established by subsection (f) of this section during the preceding calendar year at such facility. Such form shall be submitted to the Administrator and to an official or officials of the State designated by the Governor on or before July 1, 1988, and annually thereafter on July 1 and shall contain data reflecting releases during the preceding calendar year.

(b) Covered owners and operators of facilities

(1) In general

(A) The requirements of this section shall apply to owners and operators of facilities that have 10 or more full-time employees and that are in Standard Industrial Classification Codes 20 through 39 (as in effect on July 1, 1985) and that manufactured, processed, or otherwise used a toxic chemical listed under subsection (c) of this section in excess of the quantity of that toxic chemical established under subsection (f) of this section during the calendar year for which a release form is required under this section.

(B) The Administrator may add or delete Standard Industrial Classification Codes for purposes of subparagraph (A), but only to the extent necessary to provide that each Standard Industrial Code to which this section applies is relevant to the purposes of this section.

(C) For purposes of this section—

(i) The term “manufacture” means to produce, prepare, import, or compound a toxic chemical.

(ii) The term “process” means the preparation of a toxic chemical, after its manufacture, for distribution in commerce—

(I) in the same form or physical state as, or in a different form or physical state from, that in which it was received by the person so preparing such chemical, or

(II) as part of an article containing the toxic chemical.

(2) Discretionary application to additional facilities

The Administrator, on his own motion or at the request of a Governor of a State (with regard to facilities located in that State), may apply the requirements of this section to the owners and operators of any particular facility that manufactures, processes, or otherwise uses a toxic chemical listed under subsection (c) of this section if the Administrator determines that such action is warranted on the basis of toxicity of the toxic chemical, proximity to other facilities that release the toxic chemical or to population centers, the history of releases of such chemical at such facility, or such other factors as the Administrator deems appropriate.

(c) Toxic chemicals covered

The toxic chemicals subject to the requirements of this section are those chemicals on the list in Committee Print Number 99-169 of the Senate Committee on Environment and Public Works, titled “Toxic Chemicals Subject to Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986” [42 U.S.C. 11023] (including any revised version of the list as may be made pursuant to subsection (d) or (e) of this section).

(d) Revisions by Administrator

(1) In general

The Administrator may by rule add or delete a chemical from the list described in subsection (c) of this section at any time.

(2) Additions

A chemical may be added if the Administrator determines, in his judgment, that there is sufficient evidence to establish any one of the following:

(A) The chemical is known to cause or can reasonably be anticipated to cause significant adverse acute human health effects at concentration levels that are reasonably likely to exist beyond facility site boundaries as a result of continuous, or frequently recurring, releases.

(B) The chemical is known to cause or can reasonably be anticipated to cause in humans—

(i) cancer or teratogenic effects, or

(ii) serious or irreversible—

(I) reproductive dysfunctions,

(II) neurological disorders,

(III) heritable genetic mutations, or

(IV) other chronic health effects.

(C) The chemical is known to cause or can reasonably be anticipated to cause, because of—

(i) its toxicity,

(ii) its toxicity and persistence in the environment, or

(iii) its toxicity and tendency to bioaccumulate in the environment,

a significant adverse effect on the environment of sufficient seriousness, in the judgment of the Administrator, to warrant reporting under this section. The number of chemicals included on the list described in

subsection (c) of this section on the basis of the preceding sentence may constitute in the aggregate no more than 25 percent of the total number of chemicals on the list.

A determination under this paragraph shall be based on generally accepted scientific principles or laboratory tests, or appropriately designed and conducted epidemiological or other population studies, available to the Administrator.

(3) Deletions

A chemical may be deleted if the Administrator determines there is not sufficient evidence to establish any of the criteria described in paragraph (2).

(4) Effective date

Any revision made on or after January 1 and before December 1 of any calendar year shall take effect beginning with the next calendar year. Any revision made on or after December 1 of any calendar year and before January 1 of the next calendar¹ year shall take effect beginning with the calendar year following such next calendar year.

(e) Petitions

(1) In general

Any person may petition the Administrator to add or delete a chemical from the list described in subsection (c) of this section on the basis of the criteria in subparagraph (A) or (B) of subsection (d)(2) of this section. Within 180 days after receipt of a petition, the Administrator shall take one of the following actions:

(A) Initiate a rulemaking to add or delete the chemical to the list, in accordance with subsection (d)(2) or (d)(3) of this section.

(B) Publish an explanation of why the petition is denied.

(2) Governor petitions

A State Governor may petition the Administrator to add or delete a chemical from the list described in subsection (c) of this section on the basis of the criteria in subparagraph (A), (B), or (C) of subsection (d)(2) of this section. In the case of such a petition from a State Governor to delete a chemical, the petition shall be treated in the same manner as a petition received under paragraph (1) to delete a chemical. In the case of such a petition from a State Governor to add a chemical, the chemical will be added to the list within 180 days after receipt of the petition, unless the Administrator—

(A) initiates a rulemaking to add the chemical to the list, in accordance with subsection (d)(2) of this section, or

(B) publishes an explanation of why the Administrator believes the petition does not meet the requirements of subsection (d)(2) of this section for adding a chemical to the list.

(f) Threshold for reporting

(1) Toxic chemical threshold amount

The threshold amounts for purposes of reporting toxic chemicals under this section are as follows:

(A) With respect to a toxic chemical used at a facility, 10,000 pounds of the toxic chemical per year.

(B) With respect to a toxic chemical manufactured or processed at a facility—

(i) For the toxic chemical release form required to be submitted under this section on or before July 1, 1988, 75,000 pounds of the toxic chemical per year.

(ii) For the form required to be submitted on or before July 1, 1989, 50,000 pounds of the toxic chemical per year.

(iii) For the form required to be submitted on or before July 1, 1990, and for each form thereafter, 25,000 pounds of the toxic chemical per year.

(2) Revisions

The Administrator may establish a threshold amount for a toxic chemical different from the amount established by paragraph (1). Such revised threshold shall obtain reporting on a substantial majority of total releases of the chemical at all facilities subject to the requirements of this section. The amounts established under this paragraph may, at the Administrator's discretion, be based on classes of chemicals or categories of facilities.

(g) Form

(1) Information required

Not later than June 1, 1987, the Administrator shall publish a uniform toxic chemical release form for facilities covered by this section. If the Administrator does not publish such a form, owners and operators of facilities subject to the requirements of this section shall provide the information required under this subsection by letter postmarked on or before the date on which the form is due. Such form shall—

(A) provide for the name and location of, and principal business activities at, the facility;

(B) include an appropriate certification, signed by a senior official with management responsibility for the person or persons completing the report, regarding the accuracy and completeness of the report; and

(C) provide for submission of each of the following items of information for each listed toxic chemical known to be present at the facility:

(i) Whether the toxic chemical at the facility is manufactured, processed, or otherwise used, and the general category or categories of use of the chemical.

(ii) An estimate of the maximum amounts (in ranges) of the toxic chemical present at the facility at any time during the preceding calendar year.

(iii) For each wastestream, the waste treatment or disposal methods employed, and an estimate of the treatment efficiency typically achieved by such methods for that wastestream.

(iv) The annual quantity of the toxic chemical entering each environmental medium.

(2) Use of available data

In order to provide the information required under this section, the owner or operator of a

¹ So in original. Probably should be "calendar".

facility may use readily available data (including monitoring data) collected pursuant to other provisions of law, or, where such data are not readily available, reasonable estimates of the amounts involved. Nothing in this section requires the monitoring or measurement of the quantities, concentration, or frequency of any toxic chemical released into the environment beyond that monitoring and measurement required under other provisions of law or regulation. In order to assure consistency, the Administrator shall require that data be expressed in common units.

(h) Use of release form

The release forms required under this section are intended to provide information to the Federal, State, and local governments and the public, including citizens of communities surrounding covered facilities. The release form shall be available, consistent with section 11044(a) of this title, to inform persons about releases of toxic chemicals to the environment; to assist governmental agencies, researchers, and other persons in the conduct of research and data gathering; to aid in the development of appropriate regulations, guidelines, and standards; and for other similar purposes.

(i) Modifications in reporting frequency

(1) In general

The Administrator may modify the frequency of submitting a report under this section, but the Administrator may not modify the frequency to be any more often than annually. A modification may apply, either nationally or in a specific geographic area, to the following:

- (A) All toxic chemical release forms required under this section.
- (B) A class of toxic chemicals or a category of facilities.
- (C) A specific toxic chemical.
- (D) A specific facility.

(2) Requirements

A modification may be made under paragraph (1) only if the Administrator—

- (A) makes a finding that the modification is consistent with the provisions of subsection (h) of this section, based on—
 - (i) experience from previously submitted toxic chemical release forms, and
 - (ii) determinations made under paragraph (3), and
- (B) the finding is made by a rulemaking in accordance with section 553 of title 5.

(3) Determinations

The Administrator shall make the following determinations with respect to a proposed modification before making a modification under paragraph (1):

- (A) The extent to which information relating to the proposed modification provided on the toxic chemical release forms has been used by the Administrator or other agencies of the Federal Government, States, local governments, health professionals, and the public.
- (B) The extent to which the information is
 - (i) readily available to potential users from

other sources, such as State reporting programs, and (ii) provided to the Administrator under another Federal law or through a State program.

(C) The extent to which the modification would impose additional and unreasonable burdens on facilities subject to the reporting requirements under this section.

(4) 5-year review

Any modification made under this subsection shall be reviewed at least once every 5 years. Such review shall examine the modification and ensure that the requirements of paragraphs (2) and (3) still justify continuation of the modification. Any change to a modification reviewed under this paragraph shall be made in accordance with this subsection.

(5) Notification to Congress

The Administrator shall notify Congress of an intention to initiate a rulemaking for a modification under this subsection. After such notification, the Administrator shall delay initiation of the rulemaking for at least 12 months, but no more than 24 months, after the date of such notification.

(6) Judicial review

In any judicial review of a rulemaking which establishes a modification under this subsection, a court may hold unlawful and set aside agency action, findings, and conclusions found to be unsupported by substantial evidence.

(7) Applicability

A modification under this subsection may apply to a calendar year or other reporting period beginning no earlier than January 1, 1993.

(8) Effective date

Any modification made on or after January 1 and before December 1 of any calendar year shall take effect beginning with the next calendar year. Any modification made on or after December 1 of any calendar year and before January 1 of the next calendar year shall take effect beginning with the calendar year following such next calendar year.

(j) EPA management of data

The Administrator shall establish and maintain in a computer data base a national toxic chemical inventory based on data submitted to the Administrator under this section. The Administrator shall make these data accessible by computer telecommunication and other means to any person on a cost reimbursable basis.

(k) Report

Not later than June 30, 1991, the Comptroller General, in consultation with the Administrator and appropriate officials in the States, shall submit to the Congress a report including each of the following:

- (1) A description of the steps taken by the Administrator and the States to implement the requirements of this section, including steps taken to make information collected under this section available to and accessible by the public.

(2) A description of the extent to which the information collected under this section has been used by the Environmental Protection Agency, other Federal agencies, the States, and the public, and the purposes for which the information has been used.

(3) An identification and evaluation of options for modifications to the requirements of this section for the purpose of making information collected under this section more useful.

(I) Mass balance study

(1) In general

The Administrator shall arrange for a mass balance study to be carried out by the National Academy of Sciences using mass balance information collected by the Administrator under paragraph (3). The Administrator shall submit to Congress a report on such study no later than 5 years after October 17, 1986.

(2) Purposes

The purposes of the study are as follows:

(A) To assess the value of mass balance analysis in determining the accuracy of information on toxic chemical releases.

(B) To assess the value of obtaining mass balance information, or portions thereof, to determine the waste reduction efficiency of different facilities, or categories of facilities, including the effectiveness of toxic chemical regulations promulgated under laws other than this chapter.

(C) To assess the utility of such information for evaluating toxic chemical management practices at facilities, or categories of facilities, covered by this section.

(D) To determine the implications of mass balance information collection on a national scale similar to the mass balance information collection carried out by the Administrator under paragraph (3), including implications of the use of such collection as part of a national annual quantity toxic chemical release program.

(3) Information collection

(A) The Administrator shall acquire available mass balance information from States which currently conduct (or during the 5 years after October 17, 1986 initiate) a mass balance-oriented annual quantity toxic chemical release program. If information from such States provides an inadequate representation of industry classes and categories to carry out the purposes of the study, the Administrator also may acquire mass balance information necessary for the study from a representative number of facilities in other States.

(B) Any information acquired under this section shall be available to the public, except that upon a showing satisfactory to the Administrator by any person that the information (or a particular part thereof) to which the Administrator or any officer, employee, or representative has access under this section if made public would divulge information entitled to protection under section 1905 of title 18, such information or part shall be considered confidential in accordance with the purposes

of that section, except that such information or part may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this section.

(C) The Administrator may promulgate regulations prescribing procedures for collecting mass balance information under this paragraph.

(D) For purposes of collecting mass balance information under subparagraph (A), the Administrator may require the submission of information by a State or facility.

(4) Mass balance definition

For purposes of this subsection, the term "mass balance" means an accumulation of the annual quantities of chemicals transported to a facility, produced at a facility, consumed at a facility, used at a facility, accumulated at a facility, released from a facility, and transported from a facility as a waste or as a commercial product or byproduct or component of a commercial product or byproduct.

EXPEDITING COMMUNITY RIGHT-TO-KNOW INITIATIVES

Memorandum of President of the United States, Aug. 8, 1995, 60 F.R. 41791, provided:

Memorandum for the Administrator of the Environmental Protection Agency and the Heads of Executive Departments and Agencies

The Emergency Planning and Community Right-to-Know Act of 1986 (42 U.S.C. 11001-11050) ("EPCRA") and the Pollution Prevention Act of 1990 (42 U.S.C. 13101-13109) provide an innovative approach to protecting public health and the environment by ensuring that communities are informed about the toxic chemicals being released into the air, land, and water by manufacturing facilities. I am committed to the effective implementation of this law, because Community Right-to-Know protections provide a basic informational tool to encourage informed community-based environmental decision making and provide a strong incentive for businesses to find their own ways of preventing pollution.

The laws provide the Environmental Protection Agency with substantial authority to add to the Toxics Release Inventory under EPCRA: (1) new chemicals; (2) new classes of industrial facilities; and (3) additional types of information concerning toxic chemical use at facilities. Community Right-to-Know should be enhanced wherever possible as appropriate. EPA currently is engaged in an on-going process to address potential facility expansion and the collection of use information. I am committed to a full and open process on the policy issues posed by EPA's exercise of these authorities.

So that consideration of these issues can be fully accomplished during this Administration, I am directing the Administrator of the Environmental Protection Agency, in consultation with the Office of Management and Budget and appropriate Federal agencies with applicable technical and functional expertise, as necessary, to take the following actions:

(a) Continuation on an expedited basis of the public notice and comment rulemaking proceedings to consider whether, as appropriate and consistent with section 313(b) of EPCRA, 42 U.S.C. 11023(b), to add to the list of Standard Industrial Classification ("SIC") Code designations of 20 through 39 (as in effect on July 1, 1985). For SIC Code designations, see "Standard Industrial Classification Manual" published by the Office of Management and Budget. EPA shall complete the rulemaking process on an accelerated schedule.

(b) Development and implementation of an expedited, open, and transparent process for consideration of reporting under EPCRA on information on the use of toxic chemicals at facilities, including information on mass balance, materials accounting, or other chemical use data [data], pursuant to section 313(b)(1)(A) of EPCRA, 42 U.S.C. 11023(b)(1)(A). EPA shall report on the progress of this effort by October 1, 1995, with a goal of obtaining sufficient information to be able to make informed judgments concerning implementation of any appropriate program.

These actions should continue unless specifically prohibited by law. The head of each executive department or agency shall assist the Environmental Protection Agency in implementing this directive as quickly as possible.

This directive is for the internal management of the executive branch and does not create any right or benefit, substantive or procedural, enforceable by any party against the United States, its agencies or instrumentalities, its officers or employees, or any person.

The Director of the Office of Management and Budget is authorized and directed to publish this Memorandum in the Federal Register.

WILLIAM J. CLINTON.

SUBCHAPTER III—GENERAL PROVISIONS

§ 11041. Relationship to other law

(a) In general

Nothing in this chapter shall—

- (1) preempt any State or local law,
- (2) except as provided in subsection (b) of this section, otherwise affect any State or local law or the authority of any State or local government to adopt or enforce any State or local law, or
- (3) affect or modify in any way the obligations or liabilities of any person under other Federal law.

(b) Effect on MSDS requirements

Any State or local law enacted after August 1, 1985, which requires the submission of a material safety data sheet from facility owners or operators shall require that the data sheet be identical in content and format to the data sheet required under subsection (a) of section 11021 of this title. In addition, a State or locality may require the submission of information which is supplemental to the information required on the data sheet (including information on the location and quantity of hazardous chemicals present at the facility), through additional sheets attached to the data sheet or such other means as the State or locality considers appropriate.

(Pub. L. 99-499, title III, § 321, Oct. 17, 1986, 100 Stat. 1747.)

§ 11042. Trade secrets

(a) Authority to withhold information

(1) General authority

(A) With regard to a hazardous chemical, an extremely hazardous substance, or a toxic chemical, any person required under section 11003(d)(2), 11003(d)(3), 11021, 11022, or 11023 of this title to submit information to any other person may withhold from such submittal the specific chemical identity (including the chemical name and other specific identification), as defined in regulations prescribed by

the Administrator under subsection (c) of this section, if the person complies with paragraph (2).

(B) Any person withholding the specific chemical identity shall, in the place on the submittal where the chemical identity would normally be included, include the generic class or category of the hazardous chemical, extremely hazardous substance, or toxic chemical (as the case may be).

(2) Requirements

(A) A person is entitled to withhold information under paragraph (1) if such person—

- (i) claims that such information is a trade secret, on the basis of the factors enumerated in subsection (b) of this section,
- (ii) includes in the submittal referred to in paragraph (1) an explanation of the reasons why such information is claimed to be a trade secret, based on the factors enumerated in subsection (b) of this section, including a specific description of why such factors apply, and
- (iii) submits to the Administrator a copy of such submittal, and the information withheld from such submittal.

(B) In submitting to the Administrator the information required by subparagraph (A)(iii), a person withholding information under this subsection may—

- (i) designate, in writing and in such manner as the Administrator may prescribe by regulation, the information which such person believes is entitled to be withheld under paragraph (1), and
- (ii) submit such designated information separately from other information submitted under this subsection.

(3) Limitation

The authority under this subsection to withhold information shall not apply to information which the Administrator has determined, in accordance with subsection (c) of this section, is not a trade secret.

(b) Trade secret factors

No person required to provide information under this chapter may claim that the information is entitled to protection as a trade secret under subsection (a) of this section unless such person shows each of the following:

- (1) Such person has not disclosed the information to any other person, other than a member of a local emergency planning committee, an officer or employee of the United States or a State or local government, an employee of such person, or a person who is bound by a confidentiality agreement, and such person has taken reasonable measures to protect the confidentiality of such information and intends to continue to take such measures.

(2) The information is not required to be disclosed, or otherwise made available, to the public under any other Federal or State law.

(3) Disclosure of the information is likely to cause substantial harm to the competitive position of such person.

(4) The chemical identity is not readily discoverable through reverse engineering.

(c) Trade secret regulations

As soon as practicable after October 17, 1986, the Administrator shall prescribe regulations to implement this section. With respect to subsection (b)(4) of this section, such regulations shall be equivalent to comparable provisions in the Occupational Safety and Health Administration Hazard Communication Standard (29 C.F.R. 1910.1200) and any revisions of such standard prescribed by the Secretary of Labor in accordance with the final ruling of the courts of the United States in *United Steelworkers of America, AFL-CIO-CLC v. Thorne G. Auchter*.

(d) Petition for review**(1) In general**

Any person may petition the Administrator for the disclosure of the specific chemical identity of a hazardous chemical, an extremely hazardous substance, or a toxic chemical which is claimed as a trade secret under this section. The Administrator may, in the absence of a petition under this paragraph, initiate a determination, to be carried out in accordance with this subsection, as to whether information withheld constitutes a trade secret.

(2) Initial review

Within 30 days after the date of receipt of a petition under paragraph (1) (or upon the Administrator's initiative), the Administrator shall review the explanation filed by a trade secret claimant under subsection (a)(2) of this section and determine whether the explanation presents assertions which, if true, are sufficient to support a finding that the specific chemical identity is a trade secret.

(3) Finding of sufficient assertions

(A) If the Administrator determines pursuant to paragraph (2) that the explanation presents sufficient assertions to support a finding that the specific chemical identity is a trade secret, the Administrator shall notify the trade secret claimant that he has 30 days to supplement the explanation with detailed information to support the assertions.

(B) If the Administrator determines, after receipt of any supplemental supporting detailed information under subparagraph (A), that the assertions in the explanation are true and that the specific chemical identity is a trade secret, the Administrator shall so notify the petitioner and the petitioner may seek judicial review of the determination.

(C) If the Administrator determines, after receipt of any supplemental supporting detailed information under subparagraph (A), that the assertions in the explanation are not true and that the specific chemical identity is not a trade secret, the Administrator shall notify the trade secret claimant that the Administrator intends to release the specific chemical identity. The trade secret claimant has 30 days in which he may appeal the Administrator's determination under this subparagraph to the Administrator. (B) If the Administrator does not reverse his determination under subparagraph (A) after an appeal or an examination of any supplementary assertions under subparagraph (A), the Administrator shall so notify the trade secret claimant and the trade secret claimant may seek judicial review of the determination.

(C) If the Administrator reverses his determination under subparagraph (A) after an appeal or an examination of any supplementary assertions under subparagraph (A), the procedures under paragraph (3) of this subsection apply.

(e) Exception for information provided to health professionals

Nothing in this section, or regulations adopted pursuant to this section, shall authorize any person to withhold information which is required to be provided to a health professional, a doctor, or a nurse in accordance with section 11043 of this title.

(f) Providing information to Administrator; availability to public

Any information submitted to the Administrator under subsection (a)(2) of this section or subsection (d)(3) of this section (except a specific chemical identity) shall be available to the public, except that upon a showing satisfactory to the Administrator by any person that the information (or a particular part thereof) to which the Administrator has access under this section if made public would divulge information entitled to protection under section 1905 of title 18, such information or part shall be considered confidential in accordance with the purposes of that section, except that such information or part may be disclosed to other officers, employees, or authorized representatives of the United States concerned with carrying out this chapter.

(g) Information provided to State

Upon request by a State, acting through the Governor of the State, the Administrator shall provide to the State any information obtained under subsection (a)(2) of this section and subsection (d)(3) of this section.

§ 11043. Provision of information to health professionals, doctors, and nurses

(a) Diagnosis or treatment by health professional

An owner or operator of a facility which is subject to the requirements of section 11021, 11022, or 11023 of this title shall provide the specific chemical identity, if known, of a hazardous chemical, extremely hazardous substance, or a toxic chemical to any health professional who requests such information in writing if the health professional provides a written statement of need under this subsection and a written confidentiality agreement under subsection (d) of this section. The written statement of need shall be a statement that the health professional has a reasonable basis to suspect that—

- (1) the information is needed for purposes of diagnosis or treatment of an individual,
- (2) the individual or individuals being diagnosed or treated have been exposed to the chemical concerned, and
- (3) knowledge of the specific chemical identity of such chemical will assist in diagnosis or treatment.

Following such a written request, the owner or operator to whom such request is made shall promptly provide the requested information to the health professional. The authority to withhold the specific chemical identity of a chemical under section 11042 of this title when such information is a trade secret shall not apply to information required to be provided under this subsection, subject to the provisions of subsection (d) of this section.

(b) Medical emergency

An owner or operator of a facility which is subject to the requirements of section 11021, 11022, or 11023 of this title shall provide a copy of a material safety data sheet, an inventory form, or a toxic chemical release form, includ-

- (1) a medical emergency exists,
- (2) the specific chemical identity of the chemical concerned is necessary for or will assist in emergency or first-aid diagnosis or treatment, and
- (3) the individual or individuals being diagnosed or treated have been exposed to the chemical concerned.

Immediately following such a request, the owner or operator to whom such request is made shall provide the requested information to the physician or nurse. The authority to withhold the specific chemical identity of a chemical from a material safety data sheet, an inventory form, or a toxic chemical release form under section 11042 of this title when such information is a trade secret shall not apply to information required to be provided to a treating physician or nurse under this subsection. No written confidentiality agreement or statement of need shall be required as a precondition of such disclosure, but the owner or operator disclosing such information may require a written confidentiality agreement in accordance with subsection (d) of this section and a statement setting forth the items listed in paragraphs (1) through (3) as soon as circumstances permit.

(c) Preventive measures by local health professionals

(1) Provision of information

An owner or operator of a facility subject to the requirements of section 11021, 11022, or 11023 of this title shall provide the specific chemical identity, if known, of a hazardous chemical, an extremely hazardous substance, or a toxic chemical to any health professional (such as a physician, toxicologist, or epidemiologist)—

- (A) who is a local government employee or a person under contract with the local government, and
- (B) who requests such information in writing and provides a written statement of need under paragraph (2) and a written confidentiality agreement under subsection (d) of this section.

Following such a written request, the owner or operator to whom such request is made shall promptly provide the requested information to the local health professional. The authority to withhold the specific chemical identity of a chemical under section 11042 of this title when such information is a trade secret shall not apply to information required to be provided under this subsection, subject to the provisions of subsection (d) of this section.

(2) Written statement of need

The written statement of need shall be a statement that describes with reasonable detail one or more of the following health needs for the information:

- (A) To assess exposure of persons living in a local community to the hazards of the chemical concerned.

² So in original. Probably should be "limitation".

(B) To conduct or assess sampling to determine exposure levels of various population groups.

(C) To conduct periodic medical surveillance of exposed population groups.

(D) To provide medical treatment to exposed individuals or population groups.

(E) To conduct studies to determine the health effects of exposure.

(F) To conduct studies to aid in the identification of a chemical that may reasonably be anticipated to cause an observed health effect.

(d) Confidentiality agreement

Any person obtaining information under subsection (a) or (c) of this section shall, in accordance with such subsection (a) or (c) of this section, be required to agree in a written confidentiality agreement that he will not use the information for any purpose other than the health needs asserted in the statement of need, except as may otherwise be authorized by the terms of the agreement or by the person providing such information. Nothing in this subsection shall preclude the parties to a confidentiality agreement from pursuing any remedies to the extent permitted by law.

(e) Regulations

As soon as practicable after October 17, 1986, the Administrator shall promulgate regulations describing criteria and parameters for the statement of need under subsection¹ (a) and (c) of this section and the confidentiality agreement under subsection (d) of this section.

§ 11044. Public availability of plans, data sheets, forms, and followup notices

(a) Availability to public

Each emergency response plan, material safety data sheet, list described in section 11021(a)(2) of this title, inventory form, toxic chemical release form, and followup emergency notice shall be made available to the general public, consistent with section 11042 of this title, during normal working hours at the location or locations designated by the Administrator, Governor, State emergency response commission, or local emergency planning committee, as appropriate. Upon request by an owner or operator of a facility subject to the requirements of section 11022 of this title, the State emergency response commission and the appropriate local emergency planning committee shall withhold from disclosure under this section the location of any specific chemical required by section 11022(d)(2) of this title to be contained in an inventory form as tier II information.

(b) Notice of public availability

Each local emergency planning committee shall annually publish a notice in local newspapers that the emergency response plan, material safety data sheets, and inventory forms have been submitted under this section. The notice shall state that followup emergency notices

may subsequently be issued. Such notice shall announce that members of the public who wish to review any such plan, sheet, form, or followup notice may do so at the location designated under subsection (a) of this section.

§ 11045. Enforcement

(a) Civil penalties for emergency planning

The Administrator may order a facility owner or operator (except an owner or operator of a facility designated under section 11002(b)(2) of this title) to comply with section 11002(c) of this title and section 11003(d) of this title. The United States district court for the district in which the facility is located shall have jurisdiction to enforce the order, and any person who violates or fails to obey such an order shall be liable to the United States for a civil penalty of not more than \$25,000 for each day in which such violation occurs or such failure to comply continues.

(b) Civil, administrative, and criminal penalties for emergency notification

(1) Class I administrative penalty

(A) A civil penalty of not more than \$25,000 per violation may be assessed by the Administrator in the case of a violation of the requirements of section 11004 of this title.

(B) No civil penalty may be assessed under this subsection unless the person accused of the violation is given notice and opportunity for a hearing with respect to the violation.

(C) In determining the amount of any penalty assessed pursuant to this subsection, the Administrator shall take into account the nature, circumstances, extent and gravity of the violation or violations and, with respect to the violator, ability to pay, any prior history of such violations, the degree of culpability, economic benefit or savings (if any) resulting from the violation, and such other matters as justice may require.

(2) Class II administrative penalty

A civil penalty of not more than \$25,000 per day for each day during which the violation continues may be assessed by the Administrator in the case of a violation of the requirements of section 11004 of this title. In the case of a second or subsequent violation the amount of such penalty may be not more than \$75,000 for each day during which the violation continues. Any civil penalty under this subsection shall be assessed and collected in the same manner, and subject to the same provisions, as in the case of civil penalties assessed and collected under section 2615 of title 15. In any proceeding for the assessment of a civil penalty under this subsection the Administrator may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents and may promulgate rules for discovery procedures.

(3) Judicial assessment

The Administrator may bring an action in the United States District¹ court for the ap-

appropriate district to assess and collect a penalty of not more than \$25,000 per day for each day during which the violation continues in the case of a violation of the requirements of section 11004 of this title. In the case of a second or subsequent violation, the amount of such penalty may be not more than \$75,000 for each day during which the violation continues.

(4) Criminal penalties

Any person who knowingly and willfully fails to provide notice in accordance with section 11004 of this title shall, upon conviction, be fined not more than \$25,000 or imprisoned for not more than two years, or both (or in the case of a second or subsequent conviction, shall be fined not more than \$50,000 or imprisoned for not more than five years, or both).

(c) Civil and administrative penalties for reporting requirements

(1) Any person (other than a governmental entity) who violates any requirement of section 11022 or 11023 of this title shall be liable to the United States for a civil penalty in an amount not to exceed \$25,000 for each such violation.

(2) Any person (other than a governmental entity) who violates any requirement of section 11021 or 11043(b) of this title, and any person who fails to furnish to the Administrator information required under section 11042(a)(2) of this title shall be liable to the United States for a civil penalty in an amount not to exceed \$10,000 for each such violation.

(3) Each day a violation described in paragraph (1) or (2) continues shall, for purposes of this subsection, constitute a separate violation.

(4) The Administrator may assess any civil penalty for which a person is liable under this subsection by administrative order or may bring an action to assess and collect the penalty in the United States district court for the district in which the person from whom the penalty is sought resides or in which such person's principal place of business is located.

(d) Civil, administrative, and criminal penalties with respect to trade secrets

(1) Civil and administrative penalty for frivolous claims

If the Administrator determines—

(A)(i) under section 11042(d)(4) of this title that an explanation submitted by a trade secret claimant presents insufficient assertions to support a finding that a specific chemical identity is a trade secret, or (ii) after receiving supplemental supporting detailed information under section 11042(d)(3)(A) of this title, that the specific chemical identity is not a trade secret; and (B) that the trade secret claim is frivolous,

the trade secret claimant is liable for a penalty of \$25,000 per claim. The Administrator may assess the penalty by administrative order or may bring an action in the appropriate district court of the United States to assess and collect the penalty.

(2) Criminal penalty for disclosure of trade secret information

Any person who knowingly and willfully divulges or discloses any information entitled to

protection under section 11042 of this title shall, upon conviction, be subject to a fine of not more than \$20,000 or to imprisonment not to exceed one year, or both.

(e) Special enforcement provisions for section 11043

Whenever any facility owner or operator required to provide information under section 11043 of this title to a health professional who has requested such information fails or refuses to provide such information in accordance with such section, such health professional may bring an action in the appropriate United States district court to require such facility owner or operator to provide the information. Such court shall have jurisdiction to issue such orders and take such other action as may be necessary to enforce the requirements of section 11043 of this title.

(f) Procedures for administrative penalties

(1) Any person against whom a civil penalty is assessed under this section may obtain review thereof in the appropriate district court of the United States by filing a notice of appeal in such court within 30 days after the date of such order and by simultaneously sending a copy of such notice by certified mail to the Administrator. The Administrator shall promptly file in such court a certified copy of the record upon which such violation was found or such penalty imposed. If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order or after the appropriate court has entered final judgment in favor of the United States, the Administrator may request the Attorney General of the United States to institute a civil action in an appropriate district court of the United States to collect the penalty, and such court shall have jurisdiction to hear and decide any such action. In hearing such action, the court shall have authority to review the violation and the assessment of the civil penalty on the record.

(2) The Administrator may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, or documents in connection with hearings under this section. In case of contumacy or refusal to obey a subpoena issued pursuant to this paragraph and served upon any person, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the administrative law judge or to appear and produce documents before the administrative law judge, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

§ 11101. Findings

The Congress finds the following:

(1) The increasing occurrence of medical malpractice and the need to improve the quality of medical care have become nationwide problems that warrant greater efforts than those that can be undertaken by any individual State.

(2) There is a national need to restrict the ability of incompetent physicians to move from State to State without disclosure or discovery of the physician's previous damaging or incompetent performance.

(3) This nationwide problem can be remedied through effective professional peer review.

(4) The threat of private money damage liability under Federal laws, including treble damage liability under Federal antitrust law, unreasonably discourages physicians from participating in effective professional peer review.

(5) There is an overriding national need to provide incentive and protection for physicians engaging in effective professional peer review.

SUBCHAPTER I—PROMOTION OF PROFESSIONAL REVIEW ACTIVITIES

§ 11111. Professional review

(a) In general

(1) Limitation on damages for professional review actions

If a professional review action (as defined in section 11151(9) of this title) of a professional review body meets all the standards specified in section 11112(a) of this title, except as provided in subsection (b) of this section—

Nothing in this paragraph shall prevent the United States or any Attorney General of a State from bringing an action, including an action under section 15c of title 15, where such an action is otherwise authorized.

(2) Protection for those providing information to professional review bodies

Notwithstanding any other provision of law, no person (whether as a witness or otherwise) providing information to a professional review body regarding the competence or professional conduct of a physician shall be held, by reason of having provided such information, to be liable in damages under any law of the United States or of any State (or political subdivision thereof) unless such information is false and the person providing it knew that such information was false.

(b) Exception

If the Secretary has reason to believe that a health care entity has failed to report information in accordance with section 11133(a) of this title, the Secretary shall conduct an investigation. If, after providing notice of noncompliance, an opportunity to correct the noncompliance, and an opportunity for a hearing, the Secretary determines that a health care entity has failed substantially to report information in accordance with section 11133(a) of this title, the Secretary shall publish the name of the entity in the Federal Register. The protections of subsection (a)(1) of this section shall not apply to an entity the name of which is published in the Federal Register under the previous sentence with respect to professional review actions of the entity commenced during the 3-year period beginning 30 days after the date of publication of the name.

Amendment by Pub. L. 100-177 effective Nov. 14, 1986, see section 402(d) of Pub. L. 100-177, as renumbered and amended, set out as a note under section 11137 of this title.

EFFECTIVE DATE

Section 416 of Pub. L. 99-660 provided that: “This part [part A (§§ 411-416) of title IV of Pub. L. 99-660, enacting this subchapter] shall apply to professional review actions commenced on or after the date of the enactment of this Act [Nov. 14, 1986].”

§ 11112. Standards for professional review actions**(a) In general**

For purposes of the protection set forth in section 11111(a) of this title, a professional review action must be taken—

- (1) in the reasonable belief that the action was in the furtherance of quality health care,
- (2) after a reasonable effort to obtain the facts of the matter,
- (3) after adequate notice and hearing procedures are afforded to the physician involved or after such other procedures as are fair to the physician under the circumstances, and
- (4) in the reasonable belief that the action was warranted by the facts known after such reasonable effort to obtain facts and after meeting the requirement of paragraph (3).

A professional review action shall be presumed to have met the preceding standards necessary

for the protection set out in section 11111(a) of this title unless the presumption is rebutted by a preponderance of the evidence.

(b) Adequate notice and hearing

A health care entity is deemed to have met the adequate notice and hearing requirement of subsection (a)(3) of this section with respect to a physician if the following conditions are met (or are waived voluntarily by the physician):

(1) Notice of proposed action

The physician has been given notice stating—

(A)(i) that a professional review action has been proposed to be taken against the physician,

(ii) reasons for the proposed action,

(B)(i) that the physician has the right to request a hearing on the proposed action,

(ii) any time limit (of not less than 30 days) within which to request such a hearing, and

(C) a summary of the rights in the hearing under paragraph (3).

(2) Notice of hearing

If a hearing is requested on a timely basis under paragraph (1)(B), the physician involved must be given notice stating—

(A) the place, time, and date, of the hearing, which date shall not be less than 30 days after the date of the notice, and

(B) a list of the witnesses (if any) expected to testify at the hearing on behalf of the professional review body.

(3) Conduct of hearing and notice

If a hearing is requested on a timely basis under paragraph (1)(B)—

(A) subject to subparagraph (B), the hearing shall be held (as determined by the health care entity)—

(i) before an arbitrator mutually acceptable to the physician and the health care entity,

(ii) before a hearing officer who is appointed by the entity and who is not in direct economic competition with the physician involved, or

(iii) before a panel of individuals who are appointed by the entity and are not in direct economic competition with the physician involved;

(B) the right to the hearing may be forfeited if the physician fails, without good cause, to appear;

(C) in the hearing the physician involved has the right—

(i) to representation by an attorney or other person of the physician's choice,

(ii) to have a record made of the proceedings, copies of which may be obtained by the physician upon payment of any reasonable charges associated with the preparation thereof,

(iii) to call, examine, and cross-examine witnesses,

(iv) to present evidence determined to be relevant by the hearing officer, regardless of its admissibility in a court of law, and

(v) to submit a written statement at the close of the hearing; and

¹ So in original. Probably should be “for purposes of subparagraph (A).”

(D) upon completion of the hearing, the physician involved has the right—

(i) to receive the written recommendation of the arbitrator, officer, or panel, including a statement of the basis for the recommendations, and

(ii) to receive a written decision of the health care entity, including a statement of the basis for the decision.

A professional review body's failure to meet the conditions described in this subsection shall not, in itself, constitute failure to meet the standards of subsection (a)(3) of this section.

(c) Adequate procedures in investigations or health emergencies

For purposes of section 11111(a) of this title, nothing in this section shall be construed as—

(1) requiring the procedures referred to in subsection (a)(3) of this section—

(A) where there is no adverse professional review action taken, or

(B) in the case of a suspension or restriction of clinical privileges, for a period of not longer than 14 days, during which an investigation is being conducted to determine the need for a professional review action; or

(2) precluding an immediate suspension or restriction of clinical privileges, subject to subsequent notice and hearing or other adequate procedures, where the failure to take such an action may result in an imminent danger to the health of any individual.

(Pub. L. 99-660, title IV, § 412, Nov. 14, 1986, 100 Stat. 3785.)

§ 11113. Payment of reasonable attorneys' fees and costs in defense of suit

In any suit brought against a defendant, to the extent that a defendant has met the standards set forth under section 11112(a) of this title and the defendant substantially prevails, the court shall, at the conclusion of the action, award to a substantially prevailing party defending against any such claim the cost of the suit attributable to such claim, including a reasonable attorney's fee, if the claim, or the claimant's conduct during the litigation of the claim, was frivolous, unreasonable, without foundation, or in bad faith. For the purposes of this section, a defendant shall not be considered to have substantially prevailed when the plaintiff obtains an award for damages or permanent injunctive or declaratory relief.

(Pub. L. 99-660, title IV, § 413, Nov. 14, 1986, 100 Stat. 3787.)

(Pub. L. 99-660, title IV, § 414, Nov. 14, 1986, 100 Stat. 3787.)

§ 11115. Construction

(a) In general

Except as specifically provided in this subchapter, nothing in this subchapter shall be con-

strued as changing the liabilities or immunities under law or as preempting or overriding any State law which provides incentives, immunities, or protection for those engaged in a professional review action that is in addition to or greater than that provided by this subchapter.

(b) Scope of clinical privileges

Nothing in this subchapter shall be construed as requiring health care entities to provide clinical privileges to any or all classes or types of physicians or other licensed health care practitioners.

(c) Treatment of nurses and other practitioners

Nothing in this subchapter shall be construed as affecting, or modifying any provision of Federal or State law, with respect to activities of professional review bodies regarding nurses, other licensed health care practitioners, or other health professionals who are not physicians.

(d) Treatment of patient malpractice claims

Nothing in this chapter shall be construed as affecting in any manner the rights and remedies afforded patients under any provision of Federal or State law to seek redress for any harm or injury suffered as a result of negligent treatment or care by any physician, health care practitioner, or health care entity, or as limiting any defenses or immunities available to any physician, health care practitioner, or health care entity.

SUBCHAPTER I—GENERAL PROVISIONS

§ 11201. Findings

The Congress finds that—

(1) best estimates indicate that between 2,000,000 and 3,000,000 Americans presently have Alzheimer's disease or related dementias;

(2) estimates of the number of individuals afflicted with Alzheimer's disease and related dementias are unreliable because current diagnostic procedures lack accuracy and sensitiv-

ity and because there is a need for epidemiological data on incidence and prevalence of such disease and dementias;

(3) studies estimate that between one-half and two-thirds of patients in nursing homes meet the clinical and mental status criteria for dementia;

(4) the cost of caring for individuals with Alzheimer's disease and related dementias is great, and conservative estimates range between \$38,000,000,000 and \$42,000,000,000 per year solely for direct costs;

(5) progress in the neurosciences and behavioral sciences has demonstrated the interdependence and mutual reinforcement of basic science, clinical research, and services research for Alzheimer's disease and related dementias;

(6) programs initiated as part of the Decade of the Brain are likely to provide significant progress in understanding the fundamental mechanisms underlying the causes of, and treatments for, Alzheimer's disease and related dementias;

(7) although substantial progress has been made in recent years in identifying possible leads to the causes of Alzheimer's disease and related dementias, and more progress can be expected in the near future, there is little likelihood of a breakthrough in the immediate future that would eliminate or substantially reduce—

(A) the number of individuals with the disease and dementias; or

(B) the difficulties of caring for the individuals;

(8) the responsibility for care of individuals with Alzheimer's disease and related dementias falls primarily on their families, and the care is financially and emotionally devastating;

(9) attempts to reduce the emotional and financial burden of caring for dementia patients is impeded by a lack of knowledge about such patients, how to care for such patients, the costs associated with such care, the effectiveness of various modes of care, the quality and type of care necessary at various stages of the disease, and other appropriate services that are needed to provide quality care;

(10) the results of the little research that has been undertaken concerning dementia has been inadequate or the results have not been widely disseminated;

(11) more knowledge is needed concerning—

(A) the epidemiology of, and the identification of risk factors for, Alzheimer's disease and related dementias;

(B) the development of methods for early diagnosis, functional assessment, and psychological evaluation of individuals with Alzheimer's disease for the purpose of monitoring the course of the disease and developing strategies for improving the quality of life for such individuals;

(C) the understanding of the optimal range and cost-effectiveness of community and institutional services for individuals with Alzheimer's disease and related dementias and their families, particularly with respect to the design, delivery, staffing, and mix of

such services and the coordination of such services with other services, and with respect to the relationship of formal to informal support services;

(D) the understanding of optimal methods to combine formal support services provided by health care professionals with informal support services provided by family, friends, and neighbors of individuals with Alzheimer's disease, and the identification of ways family caregivers can be sustained through interventions to reduce psychological and social problems and physical problems induced by stress;

(E) existing data that are relevant to Alzheimer's disease and related dementias; and

(F) the costs incurred in caring for individuals with Alzheimer's disease and related dementias;

(12) it is imperative to provide appropriate coordination of the efforts of the Federal Government in the provision of services for individuals with Alzheimer's disease and related dementias;

(13) it is important to increase the understanding of Alzheimer's disease and related dementias by the diverse range of personnel involved in the care of individuals with such disease and dementias; and

(14) it is imperative that the Social Security Administration be provided information pertaining to Alzheimer's disease and related dementias, particularly for personnel in such Administration involved in the establishment and updating of criteria for determining whether an individual is under a disability for purposes of titles II and XVI of the Social Security Act [42 U.S.C. 401 et seq., 1381 et seq.].

AMENDMENTS

1992—Pars. (4) to (14). Pub. L. 102-507 added pars. (4) to (8), redesignated former pars. (7) to (12) as (9) to (14), respectively, and struck out former pars. (4) to (6) which read as follows:

“(4) the care for individuals with Alzheimer's disease and related dementias falls primarily on their families, and such care is very often financially and emotionally devastating;

“(5) the cost of caring for individuals with Alzheimer's disease and related dementias is great, and conservative estimates range between \$38,000,000,000 and \$42,000,000,000 per year solely for direct costs;

SUBCHAPTER I—GENERAL PROVISIONS

§ 11301. Findings and purpose

(a) Findings

The Congress finds that—

(1) the Nation faces an immediate and un-
precedented crisis due to the lack of shelter
for a growing number of individuals and fami-
lies, including elderly persons, handicapped
persons, families with children, Native Ameri-
cans, and veterans;

(2) the problem of homelessness has become
more severe and, in the absence of more effec-
tive efforts, is expected to become dramati-
cally worse, endangering the lives and safety
of the homeless;

(3) the causes of homelessness are many and
complex, and homeless individuals have di-
verse needs;

(4) there is no single, simple solution to the
problem of homelessness because of the dif-
ferent subpopulations of the homeless, the dif-
ferent causes of and reasons for homelessness,
and the different needs of homeless individ-
uals;

(5) due to the record increase in homeles-
sness, States, units of local government, and
private voluntary organizations have been un-
able to meet the basic human needs of all the
homeless and, in the absence of greater Fed-
eral assistance, will be unable to protect the
lives and safety of all the homeless in need of
assistance; and

(6) the Federal Government has a clear re-
sponsibility and an existing capacity to fulfill
a more effective and responsible role to meet
the basic human needs and to engender respect
for the human dignity of the homeless.

(b) Purpose

It is the purpose of this chapter—

(1) to establish the United States Inter-
agency Council on Homelessness;

(2) to use public resources and programs in a
more coordinated manner to meet the criti-
cally urgent needs of the homeless of the Na-
tion; and

(3) to provide funds for programs to assist
the homeless, with special emphasis on elderly
persons, handicapped persons, families with
children, Native Americans, and veterans.

(b) Minimum allocation requirement

If, under the allocation provisions applicable under this part, any metropolitan city or urban county would receive a grant of less than 0.05 percent of the amounts appropriated to carry out this part for any fiscal year, such amount shall instead be reallocated to the State, except that any city that is located in a State that does not have counties as local governments, that has a population greater than 40,000 but less than 50,000 as used in determining the fiscal year 1987 community development block grant pro-

Any amounts that cannot be allocated to a State under the preceding sentence shall be reallocated to other States, counties, and cities that demonstrate extraordinary need or large numbers of homeless individuals, as determined by the Secretary.

(3) If a State fails to obtain approval of its comprehensive plan during the 90-day period following the date funds authorized by this part first become available for allocation during any fiscal year, the amount that the State would have received shall be reallocated to other States and to cities and counties as applicable, that demonstrate extraordinary need or large numbers of homeless individuals, as determined by the Secretary.

SUBCHAPTER V—IDENTIFICATION AND USE OF SURPLUS FEDERAL PROPERTY

§ 11411. Use of unutilized and underutilized public buildings and real property to assist the homeless

(a) Identification of suitable property

The Secretary of Housing and Urban Development shall, on a quarterly basis, request information from each landholding agency regarding Federal public buildings and other Federal real properties (including fixtures) that are excess property or surplus property or that are described as unutilized or underutilized in surveys by the heads of landholding agencies under section 524(a)(2) and (3) of title 40. No later than 25 days after receiving a request from the Secretary, the head of each landholding agency shall transmit such information to the Secretary. No later than 30 days after receiving such information, the Secretary shall identify which of those buildings and other properties are suitable for use to assist the homeless.

(b) Availability of property

(1) The Secretary shall promptly notify each Federal agency with respect to any property of that agency that the Secretary has identified under subsection (a) of this section. No later than 45 days after receipt of such a notice, the head of the appropriate landholding agency shall transmit to the Secretary the agency's response to property identifications contained in such notification, which shall include—

(A) in the case of unutilized or underutilized property—

- (i) a statement of intention to determine the property excess to the agency's needs;
- (ii) a statement of intention to make the property available for use to assist the homeless; or
- (iii) a statement of the reasons (including a full explanation of the need) the property cannot be determined excess to the agency's needs or made available for use to assist the homeless; and

(B) in the case of excess property—

- (i) a statement that there is no other compelling Federal need for the property and, therefore, the property will be determined surplus; or
- (ii) a statement that there is further and compelling Federal need for the property (including a full explanation of such need) and that, therefore, the property is not presently available for use to assist the homeless.

(2)(A) All properties identified by the Secretary under subsection (a) of this section shall be available for application—

- (i) in the case of property other than surplus property, for use to assist the homeless in ac-

cordance with the provisions of this section; and

- (ii) in the case of surplus property, for use to assist the homeless either in accordance with this section or as a public health use in accordance with section 550(a)–(d) of title 40.

(3) The Secretary shall maintain a written public record of—

- (A) the identification of buildings and other properties by the Secretary under this subsection and the reasons for such identifications; and
- (B) the responses of landholding agencies to such identifications.

(c) Publication of properties

(1)(A) No later than 15 days after the last day of the 45-day period provided for under subsection (b)(1) of this section, the Secretary shall publish in the Federal Register—

- (ii) a list of all properties that are available under subsection (b)(2) of this section for application for use to assist the homeless.

(B) Each publication of properties shall include a description and the location of each property (including the address and zip code) and the current classification of each property as unutilized, underutilized, excess property, or surplus property.

(C) The Secretary shall make available to the public upon request all information in the possession of the Department of Housing and Urban Development (other than valuation information), regardless of format, about all properties reviewed and not identified as being suitable for use to assist the homeless, including the reasons such properties were not so identified.

(D) The Secretary shall publish separately, on an annual basis, all properties identified as being suitable for use to assist the homeless, but reported to be unavailable, and the reasons such properties were unavailable.

(2)(A) No later than 15 days after the last day of the 45-day period provided for under subsection (b)(1) of this section, the Secretary shall transmit a copy of the list of available properties published under paragraph (1)(A)(ii) to the United States Interagency Council on Homelessness. The Council shall immediately distribute to all State and regional homeless coordinators area-relevant portions of the list.

(B) The Secretary, the Administrator, and the Secretary of Health and Human Services shall make such efforts as are necessary to ensure the widest possible dissemination of the information on such list.

(C) The Secretary shall establish a toll-free number to provide the public with specific information about properties on such list.

(3) The Secretary shall make available to the public upon request all information (other than valuation information) regardless of format in the possession of the Department of Housing and Urban Development about the properties published under paragraph (1)(A), including environmental assessment data. The Secretary shall maintain a current list of agency contacts for

making referrals of inquiries for information about specific properties.

(4)(A) On December 31 of each year, the head of each landholding agency shall report to the Secretary the current availability status and the current classification of each property controlled by the agency, that—

(B) No later than February 15 each year, the Secretary shall publish in the Federal Register a list of all properties reported under subparagraph (A) for the preceding year and the current classification of the properties.

(C) For purposes of subparagraph (A), property shall not be considered to remain available for application for use to assist the homeless after the 60-day holding period provided under subsection (d) of this section if—

(i) an application for or written expression of interest in the property is made under any law for use of the property for any purpose; or

(ii) the Administrator receives a bona fide offer to purchase the property or advertises for the sale of the property by public auction.

(d) Holding period

(1) Properties published under subsection (c)(1)(A)(ii) of this section as available for application for use to assist the homeless shall not be available for any other purpose for a period of 60 days beginning on the date of such publication.

(2) If written notice of intent to apply for such a property for use to assist the homeless is received by the Secretary of Health and Human Services within the 60-day period described under paragraph (1), such property may not be made available for any other purpose until the date the Secretary of Health and Human Services or other appropriate landholding agency has completed action on the application submitted under subsection (e) of this section with respect to that written notice of intent.

(3) Property that is reviewed by the Secretary under subsection (a) of this section and that is not identified by the Secretary as being suitable for use to assist the homeless may not be made available for any other purpose for 20 days after the determination of unsuitability to allow for review of the determination at the request of the representative of the homeless. The Secretary shall disseminate immediately this information to the regional offices of the Department of Housing and Urban Development and to the United States Interagency Council on Homelessness.

(4)(A) Written notice of intent to apply for a property published under subsection (c)(1)(A)(ii) of this section may be filed at any time after the 60-day period described in paragraph (1) has expired. In such case, an application submitted pursuant to the notice may be approved for disposal for use to assist the homeless only if the property remains available for application for use to assist the homeless. If the property remains available, the use to assist the homeless shall be given priority of consideration over

other competing disposal opportunities under sections 541–555 of title 40, except as provided in subsection (f)(3)(A) of this section.

(B) Surplus property for which an application has been approved shall be assigned promptly to the Secretary of Health and Human Services for disposition in accordance with and subject to subsection (f) of this section.

(1) A representative of the homeless may submit an application to the Secretary of Health and Human Services for any property that is published under subsection (c)(1)(A)(ii) of this section as available for application for use to assist the homeless.

(2) No later than 90 days after the submission of written notice of intent to apply for a property, an applicant shall submit a complete application to the Secretary of Health and Human Services. The Secretary of Health and Human Services shall, with the concurrence of the appropriate landholding agency, grant reasonable extensions.

(3) No later than 25 days after receipt of a completed application, the Secretary of Health and Human Services shall review, make all determinations, and complete all actions on the application. The Secretary of Health and Human Services shall maintain a written public record of all actions taken in response to an application.

(1) Subject to the provisions of this subsection, property for which the Secretary of Health and Human Services has approved an application under subsection (e) of this section shall be made promptly available by permit or lease, or by deed as a public health use under section 550(a)–(d) of title 40, to the representative of the homeless that submitted the application.

(2) Unutilized or underutilized property that is the subject of an agency's statement of intention under subsection (b)(1)(A)(ii) of this section shall be made promptly available by the appropriate landholding agency to the approved applicant by lease or permit for a term of not less than 1 year, unless the applicant requests a shorter term.

(3)(A) In disposing of surplus property by deed or lease under sections 541–555 of title 40, the Administrator and the Secretary of Health and Human Services shall give priority of consideration to uses to assist the homeless, unless the Administrator or the Secretary of Health and Human Services determines that a competing request for the property under section 550 of title 40 is so meritorious and compelling as to outweigh the needs of the homeless.

(B) Whenever the Administrator or the Secretary of Health and Human Services makes a determination under subparagraph (A), the Administrator or the Secretary of Health and Human Services shall transmit to the appropriate committees of the Congress an explanatory statement detailing the need satisfied by conveyance of the surplus property and the reasons for determining that such need was so meritorious and compelling as to outweigh the needs of the homeless.

(4) For any property made available by lease to a representative of the homeless before November 29, 1990, the Secretary of Health and Human Services may, upon written request by the representative, convey such property by deed to the representative in accordance with, and subject to the requirements of, section 550 of title 40. The lease term shall not be affected if a deed is not granted.

(g) Records

§ 11431. Statement of policy

The following is the policy of the Congress:

(1) Each State educational agency shall ensure that each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education, including a public preschool education, as provided to other children and youths.

(2) In any State that has a compulsory residency requirement as a component of the State's compulsory school attendance laws or other laws, regulations, practices, or policies that may act as a barrier to the enrollment, attendance, or success in school of homeless children and youths, the State will review and undertake steps to revise such laws, regulations, practices, or policies to ensure that homeless children and youths are afforded the same free, appropriate public education as provided to other children and youths.

(3) Homelessness alone is not sufficient reason to separate students from the mainstream school environment.

(4) Homeless children and youths should have access to the education and other services that such children and youths need to ensure that such children and youths have an opportunity to meet the same challenging State student academic achievement standards to which all students are held.

(B) the Secretary of Housing and Urban Development designates as an enterprise zone, after consultation with—

(i) the Secretaries of Agriculture, Commerce, Labor, and the Treasury, the Director of the Office of Management and Budget, and the Administrator of the Small Business Administration; and

ranking. For purposes of the preceding sentence, an area shall be ranked within each such criterion on the basis of the amount by which the area exceeds such criterion, with the area that exceeds such criterion by the greatest amount given the highest ranking.

(B) Exception where inadequate course of action, etc.

An area shall not be designated under subparagraph (A) if the Secretary determines that the course of action with respect to such area is inadequate.

(C) Separate application to rural and other areas

Subparagraph (A) shall be applied separately with respect to areas described in paragraph (2)(B) and to other areas.

(4) Limitation on designations

(A) Publication of regulations

Before designating any area as an enterprise zone, the Secretary shall prescribe by regulation not later than 4 months following February 5, 1988, after consultation with the officials described in paragraph (1)(B)—

(I) to nominate such area for designation as an enterprise zone;

(II) to make the State and local commitments under subsection (d) of this section; and

(III) to provide assurances satisfactory to the Secretary that such commitments will be fulfilled;

(ii) a nomination therefor is submitted in such a manner and in such form, and contains such information, as the Secretary shall by regulation prescribe;

In the case of a nominated area on an Indian reservation, the reservation governing body

(2) Revocation of designation

The Secretary, after consultation with the officials described in subsection (a)(1)(B) of this section and a hearing on the record involving officials of the State or local government involved, may revoke the designation of an area if the Secretary determines that the local government or the State in which it is located is not complying substantially with the State and local commitments pursuant to subsection (d) of this section.

(E) the area meets at least one of the following criteria:

(ii) The population of the area decreased by 20 percent or more between 1970 and 1980 (as determined from the most recent census available).

(4) Eligibility requirements for rural areas

For purposes of paragraph (1), a nominated area that is a rural area described in subsection (a)(2)(B) of this section meets the requirements of paragraph (3) if the State and local governments in which it is located certify and the Secretary, after such review of supporting data as he deems appropriate, accepts such certification, that the area meets—

(A) the criteria set forth in subparagraphs (A) and (B) of paragraph (3); and

(B) not less than one of the criteria set forth in the other subparagraphs of paragraph (3).

(d) Required State and local commitments

(1) In general

No nominated area shall be designated as an enterprise zone unless the local government and the State in which it is located agree in writing that, during any period during which the area is an enterprise zone, such governments will follow a specified course of action designated to reduce the various burdens borne by employers or employees in such area. A course of action shall not be treated as meeting the requirements of this paragraph unless the course of action include provisions described in not less than 4 of the subparagraphs of paragraph (2).

(2) Course of action

The course of action under paragraph (1) may be implemented by both such governments and private nongovernmental entities, may be funded from proceeds of any program administered by the Secretary of Housing and Urban Development or of any program administered by the Secretary of Agriculture under title V of the Housing Act of 1949 [42 U.S.C. 1471 et seq.], and may include, but is not limited to—

(4) Prohibition of assistance for business relocations

(A) In general

The course of action implemented under paragraph (1) may not include any action to assist—

(B) Exception

The limitations established in subparagraph (A) shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary if the Secretary—

- (i) finds that the establishment of the new branch, affiliate, or subsidiary will not result in an increase in unemployment in the area of original location or in any other area where the existing business entity conducts business operations; and
- (ii) has no reason to believe that the new branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where the existing business entity conducts business operations.

§ 11504. Waiver or modification of housing and community development rules in enterprise zones

(a) In general

Upon the written request of the governments that designated and approved an area that has been designated as an enterprise zone under section 11501 of this title, the Secretary of Housing and Urban Development (or, with respect to any

rule issued under title V of the Housing Act of 1949 [42 U.S.C. 1471 et seq.], the Secretary of Agriculture) may, in order to further the job creation, community development, or economic revitalization objectives of the zone, waive or modify all or part of any rule that the Secretary has authority to promulgate, as such rule pertains to the carrying out of projects, activities, or undertakings within the zone.

(b) Limitation

No provision of this section may be construed to authorize the Secretary to waive or modify any rule adopted to carry out a statute or Executive order that prohibits, or the purpose of which is to protect persons against, discrimination on the basis of race, color, religion, sex, marital status, national origin, age, or handicap.

(c) Submission of requests

A request under subsection (a) of this section shall specify the rule or rules to be waived or modified and the change proposed, and shall briefly describe why the change would promote the achievement of the job creation, community development, or economic revitalization objectives of the enterprise zone. If a request is made to the Secretary of Agriculture, the requesting governments shall send a copy of the request to the Secretary of Housing and Urban Development at the time the request is made.

(d) Consideration of requests

In considering a request, the Secretary shall weigh the extent to which the proposed change is likely to further job creation, community development, or economic revitalization within the enterprise zone against the effect the change is likely to have on the underlying purposes of applicable statutes in the geographic area that would be affected by the change. The Secretary shall approve the request whenever the Secretary finds, in the discretion of the Secretary, that the public interest that the proposed change would serve in furthering such job creation, community development or economic revitalization outweighs the public interest that continuation of the rule unchanged would serve in furthering such underlying purposes. The Secretary shall not approve any request to waive or modify a rule if that waiver or modification would—

(1) directly violate a statutory requirement;

or

(2) be likely to present a significant risk to the public health, including environmental health or safety.

(e) Notice of disapproval

If a request is disapproved, the Secretary shall inform the requesting governments in writing of the reasons therefor and shall, to the maximum extent possible, work with such governments to develop an alternative, consistent with the standards contained in subsection (d) of this section.

(f) Period for determination

The Secretary shall discharge the responsibilities of the Secretary under this section in an expeditious manner, and shall make a determination on requests not later than 90 days after their receipt.

(g) Applicable procedures

A waiver or modification of a rule under subsection (a) of this section shall not be considered to be a rule, rulemaking, or regulation under chapter 5 of title 5. To facilitate reaching a decision on any requested waiver or modification, the Secretary may seek the views of interested parties and, if the views are to be sought, determine how they should be obtained and to what extent, if any, they should be taken into account in considering the request. The Secretary shall publish a notice in the Federal Register stating any waiver or modification of a rule under this section.

(h) Effect of subsequent amendment of rules

In the event that the Secretary proposes to amend a rule for which a waiver or modification under this section is in effect, the Secretary shall not change the waiver or modification to impose additional requirements unless the Secretary determines, consistent with standards contained in subsection (d) of this section, that such action is necessary.

(i) Expiration of waivers and modifications

No waiver or modification of a rule under this section shall remain in effect for a longer period than the period for which the enterprise zone designation remains in effect for the area in which the waiver or modification applies.

The term “rule” means—

11610.	Authorization of appropriations.
11611.	Report on compliance with the Hague Convention on International Child Abduction.

§ 11601. Findings and declarations**(a) Findings**

The Congress makes the following findings:

(1) The international abduction or wrongful retention of children is harmful to their well-being.

(2) Persons should not be permitted to obtain custody of children by virtue of their wrongful removal or retention.

(3) International abductions and retentions of children are increasing, and only concerted cooperation pursuant to an international agreement can effectively combat this problem.

(4) The Convention on the Civil Aspects of International Child Abduction, done at The Hague on October 25, 1980, establishes legal rights and procedures for the prompt return of children who have been wrongfully removed or retained, as well as for securing the exercise of visitation rights. Children who are wrongfully removed or retained within the meaning of the Convention are to be promptly returned unless one of the narrow exceptions set forth in the Convention applies. The Convention provides a sound treaty framework to help resolve the problem of international abduction and retention of children and will deter such wrongful removals and retentions.

(b) Declarations

The Congress makes the following declarations:

(1) It is the purpose of this chapter to establish procedures for the implementation of the Convention in the United States.

(2) The provisions of this chapter are in addition to and not in lieu of the provisions of the Convention.

(3) In enacting this chapter the Congress recognizes—

(A) the international character of the Convention; and

(B) the need for uniform international interpretation of the Convention.

(4) The Convention and this chapter empower courts in the United States to determine only rights under the Convention and not the merits of any underlying child custody claims.

EX. ORD. NO. 12648. IMPLEMENTATION OF CONVENTION ON CIVIL ASPECTS OF INTERNATIONAL CHILD ABDUCTION

Ex. Ord. No. 12648, Aug. 11, 1988, 53 F.R. 30637, provided:

The United States of America deposited its instrument of ratification of the Hague Convention on the Civil Aspects of International Child Abduction (“Convention”) on April 29, 1988. The Convention entered into force for the United States on July 1, 1988. Article 6 of the Convention imposes upon Contracting States an obligation to designate a “Central Authority” for the purpose of discharging certain specified functions.

In order that the Government of the United States of America may give full and complete effect to the Convention, and pursuant to section 7 of the International Child Abduction Remedies Act, Public Law No. 100-300 (1988) [42 U.S.C. 11606], it is expedient and necessary that I designate a Central Authority within the Executive branch of said Government:

NOW, THEREFORE, by virtue of the authority vested in me as President by the Constitution and the laws of the United States, including section 301 of Title 3 of the United States Code and section 7 of the International Child Abduction Remedies Act, it is ordered as follows:

SECTION 1. *Designation of Central Authority.* The Department of State is hereby designated as the Central Authority of the United States for purposes of the Hague Convention on the Civil Aspects of International Child Abduction. The Secretary of State is hereby authorized and empowered, in accordance with such regulations as he may prescribe, to perform all lawful acts that may be necessary and proper in order to execute the functions of the Central Authority in a timely and efficient manner.

RONALD REAGAN.

§ 11607. Costs and fees

(a) Administrative costs

No department, agency, or instrumentality of the Federal Government or of any State or local government may impose on an applicant any fee in relation to the administrative processing of applications submitted under the Convention.

(b) Costs incurred in civil actions

(1) Petitioners may be required to bear the costs of legal counsel or advisors, court costs incurred in connection with their petitions, and travel costs for the return of the child involved and any accompanying persons, except as provided in paragraphs (2) and (3).

(2) Subject to paragraph (3), legal fees or court costs incurred in connection with an action brought under section 11603 of this title shall be borne by the petitioner unless they are covered by payments from Federal, State, or local legal assistance or other programs.

(3) Any court ordering the return of a child pursuant to an action brought under section

11603 of this title shall order the respondent to pay necessary expenses incurred by or on behalf of the petitioner, including court costs, legal fees, foster home or other care during the course of proceedings in the action, and transportation costs related to the return of the child, unless the respondent establishes that such order would be clearly inappropriate.

(Pub. L. 100-300, § 8, Apr. 29, 1988, 102 Stat. 440.)

§ 11608. Collection, maintenance, and dissemination of information

(a) In general

In performing its functions under the Convention, the United States Central Authority may, under such conditions as the Central Authority prescribes by regulation, but subject to subsection (c) of this section, receive from or transmit to any department, agency, or instrumentality of the Federal Government or of any State or foreign government, and receive from or transmit to any applicant, petitioner, or respondent, information necessary to locate a child or for the purpose of otherwise implementing the Convention with respect to a child, except that the United States Central Authority—

(1) may receive such information from a Federal or State department, agency, or instrumentality only pursuant to applicable Federal and State statutes; and

(2) may transmit any information received under this subsection notwithstanding any provision of law other than this chapter.

(b) Requests for information

Requests for information under this section shall be submitted in such manner and form as the United States Central Authority may prescribe by regulation and shall be accompanied or supported by such documents as the United States Central Authority may require.

(c) Responsibility of government entities

Whenever any department, agency, or instrumentality of the United States or of any State receives a request from the United States Central Authority for information authorized to be provided to such Central Authority under subsection (a) of this section, the head of such department, agency, or instrumentality shall promptly cause a search to be made of the files and records maintained by such department, agency, or instrumentality in order to determine whether the information requested is contained in any such files or records. If such search discloses the information requested, the head of such department, agency, or instrumentality shall immediately transmit such information to the United States Central Authority, except that any such information the disclosure of which—

(1) would adversely affect the national security interests of the United States or the law enforcement interests of the United States or of any State; or

(2) would be prohibited by section 9 of title 13;

shall not be transmitted to the Central Authority. The head of such department, agency, or instrumentality shall, immediately upon comple-

tion of the requested search, notify the Central Authority of the results of the search, and whether an exception set forth in paragraph (1) or (2) applies. In the event that the United States Central Authority receives information and the appropriate Federal or State department, agency, or instrumentality thereafter notifies the Central Authority that an exception set forth in paragraph (1) or (2) applies to that information, the Central Authority may not disclose that information under subsection (a) of this section.

(d) Information available from Parent Locator Service

To the extent that information which the United States Central Authority is authorized to obtain under the provisions of subsection (c) of this section can be obtained through the Parent Locator Service, the United States Central Authority shall first seek to obtain such information from the Parent Locator Service, before requesting such information directly under the provisions of subsection (c) of this section.

(e) Recordkeeping

The United States Central Authority shall maintain appropriate records concerning its activities and the disposition of cases brought to its attention.

§ 11701. Findings

The Congress finds that:

(1) Native Hawaiians comprise a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago whose society was organized as a Nation prior to the arrival of the first nonindigenous people in 1778.

(2) The Native Hawaiian people are determined to preserve, develop and transmit to future generations their ancestral territory, and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

(3) The constitution and statutes of the State of Hawaii:

(A) acknowledge the distinct land rights of Native Hawaiian people as beneficiaries of the public lands trust; and

(B) reaffirm and protect the unique right of the Native Hawaiian people to practice and perpetuate their cultural and religious customs, beliefs, practices, and language.

(4) At the time of the arrival of the first non-indigenous people in Hawaii in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient, subsistence social system based on communal land tenure with a sophisticated language, culture, and religion.

(5) A unified monarchical government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

(6) Throughout the 19th century and until 1893, the United States: (A) recognized the independence of the Hawaiian Nation; (B) extended full and complete diplomatic recognition to the Hawaiian Government; and (C) entered into treaties and conventions with the Hawaiian monarchs to govern commerce and navigation in 1826, 1842, 1849, 1875 and 1887.

(7) In the year 1893, the United States Minister assigned to the sovereign and independent Kingdom of Hawaii, John L. Stevens, conspired with a small group of non-Hawaiian residents of the Kingdom, including citizens of the United States, to overthrow the indigenous and lawful Government of Hawaii.

(8) In pursuance of that conspiracy, the United States Minister and the naval representative of the United States caused armed naval forces of the United States to invade the sovereign Hawaiian Nation in support of the overthrow of the indigenous and lawful Government of Hawaii and the United States Minister thereupon extended diplomatic recognition of a provisional government formed by the conspirators without the consent of the native people of Hawaii or the lawful Government of Hawaii in violation of treaties between the two nations and of international law.

(9) In a message to Congress on December 18, 1893, then President Grover Cleveland reported fully and accurately on these illegal actions, and acknowledged that by these acts, described by the President as acts of war, the government of a peaceful and friendly people was overthrown, and the President concluded that a "substantial wrong has thus been done which a due regard for our national character as well as the rights of the injured people required that we should endeavor to repair".

(10) Queen Lili'uokalani, the lawful monarch of Hawaii, and the Hawaiian Patriotic League, representing the aboriginal citizens of Hawaii, promptly petitioned the United States for redress of these wrongs and for restoration of the indigenous government of the Hawaiian nation, but this petition was not acted upon.

(11) In 1898, the United States annexed Hawaii through the Newlands Resolution without the consent of or compensation to the indigenous people of Hawaii or their sovereign government who were thereby denied the mechanism for expression of their inherent sovereignty through self-government and self-determination, their lands and ocean resources.

(12) Through the Newlands Resolution and the 1900 Organic Act, the United States Congress received 1.75 million acres of lands for-

merly owned by the Crown and Government of the Hawaiian Kingdom and exempted the lands from then existing public land laws of the United States by mandating that the revenue and proceeds from these lands be "used solely for the benefit of the inhabitants of the Hawaiian Islands for education and other public purposes", thereby establishing a special trust relationship between the United States and the inhabitants of Hawaii.

(13) In 1921, Congress enacted the Hawaiian Homes Commission Act, 1920 which designated 200,000 acres of the ceded public lands for exclusive homesteading by Native Hawaiians, thereby affirming the trust relationship between the United States and the Native Hawaiians, as expressed by then Secretary of the Interior Franklin K. Lane who was cited in the Committee Report of the United States House of Representatives Committee on Territories as stating, "One thing that impressed me . . . was the fact that the natives of the islands who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty."

(14) In 1938, the United States Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781 et seq.), a provision to lease lands within the extension to Native Hawaiians and to permit fishing in the area "only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance".

(15) Under the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges, and legislative amendments affecting the rights of beneficiaries under such Act.

(16) Under the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for administration over portions of the ceded public lands trust not retained by the United States to the State of Hawaii but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the legal responsibility of the State for the betterment of the conditions of Native Hawaiians under section 5(f) of the Act entitled "An Act to provide for the admission of the State of Hawaii into the Union", approved March 18, 1959 (73 Stat. 4, 6).

(17) The authority of the Congress under the United States Constitution to legislate in matters affecting the aboriginal or indigenous peoples of the United States includes the authority to legislate in matters affecting the native peoples of Alaska and Hawaii.

(18) In furtherance of the trust responsibility for the betterment of the conditions of Native

Hawaiians, the United States has established a program for the provision of comprehensive health promotion and disease prevention services to maintain and improve the health status of the Hawaiian people.

(19) This historical and unique legal relationship has been consistently recognized and affirmed by the Congress through the enactment of Federal laws which extend to the Hawaiian people the same rights and privileges accorded to American Indian, Alaska Native, Eskimo, and Aleut communities, including the Native American Programs Act of 1974 [42 U.S.C. 2991 et seq.]; the American Indian Religious Freedom Act [42 U.S.C. 1996, 1996a]; the National Museum of the American Indian Act [20 U.S.C. 80q et seq.]; and the Native American Graves Protection and Repatriation Act [25 U.S.C. 3001 et seq.].

(20) The United States has also recognized and reaffirmed the trust relationship to the Hawaiian people through legislation which authorizes the provision of services to Native Hawaiians, specifically, the Older Americans Act of 1965 [42 U.S.C. 3001 et seq.], the Developmental Disabilities Assistance and Bill of Rights Act Amendments of 1987, the Veterans' Benefits and Services Act of 1988, the Rehabilitation Act of 1973 [29 U.S.C. 701 et seq.], the Native Hawaiian Health Care Act of 1988, the Health Professions Reauthorization Act of 1988, the Nursing Shortage Reduction and Education Extension Act of 1988, the Handicapped Programs Technical Amendments Act of 1988, the Indian Health Care Amendments of 1988, and the Disadvantaged Minority Health Improvement Act of 1990.

(21) The United States has also affirmed the historical and unique legal relationship to the Hawaiian people by authorizing the provision of services to Native Hawaiians to address problems of alcohol and drug abuse under the Anti-Drug Abuse Act of 1986.

(22) Despite such services, the unmet health needs of the Native Hawaiian people are severe and the health status of Native Hawaiians continues to be far below that of the general population of the United States.

SUBCHAPTER I—PUBLIC AND ASSISTED HOUSING DRUG ELIMINATION

§ 11901. Congressional findings

The Congress finds that—

(1) the Federal Government has a duty to provide public and other federally assisted low-income housing that is decent, safe, and free from illegal drugs;

(2) public and other federally assisted low-income housing in many areas suffers from rampant drug-related or violent crime;

(3) drug dealers are increasingly imposing a reign of terror on public and other federally assisted low-income housing tenants;

(4) the increase in drug-related and violent crime not only leads to murders, muggings, and other forms of violence against tenants, but also to a deterioration of the physical environment that requires substantial government expenditures;

(5) local law enforcement authorities often lack the resources to deal with the drug problem in public and other federally assisted low-income housing, particularly in light of the recent reductions in Federal aid to cities;

(6) the Federal Government should provide support for effective safety and security measures to combat drug-related and violent crime, primarily in and around public housing projects with severe crime problems;

(7) closer cooperation should be encouraged between public and assisted housing managers, local law enforcement agencies, and residents in developing and implementing anti-crime programs; and

(8) anti-crime strategies should be improved through the expansion of community-oriented policing initiatives.

(Pub. L. 100-690, title V, § 5122, Nov. 18, 1988, 102 Stat. 4301; Pub. L. 101-625, title V, § 581(a), Nov. 28, 1990, 104 Stat. 4245; Pub. L. 105-276, title V, § 586(b), Oct. 21, 1998, 112 Stat. 2646.)

(1) In general

An eligible applicant that is a public housing agency may apply for a 1-year grant under this subchapter that, subject to the availability of appropriated amounts, shall be renewed annually for a period of not more than 4 additional years, except that such renewal shall be contingent upon the Secretary finding, upon an annual or more frequent review, that the grantee agency is performing under the terms of the grant and applicable laws in a satisfactory manner and meets such other requirements as the Secretary may prescribe. The Secretary may adjust the amount of any grant received or renewed under this paragraph to take into account increases or decreases in amounts appropriated for these purposes or such other factors as the Secretary determines to be appropriate.

The Secretary shall, by regulations issued after notice and opportunity for public comment, set forth criteria for establishing a class of public housing agencies that have urgent or serious crime problems. § 12101. Findings and purpose

(a) Findings

The Congress finds that—

(1) some 43,000,000 Americans have one or more physical or mental disabilities, and this number is increasing as the population as a whole is growing older;

(2) historically, society has tended to isolate and segregate individuals with disabilities, and, despite some improvements, such forms of discrimination against individuals with disabilities continue to be a serious and pervasive social problem;

(3) discrimination against individuals with disabilities persists in such critical areas as employment, housing, public accommodations, education, transportation, communication, recreation, institutionalization, health services, voting, and access to public services;

(4) unlike individuals who have experienced discrimination on the basis of race, color, sex, national origin, religion, or age, individuals who have experienced discrimination on the basis of disability have often had no legal recourse to redress such discrimination;

(5) individuals with disabilities continually encounter various forms of discrimination, including outright intentional exclusion, the discriminatory effects of architectural, transportation, and communication barriers, over-protective rules and policies, failure to make modifications to existing facilities and practices, exclusionary qualification standards and criteria, segregation, and relegation to lesser services, programs, activities, benefits, jobs, or other opportunities;

(6) census data, national polls, and other studies have documented that people with disabilities, as a group, occupy an inferior status in our society, and are severely disadvantaged socially, vocationally, economically, and educationally;

(7) individuals with disabilities are a discrete and insular minority who have been faced with restrictions and limitations, subjected to a history of purposeful unequal treatment, and relegated to a position of political powerlessness in our society, based on characteristics that are beyond the control of such individuals and resulting from stereotypic assumptions not truly indicative of the individual ability of such individuals to participate in, and contribute to, society;

(8) the Nation's proper goals regarding individuals with disabilities are to assure equality of opportunity, full participation, independent living, and economic self-sufficiency for such individuals; and

(9) the continuing existence of unfair and unnecessary discrimination and prejudice denies people with disabilities the opportunity

to compete on an equal basis and to pursue those opportunities for which our free society is justifiably famous, and costs the United States billions of dollars in unnecessary expenses resulting from dependency and non-productivity.

(b) Purpose

It is the purpose of this chapter—

(1) to provide a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities;

(2) to provide clear, strong, consistent, enforceable standards addressing discrimination against individuals with disabilities;

(3) to ensure that the Federal Government plays a central role in enforcing the standards established in this chapter on behalf of individuals with disabilities; and

§ 12112. Discrimination**(a) General rule**

No covered entity shall discriminate against a qualified individual with a disability because of the disability of such individual in regard to job application procedures, the hiring, advance-

ment, or discharge of employees, employee compensation, job training, and other terms, conditions, and privileges of employment.

(b) Construction

As used in subsection (a) of this section, the term “discriminate” includes—

(c) Covered entities in foreign countries**(1) In general**

It shall not be unlawful under this section for a covered entity to take any action that constitutes discrimination under this section with respect to an employee in a workplace in a foreign country if compliance with this section would cause such covered entity to violate the law of the foreign country in which such workplace is located.
